REPORT

ON THE

TWELFTH CENSUS OF SCOTLAND.

CENSUS OFFICE,
EDINBURGH, 27th June 1913.

TO THE RIGHT HONOURABLE THOMAS M'KINNON WOOD, M.P.,

His Majesty's Secretary for Scotland.

SIR,

We have now the honour of submitting the Second Volume of the Report on the Twelfth Census of Scotland, which was taken on the night of 2nd April, 1911.

We have already submitted a Preliminary Report of the Census, and this was followed later by the First Volume of the detailed Report. The Preliminary Report was prepared and published within a few weeks of the date of the Census; and dealt with the population figures of only the more important administrative divisions of the country. It was based upon Summaries compiled by the Registrars of the various districts throughout the country prior to the transmission of the Enumeration Books to the Census Office, and before their inspection and verification for the purposes of detailed tabulation of the results; and the figures given in the Preliminary Report were accordingly, as stated therein, essentially of a provisional nature. The First Volume of the Report was designed more especially to meet local requirements, and was issued in thirty-seven parts, each dealing exclusively with the Census of one of the four large cities, or with one of the thirty-three counties.

In the present Volume the results of the Census of the whole of Scotland are collected and dealt with; and for purposes of complete and convenient reference, though very considerable local detail is omitted, all the more important censal facts set forth in the First Volume are repeated in comprehensive and handy form.

We intend in the near future to submit to you our Third Volume, which deals with the statistics of some special subjects; such as the occupations of persons of English and Irish birth enumerated in Scotland, the distribution, nationalities, and occupations of foreigners, the numbering of the infirm, and the fertility statistics of existing marriages. The preparation of the Third Volume is now well advanced.

It has been usual in previous Census Reports to describe at some length the methods employed in taking the Census; but we do not propose to do so on the present occasion as the methods of enumeration adopted differed only in minor detail from those employed in immediately preceding Censuses, and the descriptions then given may accordingly be regarded as furnishing a reasonably accurate account of the procedure followed on this occasion.

There are, however, two points of difference between this Census and those immediately preceding, to which attention should be drawn, the one being the increased personal information collected in the householders' schedules, and the other the use of mechanical tabulation. The former covers two new subjects, viz., the industries to which the occupations of the individuals are related, and the fertility of the marriages of those enumerated. The industries of the population have already been shortly dealt with in the First Volume of the Report, but are tabulated in greater detail in this

Volume; while the fertility of marriage is, as above stated, a subject the consideration of which has been deferred to the Third Volume. The use of mechanical tabulation has enabled the Census Returns to be more fully, and almost certainly more accurately, detailed and tabulated than has hitherto been the case. As instances of greater detail of tabulation made practicable, or at least greatly facilitated, by the use of the machines, we may mention the extensive particulars of parish and burgh populations given in the First Volume, and the tabulation by single ages of the population, and of the birthplaces of Gaelic speakers given in the present Volume. The elaborate tabulation of the industries of the population, also included in this Volume, is another instance, and in fact was only made feasible by the adoption of the method referred to.

A difference between the Tables to be found in this Report and in those of previous censuses consists in the omission of the publication of the populations of communities described as "Towns" and "Villages." The limits of the towns and villages as separately dealt with on previous occasions were not defined by any statutory boundaries, but were to a large extent arbitrary. It was felt, therefore, that the populations of such areas were of small statistical or administrative value—being founded on figures based more on individual opinion than on recognised fact. The omission, however, is to a large extent made good by the publication of the population figures of special water, drainage, scavenging, and lighting districts, as in the great majority of "Towns" and "Villages" of any importance one or other or more of these special districts have been set up, the populations of which may accordingly be taken as being those of the "Towns" and "Villages" bearing the same name. This matter is further referred to in the text of the Report.

In preparing the Census Report, we have considered it to be our primary duty to record facts rather than to draw inferences from them, the latter not being the function of those charged with the compilation and tabulation. Acting on this principle, we have endeavoured to make the tables full and self-explanatory, and have made no attempt to make the text an exhaustive description of the contents of the tables. In a few instances only, do we suggest what general theories or inferences may be drawn from them.

We have deemed it to be for the convenience of the reader to divide the descriptive portion of the Report into sections, and to follow each section by such Summary and Abstract Tables as may be necessary to illustrate the text. All the principal Tables, however, will be found collected and placed at the end of the text matter and its accompanying subsidiary Tables.

The Sections of the text, and the pages on which they respectively commence, are as follows:—

- A. Population Figures of Scotland and of its Principal Divisions, page v.
- B. Density of Population in Scotland and in the Counties, Parishes, and Burghs, page xlv.
- C. Ages and Conjugal Conditions of the Population, page 1.
- D. Occupations of the Population, page lxvii.
- E. Industries of the Occupied, page lxxxvii.
- F. Birthplaces of the Population, page xci.
- G. Housing of the Population, page c.
- H. Gaelic-speaking Population, page civ.

In Section C, which deals with the Ages of the Population, are given four charts, two illustrating the present age distribution of the population, and comparing it with that found by the Census of 1901; and two showing the crude and the graduated distribution of the population at single ages.

We append to the text, on pages cix. to cxiv., a reprint of the Census (Great Britain) Act, 1910, and a copy of the householder's schedule used in the taking of the Census, in order to indicate the nature and source of the information dealt with in the tabulation.

We have the honour to be,

Sir,

Your most obedient Servants,

J. PATTEN MACDOUGALL,
Registrar General.

JAMES C. DUNLOP,
Superintendent of Statistics.

REPORT

ON THE

TWELFTH CENSUS OF SCOTLAND.

A—THE POPULATION OF SCOTLAND AND OF THE PRINCIPAL DIVISIONS OF THE COUNTRY.

Preliminary Report superseded.—The population of Scotland is ascertained to be 4,760,904, males numbering 2,308,839, and females 2,452,065. In the Preliminary Report on the census, the provisional statement of the population was 4,759,445, and this figure differs from the final, or revised, figure now announced by 1,459, the difference being a shortage. This difference is practically entirely accounted for by shipping returns received after the draft of the Preliminary Report was in press, and is not due to any error of abstraction. These late returns dealt with a population of 1,473, composed of the crews of a large section of the Aberdeen fishing fleet and that of a ship of the Royal Navy which, on census day, was in the Firth of Forth. The difference between this figure and 1,459, the shortage of the provisional statement of population, is only 14, and is the net error of the provisional statement.

That the error should be so insignificant—14 in four and three-quarter millions, or rather less than 0·0003 per cent.—is good evidence of the general accuracy of both tabulations—the preliminary and the final. On the one hand it reflects great credit on the Registrars, whose duty it was to prepare the abstracts for the purpose of compiling the Preliminary Report; and on the other hand it furnishes proof of the reliability of the mechanical system of card tabulation which has been used in the Scottish Census Office for the first time.

Intercensal Increase.—When the present population of Scotland is compared with that of 1901, it is found that there has been an intercensal increase of 288,801—the increase of the male population being 135,084, and that of the female population 153,717. The intercensal rate of increase of the total population is 6·5 per cent.—of the male population 6·2 per cent., and of the female 6·8 per cent. (*Tables I. and A1.*)

In 1801, the year of the first census of Scotland, the population was ascertained to be 1,608,420, and all succeeding censuses have shown increases. The population exceeded two millions for the first time in 1821, three millions in 1861, and four millions in 1891. The amounts of the intercensal increases found by the censuses of 1811 onwards have varied between 446,456 in 1901 and 173,552 in 1861. The present intercensal increase is less than any of those found by the censuses of 1871 to 1901, but is more than any found by the earlier censuses, and is thus fifth in order of magnitude. (*Tables II., III., A1, and A3.*)

The intercensal increase of the male population is less than any found by the censuses of 1871 to 1901, and than that found by the census of 1821, but is greater than any found by the other censuses; in order of magnitude it is sixth. The increase of the female population is third in order of magnitude, larger increases having occurred in 1881 and 1901 only.

The rate of intercensal increase of the population is small when compared with all but one of the increases found by previous censuses. The highest rate of increase was found in 1821, when it amounted to 15·8 per cent., and the lowest in 1861, when it was 6·0 per cent. By the censuses of 1811 to 1851 intercensal increases of more than 10 per cent. were found; in 1861 the figure fell to 6·0 per cent.; in 1871 it rose to

9·7 per cent.; and in 1881 to 11·2 per cent.; in 1891 it fell to 7·8 per cent., but rose again in 1901 to 11·1 per cent. Thus the rate of intercensal increase now found, 6·5 per cent., is less than any of those found by previous censuses with the single exception of 1861. (*Tables IV., A1, and A4.*)

The rate of intercensal increase of the male population from 1801 onwards has varied between 18·9 in 1821 and 5·4 in 1861. It has exceeded 10 per cent. at all censuses with the exception of those of 1861, 1891, and the present, the 1911 census. In the 1861 census only was the rate of intercensal increase of the male population found to be less than that now ascertained. (*Tables IV. and A1.*)

Variations of the rate of intercensal increase in the female population have been similar, for in 1861 only was the rate of increase less than that ascertained by the present census. This is the third census in which this increase has been less than 9 per cent., and the second in which it has been found to be less than 7 per cent.

Tables A3 and A4 have been constructed to show how the figures of all censuses since 1801 compare with each other, Table A3 giving the specific numbers, and Table A4 the percentage differences.

The present population is fully one million greater than the population of 1881, fully two millions more than that of 1841, nearly three millions more than that of 1811, and is 3,152,484 more than that of 1801. The population is now nearly three times as large as in 1801, and is fully twice as large as in 1831. The population more than doubled itself between the following censal dates:—1801 and 1871, 1811 and 1881, and 1831 and 1911. It increased by nearly 150 per cent. between 1801 and 1891, and between 1811 and 1901, and it increased by nearly 200 per cent., or nearly threefold, between 1801 and 1911.

Ratio of Females to Males.—The ratio of females to males in Scotland at the present census was 106·2 to 100. At last census this ratio was 105·7 to 100, the present ratio showing an increase of 0·5. The fact that the intercensal increase in the female part of the population exceeds the intercensal increase in the male portion, both absolutely and relatively, has been referred to above, and this fact inevitably causes the ratio now under consideration to rise.

In 1801 the ratio of females to males in Scotland was 117·6 to 100, and in 1811 it was found to be somewhat higher—118·5 to 100; but since the latter year all censuses, with the exception of those of 1861 and the present, have shown it to be a falling quantity. It fell below 112 to 100 in 1841, below 110 to 100 in 1871, below 108 to 100 in 1881, and below 106 to 100 in 1901. This ratio in 1861 was 111·2 to 100, and was 1·2 above that of 1851. It is by the present census and by that of 1861 that the smallest rates of intercensal increase of the male population are found. (*Table A1.*)

Effect of Migration.—The natural increase of the population of Scotland, the excess of registered births over registered deaths, during the intercensal period from 1901 to 1911, amounts to 542,843, and the difference between this figure and the net increase in the population of 1911 over that of 1901 is a measure of the loss of population by migration. That difference amounts to 254,042. This is the largest decennial loss of population by migration from Scotland yet recorded. In 1871, the first census year in which ten complete years of registration figures were available, the loss by migration was found to be 117,002, in 1881 it was 93,328, in 1891 it was 217,418, and in 1901 it was 53,356. The loss ascertained by the present census amounts to 46·8 per cent. of the natural increase; in 1901 to 10·7 per cent.; in 1891 to 42·8 per cent.; in 1881 to 19·9 per cent.; and in 1871 to 28·3 per cent.

The natural increase, *i.e.*, the excess of births over deaths, of the male population during the intercensal period, amounted to 285,299, and of the female population to 257,544. The net intercensal increase of the male population is 135,084, and of the female 153,717, and consequently the loss of male population by migration during the period amounts to 150,215 or 52·7 per cent. of the natural increase, and of the female population to 103,827, or 40·3 per cent. of the natural increase. These losses by migration are both larger than that found by any previous census. In 1871 the decennial loss of males was 71,723, or 31·9 per cent. of the natural increase; in 1881 it was 54,859, or 21·8 per cent.; in 1891, 130,148, or 47·6 per cent.; and in 1901, 35,746, or 13·4 per cent. The corresponding losses by migration of females, and the ratio of these to the natural increase of females, are: 1871, 45,279, or 23·9 per cent.; 1881, 38,469, or 17·7 per cent.; 1891, 87,270, or 37·3 per cent.; and 1901, 17,610, or 7·6 per cent. (*Table A2.*)

County Populations.

The principal facts regarding the populations of the counties are given in Tables I. to IV. of this Volume, and in the text tables which will be found at the end of this section of the Report (*page XXII.*). They were also fully set forth in Parts 5 to 37 of Volume I., which dealt with the counties separately and in detail.

Distribution of County Populations.—There are 33 counties in Scotland, and these vary in amount of population from 1,447,034 in Lanark, 507,666 in Edinburgh, 314,552 in Renfrew, and 312,177 in Aberdeen, to 7,527 in Kinross, 9,319 in Nairn, 15,258 in Peebles, and 18,186 in Bute. The mean of the county populations is 144,270. One county, viz.: Lanark, has a population of over 1,000,000, and one, viz.: Edinburgh, a population of over 500,000; six have populations of more than 150,000, but less than 500,000; two of more than 100,000, but less than 150,000; six of more than 50,000, but less than 100,000; eleven of more than 25,000, but less than 50,000; and six of less than 25,000. (*Tables I. and A5.*)

Of the population of Scotland, 30·4 per cent. were enumerated in Lanark, 10·7 per cent. in Edinburgh, 6·6 per cent. in Renfrew, 6·6 per cent. in Aberdeen, 5·9 per cent. in Forfar, 5·6 per cent. in Ayr, and 5·6 per cent. in Fife, while less than 1 per cent. were enumerated in each of sixteen counties, namely Berwick, Bute, Caithness, Clackmannan, Elgin, Haddington, Kincardine, Kinross, Kirkcudbright, Nairn, Orkney, Peebles, Selkirk, Shetland, Sutherland, and Wigtown. The three adjoining counties of Lanark, Renfrew, and Dumbarton contain nearly 40 per cent. of the entire population of Scotland. (*Table A5.*)

The figures given in the above paragraph are in great contrast to the corresponding figures of 1801, for at that date Lanark and Edinburgh contained only 9·2 and 7·6 per cent. respectively of the total population; while only six counties, Bute, Clackmannan, Kinross, Nairn, Peebles, and Selkirk contained less than 1 per cent. At that date the counties of Lanark, Renfrew, and Dumbarton jointly contained only 15·4 per cent. of the total population in place of 40 per cent. as at present. Figures comparing the distribution of the population of Scotland in the different counties in the years 1891, 1901, and 1911 are given in Table A5. The comparison could not be carried back further than 1891, with any degree of accuracy, as the distribution was just prior to the census-taking of that year materially affected by boundary alterations.

Intercensal Change.—Of the thirty-three counties, eighteen have had increases of population during the intercensal period 1901-1911, and in fifteen there are decreases. The largest increases are found in Lanark, 107,707; in Fife, 48,899; in Renfrew, 45,572; in Dumbarton, 25,966; in Edinburgh 18,870; and in Stirling, 18,700; and the largest decreases are found in Inverness, 2,832; in Orkney, 2,802; Argyll, 2,740; Forfar, 2,665; and Caithness, 1,860. The County of Ross and Cromarty is included among the eighteen in which there is an intercensal increase of population, but the increase in it is entirely attributable to the presence of naval shipping, and were it not for this, the counties with intercensal increases would number seventeen, and those with intercensal decreases sixteen. (*Tables I., A6, and A7.*)

The distribution of the total intercensal increase in Scotland among the counties is shown in Table A7. This increase amounts to 288,801, and of it 107,707, or 37·3 per cent., is found to be in Lanark; 48,899, or 16·9 per cent., in Fife; 45,572, or 15·8 per cent., in Renfrew; 25,966, or 9·0 per cent., in Dumbarton; 18,870, or 6·5 per cent., in Edinburgh; 18,700, or 6·5 per cent., in Stirling; and 5 per cent. or less in eleven counties. The total increases in county populations amount to 310,680, or to 107·5 per cent. of the increase in all Scotland, the difference, 21,879, or 7·5 per cent., being the amount of the decreases in the other county populations. The largest of these decreases are found in the counties of Inverness, 2,832, or 1·0 per cent. of 288,801—the amount of the net increase of the population of Scotland; Orkney, 2,802, or 1·0 per cent., of such increase; Argyll, 2,740, or 0·9 per cent.; and Forfar, 2,665, or 0·9 per cent.

Since 1801 the population of Scotland has increased by 3,152,484, and it is not without interest to note the distribution of this increase among the different counties, even though the comparison may not be strictly accurate owing to the difficulties created by alterations which have taken place in county boundaries. The largest proportion of the increase, 1,299,342, or 41·2 per cent., is found in Lanark. Large

parts of the increase are also found in Edinburgh, viz., 385,069, or 12·2 per cent.; in Renfrew, 236,051, or 7·5 per cent.; in Aberdeen, 191,112, or 6·1 per cent.; in Ayr, 184,130, or 5·8 per cent.; in Forfar, 182,364, or 5·8 per cent.; in Fife, 173,996, or 5·5 per cent.; in Dumbarton, 119,121, or 3·8 per cent.; and in Stirling, 110,166, or 3·5 per cent. Compared with the figures of 1801 the populations of four counties show decreases, viz., Argyll, 10,375; Sutherland, 2,938; Perth, 1,241; and Berwick, 563. (*Tables II. and A8.*)

Ratio of Females to Males.—The ratio of females to each 100 males in Scotland is 106·2 to 100, and is 0·5 more than in 1901. In the counties this ratio varies from 127·1 in Bute, 122·2 in Forfar, 121·7 in Shetland, 118·7 in Roxburgh, and 117·1 in Selkirk to 87·6 in Linlithgow, 95·5 in Stirling, 99·6 in Ross and Cromarty, 100·1 in Argyll, and 100·6 in Dumbarton and Lanark. In three out of the six counties in which this ratio is lowest, the male population of the county proper was augmented on census day by the presence of ships of the Royal Navy. This was the case in Argyll, Linlithgow, and Ross and Cromarty; and excluding the naval population from the calculation, the ratio in Argyll is 105·6; in Linlithgow, 90·8; and in Ross and Cromarty, 111·0. On the same assumption the male population exceeds the female in two counties only, namely, Linlithgow and Stirling. In 1901 males outnumbered females in three counties—Linlithgow, Stirling, and Lanark. The counties showing the most marked differences between the sex ratios of this census and those of the census of 1901 include Orkney, Nairn, Peebles, and Linlithgow, where the ratios have increased by 6·8, 4·8, 4·6, and 4·3 respectively, and Fife, Shetland, and Haddington, where they have decreased by 5·6, 5·2, and 3·7 respectively. (*Table A6.*)

Effect of Migration.—Table A9 has been prepared to shew the effect of migration during the intercensal period on the county populations, and it may be there seen that in three counties only, Dumbarton, Fife, and Renfrew has the gain by migration into the county been greater than the loss by migration from the county, these gains and losses being measured by the difference between the natural increase (the excess of births over deaths) and the observed increase or decrease. The gain by migration in Fife amounts to 16,596, in Renfrew to 11,624, and in Dumbarton to 7,572. The greatest losses due to migration are found in Lanark, 100,578; in Aberdeen, 31,251; in Edinburgh, 26,402; and in Forfar, 24,935. In eighteen counties there is found to be an intercensal increase of population, but in fifteen of them that increase is found to be smaller than the natural increase, and in them the effect of migration is a loss. In the County of Lanark the natural increase is found to be 208,285, the observed increase to be 107,707, and the loss by migration in this one county is, as above stated, found to amount to 100,578.

Populations of Civil Parishes.

The populations of the civil parishes of Scotland are tabulated both in Volume I. of the Report and in this volume. In the first volume, in addition to the population numbers of the entire parishes, there are also given those of the various portions of the parishes, where there are divisions of such into burghal and extraburghal portions, into mainland and insular portions, or into parish wards, and also where the parishes are partly in one parliamentary constituency and partly in another, or where they are partly in special water, drainage, scavenging, or lighting districts. These detailed particulars of parish populations, which are not repeated in this volume, will be found in Table II. of the various county parts of Volume I. Retrospective tables giving and comparing the parish populations at the dates of previous censuses will also be found in that volume.

Distribution of Parish Populations.—The civil parishes of Scotland number 874, and as the total population of Scotland is 4,760,904, the average parish population is 5,447. This figure, however, is of little significance because of the wide range of variation of the populations from it. The most populous of the parishes are Glasgow, 577,559; Govan, 363,571; Edinburgh, 320,318; Aberdeen, 163,891; Dundee, 162,669; Paisley, 109,781; Leith, 80,488; Greenock, 74,294; Bothwell, 54,891; and Old Monkland, 61,026. The least populous are Cranshaws, 125; Lyne, 125; Lethendy, 140; Moonzie, 146; Glendevon, 148; Drumelzier, 164; Kinnaird, 172; Hownam, 193; Polwarth, 197; Tweedsmuir, 198; and Morham, 199. (*Table VI.*)

Civil parishes with populations of less than 500 number 136; of more than 500, but less than 1,000, 212; of more than 1,000 but less than 2,000, 223; of more than 2,000, but less than 5,000, 163; of more than 5,000, but less than 10,000, 69; of more than 10,000, but less than 50,000, 61; and of more than 50,000, 10. (*Table A10*).

The average county population is 144,270, and compared with this figure the population figures of five parishes are greater. The population of the least populous county, Kinross, is 7,527, and compared with this, 90 parishes have populations of greater amount.

Intercensal Change.—The populations of 338 parishes have increased during the intercensal period, and those of 533 have decreased, while the populations of 3 show no numerical change. The largest intercensal increases are found in Govan, 22,121; Cathcart, 18,330; Old Kilpatrick, 17,897; Bothwell, 8,986; Beath, 8,599; and Wemyss, 8,073. The largest decreases are found in Arbroath and St Vigean, 1,947; Slamannan, 1,846; Montrose, 1,358; Inverness, 1,094; Stromness, 832; and Beith, 824. The highest intercensal rates of increase of parish populations are found in Cromarty, 205 per cent.; Ballingry, 121·7 per cent.; Ecclesmachan, 112·8 per cent.; Auchterderran, 103·4 per cent.; Renfrew, 81·2 per cent.; and Beath, 54·0 per cent. The high rate of intercensal increase found in Cromarty is due, as already stated, to the enumeration of several ships of His Majesty's Navy which were in the Cromarty Firth on census day. The highest rates of intercensal decrease of parish populations are found in Tweedsmuir, 54·5 per cent.; Slamannan, 34·9 per cent.; Kilmodan, 31·8 per cent.; Stromness, 26·2 per cent.; Wandell and Lamington, 25·1 per cent.; and Lochcarron, 23·2 per cent. The high rate of decrease in Tweedsmuir Parish is due to the fact that a large number of navvies was enumerated there in 1901, but not at this census; and that in Stromness to a considerable shipping population having been enumerated there in 1901, but not at the present census. (*Table VII.*)

The populations of 329 parishes are unchanged, or have increased or decreased by less than 5 per cent. during the intercensal period; those of 79 parishes have increased by more than 5 but less than 10 per cent.; of 68 by more than 10 but less than 20 per cent.; of 23 by more than 20 but less than 30 per cent.; of 14 by more than 30 but less than 40 per cent.; of 5 by more than 40 but less than 50 per cent.; 7 by more than 50 but less than 75 per cent.; 2 by more than 75 but less than 100 per cent.; and 4 by more than 100 per cent.; while the populations of 192 have decreased by more than 5 but less than 10 per cent.; 109 by more than 10 but less than 15 per cent.; 27 by more than 15 but less than 20 per cent.; 12 by more than 20 but less than 30 per cent.; and 3 by more than 30 per cent. (*Table A11.*)

Ratio of Females to Males.—The ratio of females to males in the parishes varies greatly. It is found to be highest in Fintry, 150 to 100; Logie, 150 to 100; Bressay, 148 to 100; Elie, 148 to 100; St Andrews and St Leonards, 147 to 100; Sandsting, 147 to 100; Kinnoull, 144 to 100; Monkton and Prestwick, 143 to 100; Tingwall, 143 to 100; Largs, 141 to 100; and Rothesay, 140 to 100. It is found to be lowest in Cromarty, 18 to 100; Ardersier, 48 to 100; Dalmeny, 55 to 100; Buchanan, 56 to 100; Kilfinan, 56 to 100; Inverkeithing, 71 to 100; Lintrathen, 73 to 100; Salton, 73 to 100; Lismore and Appin, 75 to 100; and Marytown, 75 to 100. It may be generally stated that high ratios of females to males are found in some parishes where fishing is the predominant industry, such as Bressay, Sandsting, and Tingwall; in parishes to which retired persons take up residence, such as St Andrews and St Leonards, Elie, Logie, and Fintry; and in parishes containing summer holiday resorts, such as Largs, Dunoon & Kilmun, Rothesay, and Monkton & Prestwick; and that low ratios of females to males are found where military and naval forces predominate, as in Cromarty, Ardersier, Dalmeny, and Kilfinan; and where gangs of navvies are at work, as in Inverkeithing, Buchanan, and Lintrathen. (*Tables VII. and A12.*)

Parishes in more than one County.—Of the 874 parishes, all except six are situated in one county, and these six are partly in one county and partly in another. Aberdeen parish, which is conterminous with the City of Aberdeen, is partly in the County of Aberdeen and partly in that of Kincardine; Kirkliston parish is partly in the County of Edinburgh and partly in that of Linlithgow; Croy and Dalcross parish is partly in the County of Inverness and partly in that of Nairn; the parishes of Cathcart and Eastwood are partly in the County of Lanark and partly in that of Renfrew; and the parish of Melrose is partly in the County of Roxburgh and partly in that of Selkirk. (*Table VII.*)

Burghal Populations.

There are 205 burghs in Scotland, containing 3,140,419, or 66 per cent., of the total population of the country. In 1901 the burghal population of Scotland numbered 2,920,585, and compared with this figure the present burghal population is found to be 219,834, or 7·5 per cent. more. In 1901 the extraburghal population numbered 1,551,518, the intercensal increase of which is 68,967, or 4·4 per cent. But these comparisons are complicated by transferences during the intercensal period of certain landward districts, involving the population living within them, from extraburghal to burghal areas—brought about by alterations of boundaries; and if the comparison be made between the present burghal population of Scotland and the 1901 population of the areas now included within the burghs, the net increase of the burghal population is found to amount to 188,999, or 6·4 per cent., and that of the extraburghal population to 99,802, or 6·6 per cent. (*Tables IX. and A13.*)

Distribution of Burghal Populations.—The burghal populations are largest in the following counties, viz.:—in Lanark, 1,144,419, or 36·4 per cent. of the total burghal population of Scotland; in Edinburgh, 433,817, or 13·8 per cent.; in Forfar, 239,203, or 7·6 per cent.; in Renfrew, 233,752, or 7·4 per cent.; and in Aberdeen, 192,968, or 6·1 per cent. In Sutherland the burghal population numbers 741, in Kinross 2,618, in Nairn 4,661, and in Shetland 4,664. The counties in which the largest proportion of the population is in burghal areas, and the smallest in extraburghal areas, are Edinburgh, Forfar, Selkirk, Lanark, and Renfrew; and those in which the burghal population constitutes the smallest proportion of the total are Sutherland, Ross and Cromarty, Shetland, Orkney, and Berwick. In Edinburgh the burghal population constitutes 85·5 per cent. of the total population of the county; in Forfar, 85·0 per cent.; in Selkirk, 83·0 per cent.; in Lanark, 79·1 per cent.; and in Renfrew, 74·3 per cent. This percentage in Sutherland is 3·7, in Ross and Cromarty 15·5, in Shetland 16·7, in Orkney 21·1, and in Berwick 22·1. (*Table A14.*)

The average population of the 205 burghs of Scotland is 15,319, but this figure, like that of the average of the parish populations, is of little significance because of the wide dispersion of the individual burghal populations from this average. The most populous burghs are Glasgow, 784,496; Edinburgh, 320,318; Dundee, 165,004; Aberdeen, 163,891; Govan, 89,605; Paisley, 84,455; Leith, 80,488; Greenock, 75,140; and Partick, 66,849; and the least populous are Earlsferry, 322; New Galloway, 352; Culross, 456; Inveraray, 533; Anstruther-Wester, 552; and Abernethy, 593. Burghs with populations of less than 1,000 number 18; with populations of more than 1,000, but less than 2,000, 43; of more than 2,000, but less than 4,000, 47; of more than 4,000, but less than 5,000, 22; of more than 5,000, but less than 7,000, 14; of more than 7,000, but less than 10,000, 14; of more than 10,000, but less than 20,000, 21; of more than 20,000, but less than 30,000, 8; of more than 30,000, but less than 50,000, 9; and of more than 50,000, 9. (*Tables IX. and A15.*)

Intercensal Change.—In 127 of the 205 burghs, the populations have increased during the intercensal period, and in 77 they have decreased, while the population of one remains unchanged. The largest increases of burghal populations are found in Clydebank, 16,650; Partick, 12,551; Aberdeen, 10,388; Motherwell, 9,236; Glasgow, 8,902; and Govan, 7,431; and the largest decreases in Arbroath, 1,751; Montrose, 1,453; Maybole, 1,003; Inverness, 859; and Stromness, 797. (*Table X.*)

In 79 of the 205 burghs the populations have not increased or decreased during the intercensal period by as much as 5 per cent.; in 25 they have increased by more than 5 but less than 10 per cent.; in 17 by more than 10 but less than 15 per cent.; in 24 by more than 15 but less than 25 per cent.; in 11 by more than 25 but less than 50 per cent.; and in 9 by more than 50 per cent.; while in 28 they have decreased by more than 5 but less than 10 per cent.; in 6 by more than 10 but less than 15 per cent.; in 4 by more than 15 but less than 25 per cent.; and in 2 by more than 25 per cent. The highest rates of intercensal increase are found in Queensferry, 89·7 per cent.; Clydebank, 79·7 per cent.; Buckhaven, Methil and Innerleven, 75·8 per cent.; Cowdenbeath, 68·4 per cent.; Inverkeithing, 67·3 per cent.; Lochgelly, 67·2 per cent.; Tranent, 58·0 per cent.; and Cromarty, 55·2 per cent. The high rates of intercensal increase found in Queensferry and Cromarty are apparent rather than real, being due to the presence of naval shipping in their vicinities on census day. The highest rates of intercensal decrease

of burghal population are found in Stromness, 32·5 per cent.; Lochgilphead, 29·9 per cent.; Inveraray, 21·4 per cent.; Maybole, 17·0 per cent.; Rothes, 16·7 per cent.; and Tobermory, 15·9 per cent. The apparent loss of population in Stromness is largely explained by the fact that a considerable shipping population was enumerated there in 1901, but not at the present census. (*Tables X. and A16.*)

Effect of Migration.—The complete information necessary for the calculation of the natural increase of population (the excess of births over deaths) in all burghs is not available—it is available in the cases of fifteen of the largest only; but for the purpose of estimating the effect of migration on the burgh populations, it may be assumed to be approximately 12 per cent. Taking this figure, and applying it with some latitude, it may be further assumed that an intercensal increase of 15 per cent. or more is indicative of migration into the burgh being greater in amount than migration out from that burgh, that an intercensal increase of from 10 to 15 per cent. is not indicative of migration having markedly affected the population, and that all intercensal decreases and increases of less than 10 per cent. are indicative of there having been a loss of population by migration, or, in other words, an excess of outward over inward migration. On this basis it is found that in 44 burghs the populations have been increased by the balance of inward over outward migration, and in 144 burghs the populations have been decreased by the balance of outward over inward migration, while in 17 burghs migration has had little influence on the amount of the populations. (*Table A16.*)

The effect of migration in the fifteen burghs, for which full information is available, was a gain of population in three only, while in twelve it was a loss. The gains, *i.e.*, the instances in which the ascertained intercensal increases exceeded the natural increases, and the amount of the gains, are in Motherwell, 1,032; Partick, 960; and Kirkcaldy, 700; and the losses are in Glasgow, 82,638; Edinburgh, 18,756; Dundee, 12,108; Aberdeen, 9,906; Govan, 8,993; Leith, 8,147; Paisley, 4,124; Kilmarnock, 3,690; Greenock, 2,201; Hamilton, 1,955; Coatbridge, 1,115; and Perth, 131. The loss of population by migration from two of the Lanarkshire burghs, Glasgow and Govan, accounts for fully nine-tenths of the heavy loss by migration—100,578—which is found to have taken place from that county, and for nearly two-fifths of the loss by migration from Scotland during the intercensal period. (*Table A17.*)

Burghal and Extraburghal Parishes.—There are 216 parishes in Scotland containing a burgh in whole or in part, and 658 parishes in which there is no burghal population. Of the 216 parishes referred to, all except six are partly burghal and partly extraburghal, the six exceptions, and they are the only entirely burghal parishes in Scotland, being Edinburgh, Aberdeen, Leith, Rothesay, Stranraer, and Anstruther-Easter. Of these six entirely burghal parishes, four only, Edinburgh, Aberdeen, Leith, and Rothesay, contain entire burghs, and they are the only instances in Scotland where burghs and parishes are conterminous. Of the 205 burghs in Scotland, 173 are situated in one parish, 27 in two parishes, 3, Dumbarton, Elgin, and Stranraer, in three parishes, 1, Perth, in four parishes, and 1, Glasgow, in six parishes. Glasgow, although situated in six parishes, does not contain a single entire parish within it, all six parishes extending beyond the city boundary. By the recent extension of Glasgow (*vide* Appendix to Part 24, Volume I.) portions of two more parishes have been brought inside the City; but even after the extension, and although there are now portions of eight parishes in the City, not one of them is wholly so. (*Table A18.*)

Ratio of Females to Males.—The ratio of females to 100 males in the burghs of Scotland varies from 169 in Bridge-of-Allan, 164 in Earlsferry, 161 in Newport, 157 in St Andrews, 155 in Elie, Liberty, and Williamsburgh, 152 in Abernethy, 150 in Culross, 149 in Cove and Kilcreggan, and 147 in Prestwick, to 39 in Queensferry, 45 in Cromarty, 83 in Buckhaven, Methil, and Innerleven, 84 in Coatbridge, 84 in Inverkeithing, 85 in Armadale, 86 in Lochgelly, 87 in Charlestown of Aberlour, and 87 in Motherwell. In 15 burghs this ratio is less than 90 to 100; in 18 it is between 90 and 100 to 100; in 29 between 100 and 110 to 100; in 53 between 110 and 120 to 100; in 50 between 120 and 130 to 100; in 23 between 130 and 140 to 100; in 10 between 140 and 150 to 100; and in 7 it is more than 150 to 100. (*Tables X. and A19.*)

The ratio of females to males in the total population of Scotland is 106·2. In the aggregate burghal population this ratio is higher, *viz.*, 109·7 to 100; and in the extraburghal population it is correspondingly lower, being 99·5 to 100.

Burghs—Royal, Parliamentary, and Police.—The burghs of Scotland are of four classes, royal and parliamentary, royal but not parliamentary, parliamentary but not royal, and police; but from this classification the Burgh of Coatbridge must be excluded, as in constitution it differs from all others.

The royal burghs were originally erected by grant from the Crown, and hold their lands directly under it. There are 70 of them—all of ancient creation—the most recent being Kilrenny, whose creation dates from 1707 in the reign of Queen Anne. These burghs all had the right of sending representatives to Parliament, and all except four—Auchtermuchty, Earlsferry, Falkland, and Newburgh—exercised that right until 1832, the year of the passing of the Reform Act. By that Act two of these burghs lost the burgh franchise, and by the Redistribution of Seats Act, 1885, nine more of them lost it. There are thus now 55 royal burghs possessing the burgh franchise, and 15 which do not do so. Of the 55 royal and parliamentary burghs the most populous are Glasgow, 784,496; Edinburgh, 320,318; Dundee, 165,004; Aberdeen, 163,891; Kirkcaldy, 39,601; and Perth 35,854; and the least populous are Culross, 456; Inveraray, 533; Anstruther-Wester, 552; Dornoch, 741; Kintore, 818; and Fortrose, 970. Of the 15 royal burghs which are not parliamentary the most populous are Rothesay, 9,299; Stranraer, 6,444; Peebles, 5,554; and Haddington, 4,140; and the least populous, Earlsferry, 322; New Galloway, 352; Lauder, 659; and Falkland, 830.

There are 14 burghs that possess the burgh franchise but are not royal burghs, twelve of these having been created parliamentary burghs by the Reform Act of 1832, and two, Galashiels and Hawick, by that of 1868. These burghs, parliamentary but not royal, vary in amount of population from 84,455 in Paisley, 80,488 in Leith, and 75,140 in Greenock, to 1,928 in Cromarty, 5,557 in Oban, and 13,613 in Peterhead.

Coatbridge is neither a royal nor a parliamentary burgh, as it was not erected by grant from the Crown, and has not the burghal franchise. It, however, possesses all the privileges of a royal burgh, these being accorded by the Act of Parliament by which it was incorporated (*Coatbridge Burgh Act, 1885, 48 & 49 Vict. c. xli.*). Its population is 43,286.

The burghs in Scotland, other than royal and parliamentary burghs, which are constituted police burghs in terms of the Police Acts, number 121. The majority of them, like royal burghs, are of ancient creation, having existed as burghs of regality or barony before the passing of the Police Acts under the provisions of which they received their modern constitution; while others are of more recent creation, not having been burghs of regality or barony, but having been created burghs by local Police Acts or by powers included in the General Police Acts. As examples of the former, those of ancient creation, the following may be cited, viz., Bathgate, Musselburgh, Dalkeith, Pollokshaws, Kelso; and as examples of the latter, those of more modern creation, Govan, Clydebank, Broughty Ferry, Cowdenbeath, and Motherwell. The populations of these 121 burghs vary from 89,605 in Govan, 66,849 in Partick, 40,380 in Motherwell, 37,548 in Clydebank, and 25,263 in Wishaw, to 593 in Abernethy, 692 in Elie, Liberty, and Williamsburgh, 861 in Cove and Kilreggan, 877 in East Linton, and 880 in Lasswade.

Among the police burghs are two that occupy an anomalous position for parliamentary purposes, in that, although not themselves parliamentary burghs, they are included in burghal constituencies. These two burghs are Maxwelltown, the greater part of which is included within the Burgh of Dumfries as defined for parliamentary purposes, and Macduff, which is entirely included within the Burgh of Banff as defined for these purposes.

The burghs, along with their populations, are collected according to the above classification in Table A20, the figures given being those of the populations within the boundaries as defined for municipal and police purposes, which in many cases differ from those defined for parliamentary purposes.

The 205 burghs named in the Table are all the burghs which, at the date of the census, possessed the statutory rights and privileges of burghs; but there are also in Scotland numerous communities which by charter were created burghs of regality or barony, but do not now possess or exercise the rights and privileges of burghs, and have neither provost nor burgh councils. It would be a matter of extreme difficulty, if not of impossibility, to make a complete list of these burghs of regality or barony, and even if it were done such a list, being only of historical interest, would be of no administrative value and out of place in a census report; but a few examples of them may be mentioned, and as such the following are given, viz., Kirkliston, Cumbernauld, Kilbarchan, Houston, Kilmacollm, Lesmahagow, Carnwath, Dunkeld, Kilmaurs, Coldingham, Portpatrick, and Dirleton—all of which are specified as burghs of regality or barony in the Report of the Municipal Commission of 1835.

Special Districts for Water, Drainage, Scavenging, and Lighting Supply.

These districts are formed in terms of the Public Health and Local Government Acts, and the special purpose served by their creation is to enable the communities of populous places, other than burghs, to make provision for the public services indicated above. They are of some special interest for census purposes in respect that many towns and villages, not being burghs, and having no definite boundaries, have been formed, under the provisions of the statutes referred to, into special districts with boundaries authoritatively defined, thus enabling the populations of these important communities to be accurately ascertained and returned.

There were in Scotland at the time of the census 644 of these districts, 196 being Special Water Districts only, 112 Special Drainage Districts only, 26 Special Scavenging Districts only, 67 Special Lighting Districts only; while in combination there were 50 Special Water and Drainage Districts; 25 Special Water and Lighting Districts; 5 Special Water and Scavenging Districts; 11 Special Drainage and Lighting Districts; 12 Special Drainage and Scavenging Districts; 34 Special Scavenging and Lighting Districts; 23 Special Water, Drainage, and Lighting Districts; 23 Special Drainage, Scavenging, and Lighting Districts; 11 Special Water, Drainage, and Scavenging Districts; 2 Special Water, Scavenging, and Lighting Districts; and 47 Special Water, Drainage, Scavenging, and Lighting Districts. There are thus in all 359 Special Districts for water supply, 289 for drainage, 160 for scavenging, and 232 for lighting, and thus counted—by the purposes they serve and not by areas and boundaries—they number 1,040.

The populations of these districts vary widely. The most populous are Barony Special Drainage District, 32,310; Shettleston and Tollcross Special Lighting District, 29,011; Shettleston and Tollcross Special Scavenging District, 28,926; Cambuslang Special Lighting District, 20,452; Cambuslang Special Drainage and Scavenging District, 18,995; Blantyre Special Lighting District, 15,501; Vale of Leven Special Water, Drainage, Scavenging, and Lighting District, 15,438; Bellshill and Mossend Special Drainage, Scavenging, and Lighting District, 15,219; Blantyre Special Drainage and Scavenging District, 15,197; and Renfrew Special Scavenging and Lighting District, 14,532. The least populous of these districts include Glentyan Special Water District, 18; Hill of Fearn Special Water District, 30; Malletsheugh Special Water and Drainage District, 31; Edgefield Special Water District, 49; Bankshill Special Water District, 56; Westruther Special Water District, 57; South Connel Special Water District, 62; Lathones Special Water District, 65; and Ecclesmachan Special Water District, 66. The least populous special water district is Glentyan, 18; the least populous special drainage district, Malletsheugh, 31; the least populous special scavenging district, Balvicar, 75; and the least populous special lighting district, Ascog, 118. Of these special districts, 17 have populations of more than 10,000, while 26 have populations of less than 100.

The aggregate populations included in the special scavenging and lighting districts will be referred to when dealing with the division of the population of Scotland into its urban and rural portions, it being considered safe to assume that these districts, when they have populations exceeding 1,000, are essentially urban in character, and no doubt much more so than burghs which have populations of less amount.

The populations of these districts were fully tabulated in the first volume of the Report (Tables XI.-XIV.), and what was there given is summarised in Table XXI. of this volume.

Urban and Rural Populations.

Reference has been made above to the proportions of the population of Scotland, and of the counties, which are "burghal" and "extraburghal," and it is right to point out that these terms are not necessarily synonymous with "urban" and "rural." Some burghs are so small that the conditions of life in them cannot be said to be urban, while on the other hand some extraburghal districts are so populous that the conditions in them are essentially urban. In previous Census Reports an endeavour was made to measure the urban population of the country by treating localised communities of from

300 to 2,000 as "villages," and of over 2,000 as "towns," irrespective of whether the communities were or were not burghs, and taking the remainders of the counties as rural. This method has been abandoned on the occasion of the present census, because the absence of fixed boundaries for towns and villages—neither of which is a statutory term in Scotland—makes the matter one of opinion rather than of fact. In place of such method the one now adopted is to treat as urban localities only such places as have populations of over 1,000, and are either burghs, or special scavenging districts, or special lighting districts, and to regard as rural the remaining portions of the counties. While this new arrangement is not perfect, it has the great advantage over the older plan in respect that it deals with definite quantities only, and there is also the strong presumption that there are few, if any, communities in Scotland which live under urban conditions and are not burghs, or special scavenging, or special lighting districts.

Distribution of Urban Population.—Keeping these considerations in view, it is found that the counties with the largest proportions of urban population are, Renfrew, 91·7 per cent.; Lanark, 91·2 per cent.; Edinburgh, 88·6 per cent.; Dumbarton, 86·0 per cent.; Forfar, 85·4 per cent.; Clackmannan, 84·8 per cent.; and Selkirk, 83·0 per cent.; and those with the largest proportions of rural population are Sutherland, 89·7; Ross and Cromarty, 84·1; Orkney, 78·9; Shetland, 78·9; Berwick, 72·0; Inverness, 70·9; Argyll, 70·1; and Wigtown, 65·5. Of the total population of Scotland, 65·7 per cent. are within burghs with populations of over 1,000; 9·7 per cent. in special scavenging or lighting districts with populations of that amount, and 24·6 per cent. are outwith such burghs and special districts. The urban population of Scotland thus computed amounts to 75 per cent. of the total, and the rural to 25 per cent. (*Table A21.*)

Ratio of Females to Males.—The ratio of females to males in these urban districts is found to be 108 to 100, and in the rural districts 99 to 100. In the urban districts of the counties this ratio varies between wider limits than in the rural districts. In the urban districts it is found to range between 141 to 100 in Bute, 135 to 100 in Nairn, 130 to 100 in Orkney, 129 to 100 in Roxburgh, and 127 to 100 in Forfar, to 86 to 100 in Linlithgow, 96 to 100 in Stirling, 100 to 100 in Dumbarton, 101 to 100 in Ross and Cromarty, and 102 to 100 in Lanark. In the rural districts it ranges between 126 to 100 in Shetland, 112 to 100 in Orkney, 110 to 100 in Wigtown, and 109 to 100 in Bute, to 90 to 100 in Linlithgow, 91 to 100 in Lanark, 92 to 100 in Argyll, and 93 to 100 in Stirling. Females are found to be in excess of males in the urban districts of 31 counties, and in the rural districts of 20 counties; while males are in excess of females in the urban districts of 2 counties, and in the rural districts of 13 counties. (*Table A21.*)

County Districts.

Counties for the purposes of local administration are divided into county districts, which for certain purposes include police burghs, but exclude royal burghs and parliamentary burghs so far as situated within their police boundaries. These districts are composed of electoral divisions, each police burgh constituting one or more separate divisions. The populations here referred to are abstracted from those set out in Table XVIII., and are the total populations contained in the electoral divisions comprising each of the county districts. They are inclusive of the populations of police burghs, but not of royal or parliamentary burghs.

Of the 33 counties, 8 are not divided into county districts, but are administered by the county council in their entirety; 7 are divided into two districts, 4 into three districts, 6 into four districts, 4 into five districts, 1 into six districts, 1 into seven districts, and 2 into eight districts. Thus, counting the undivided counties as being each one district, there are 107 county districts in Scotland.

Distribution of Districts.—The counties which are undivided are:—Caithness, Clackmannan, Elgin, Kinross, Nairn, Peebles, Selkirk, and Sutherland. Those divided into 2 districts are, Banff, Dumbarton, Haddington, Linlithgow, Renfrew, Shetland, and Wigtown. Those divided into 3 districts are Berwick, Bute, Lanark, and Stirling. Those divided into 4 districts are Ayr, Edinburgh, Fife, Forfar, Kirkcudbright, and Orkney. Those divided into 5 districts are Dumfries, Kincardine; Perth, and Roxburgh. Ross and

Cromarty is divided in 6 districts, Argyll into 7, and Aberdeen and Inverness each into 8 districts.

Population of Districts.—The total population included in these 107 county districts amounts to 2,349,084, the difference between this figure and that of the total population of Scotland, 2,411,820, being the aggregate population of burghs which are either royal or parliamentary. The average population of these districts is 21,954, but the populations of the districts vary widely from this mean. The most populous county districts are Middle Ward of Lanark, 268,306; Lower Ward of Lanark, 213,428; Eastern District of Dumbarton, 80,359; and Kirkcaldy District of Fife, 76,667; and the least populous are Cumbrae District of Bute, 1,707; Liddesdale District of Roxburgh, 1,934; South Ronaldshay District of Orkney, 2,395; Bute District of Bute, 2,552; Northern District of Kirkeudbright, 2,814; and Ardnamurchan District of Argyll, 2,822.

The population figures of the electoral divisions into which the county districts are divided are set forth in detail in Table XVII. of the county parts of Volume I. of the Census Report.

Public Health Districts.

For the administration of the Public Health Acts, Scotland is divided into districts. In this division every burgh, police burghs included, is a separate district; and the extraburghal portion of every county district, or of an entire county where undivided, constitutes a public health district. These public health districts in all number 312, of which 205 are burghal and 107 extraburghal.

Population.—The populations of the burghal public health districts are the same as those of the burghs—which have been commented on above.

The populations of the extraburghal, or county, public health districts differ from the populations of county districts as constituted for other administrative purposes, in respect that the former are exclusive of the populations of all burghs, while the latter are inclusive of the populations of burghs which are neither royal nor parliamentary, *i.e.*, of police burghs. These burghs have an aggregate population of 728,599, and it is by this amount that the aggregate populations of the two classes of county districts differ, the population of the county districts amounting to 2,349,084, and of the county public health districts to 1,620,485. In 41 instances the populations of county districts and of the corresponding county public health districts are the same, but in 66 instances they differ.

The average population of these districts is 15,145, but the populations of the individual districts vary widely from this mean. The most populous are Middle Ward of Lanark, 202,663; Lower Ward of Lanark, 56,974; Northern District of Ayr, 47,403; Kirkcaldy District of Fife, 42,027; and Eastern District of Stirling, 41,745. The least populous are Cumbrae District of Bute, 93; Walls District of Orkney, 1,640; Liddesdale District of Roxburgh, 1,934; South Ronaldshay District of Orkney, 2,395; Bute District of Bute, 2,552; Northern District of Kirkeudbright, 2,814; and Ardnamurchan District of Argyll, 2,822. The Cumbrae Public Health District contains the entire population of the Islands of Great and Little Cumbrae, with the exception of that of the Burgh of Millport; but as 1,614 out of the total population, which is 1,707, were enumerated in the burgh, the extraburghal population only amounts to the small figure stated.

The population figures of the extraburghal public health districts are collected in Table XIX. of this volume, and further information regarding them is given in Table XVIII. of the county parts of Volume I. of the Report.

Insular Populations.

There were on census day 181 islands on which some population was enumerated. In 1901 the corresponding number was 182, and the inhabited islands of the country are thus now one fewer than in that year.

The total insular population numbers 149,215, is 6,337, or 4·1 per cent. less than in 1901, and constitutes 3·1 per cent. of the total population of Scotland.

The populations of the islands vary widely. The most populous are Lewis, 32,886; Shetland, Mainland Island, 19,607; Orkney, Mainland Island, 14,703; Skye, 12,719; and Bute, 11,835. Only one person each was enumerated in Calve and St Helena, two

persons each in Garbheileach, Bound, Holm of Papal, Inchlonaig, and Skerviule, and three persons each in Auskerry, Bass Rock, Bell Rock, Cara, Davaar, and some others, these being mostly islands, or mere rocks, with lighthouses, but with no ordinary populations. Of the 181 islands, 64 have populations of less than 10; 41 have populations of more than 10 but less than 50; 14 of more than 50 but less than 100; 19 of more than 100 but less than 300; 9 of more than 300 but less than 500; and 34 have populations of more than 500.

Three counties, Bute, Orkney, and Shetland, are entirely insular, and 15 partly insular and partly not, while 15 have no inhabited islands. Among the counties which are partly insular and partly mainland, those with the largest insular populations are Inverness, 30,935; Ross and Cromarty, 29,769; and Argyll, 15,769.

The population figures of the Islands are collected in Table XXII. of this volume from Table XV. of the various county parts of Volume I.

Parliamentary Constituencies.

Exclusive of university constituencies, there are 69 parliamentary constituencies returning 70 members, all returning one member each with the exception of the constituency of Dundee Burgh, which returns two. Of these constituencies, 30 are burghal, and 39 county. The average population in the constituencies, burghal and county included, but excluding the universities and counting Dundee as two constituencies, is 68,013. The constituencies with the largest populations, other than Dundee, are North-East Lanarkshire, 141,857; Lanarkshire, Partick Division, 139,209; Glasgow, St Rollox Division, 127,836; and Lanarkshire, North-West Division, 126,555; and the constituencies with the smallest populations are Buteshire, 18,186; Wick Burghs, 19,255; St Andrews Burghs, 19,336; Sutherlandshire, 19,525; and Peebles and Selkirk, 19,890.

The average population of the burghal constituencies, counting Dundee as two, is 67,015, and of the county constituencies, 68,807. The largest burghal constituencies are Dundee, 160,146; Glasgow, St Rollox Division, 127,836; Edinburgh, South Division, 112,533; Leith District of Burghs, 107,011; and Kilmarnock District of Burghs, 105,585; and those with the smallest populations are Wick District of Burghs, 19,255; St Andrews District of Burghs, 19,336; Dumfries District of Burghs, 28,441; and Inverness District of Burghs, 30,044. The county constituencies with the largest populations are Lanarkshire, North-East Division, 141,857; Lanarkshire, Partick Division, 139,209; Lanarkshire, North-West Division, 126,555; Stirlingshire, 121,480; and Lanarkshire, Govan Division, 115,159; and the county constituencies with the smallest populations are Buteshire, 18,186; Sutherlandshire, 19,525; Peebles and Selkirk, 19,890; Caithness, 23,336; and Berwickshire, 29,754.

Distribution of Burghal Population.—Although Scotland is divided for the purposes of parliamentary representation into burghal and county constituencies it must not be assumed that this division is the same as that into burghal and extraburghal portions for other purposes; for a large section of the burghal population is included in the county constituencies, and a small portion of the extraburghal population is included in the burghal constituencies. The total burghal population of Scotland amounts to 3,140,419, and of it 2,076,935, or 66·1 per cent., are in the burghal constituencies, while 1,063,484 or 33·9 per cent. are in the county constituencies. Of the extraburghal population, the vast majority, 1,619,970 are in the county constituencies, while only a small minority, 515, are in the burghal constituencies. There are 205 burghs in Scotland, and of these 71, in whole or in part, and including Maxwelltown and Macduff which are not in themselves parliamentary burghs, but for the purposes of parliamentary representation are attached to other burghs, are in burghal constituencies; while the remaining 134 are in county constituencies. The aggregate population of the 71 burghs voting in whole or in part in burghal constituencies is 2,335,289, and the difference between this figure and the aggregate population of the burghal constituencies, 258,354, represents the population of these burghs which are included in county constituencies.

In 37 of these 71 burghs the boundaries for parliamentary purposes and for municipal purposes are conterminous; in 5 the boundaries for parliamentary purposes include a larger population than do those for municipal purposes; and in 29 the boundaries for municipal purposes include a larger population than do those for parliamentary purposes. The five cases in which the boundaries for parliamentary purposes include more population than do those for municipal purposes are Inverurie, which

includes a portion of the landward part of Kintore parish with a population of 415 ; Selkirk, which includes 60 of the landward population of the parish of the same name ; Dysart, which includes 14,327 of the population of Kirkealdy Burgh ; Arbroath, which includes 4 of the landward population of the parish of Arbroath and St Vigeans ; and Crail, which includes 36 of the landward population of the parish of the same name. The parliamentary burghs in which the excess of population included within the municipal boundaries over that included within the parliamentary boundaries is greatest, and the amounts of the excesses are, Glasgow, 184,882 ; Edinburgh, 26,827 ; Kirkealdy, 14,327 ; Falkirk, 11,558 ; and Aberdeen, 11,428. The remainder of the Glasgow population above referred to is distributed among the Govan, Partick, and North-West Divisions of Lanarkshire, the East and West Divisions of Renfrewshire, and the Kilmarnock District of Burghs. The remainder of the Edinburgh population is in the Leith District of Burghs and in the Constituency of Midlothian. The remainder of the population of Kirkealdy is within the Parliamentary Burgh of Dysart. The remainder of the population of Falkirk is in the Constituency of Stirlingshire, and that of Aberdeen in the Constituency of Kincardineshire.

Of the 30 burghal constituencies, 17 are entirely within one burgh, while 13 are in groups of burghs, the former including the four divisions of Edinburgh, and the seven divisions of Glasgow.

County Constituencies.—Disregarding burghal constituencies, or parts thereof, in only eight instances do county boundaries for civil purposes agree with those for parliamentary purposes ; while in 25 instances there is disagreement. The counties of which the boundaries for parliamentary and for other purposes are conterminous are Bute, Caithness, Kirkcudbright, Linlithgow, Orkney, Shetland, Sutherland, and Wigtown.

The number of parliamentary constituencies in the counties, including burghal constituencies, varies from 16 in the case of Lanark, 7 in Aberdeen, 7 in Edinburgh, 7 in Perth, and 6 in Renfrew, to 1 each in Berwick, Bute, Clackmannan, Peebles, Shetland, and Wigtown. The only instances in Scotland in which the entire population of a county, burghal and extraburghal, is in, and constitutes the whole of, one parliamentary constituency, are found in Bute and Wigtown.

Of the 39 county constituencies in Scotland, 19 are single county constituencies, and 4 are double county constituencies, while 16 consist of divisions of counties, these last including the six divisions of Lanarkshire, and the divisions of the Counties of Aberdeen, Ayr, Fife, Perth, and Renfrew. Of the single county constituencies, 16 are situated in one county, 14 partly in one county and partly in a second, and 5 partly in three counties. Of the four double county constituencies, one only, Orkney and Shetland, is within two counties ; one, Peebles and Selkirk, is in three counties ; and two, Clackmannan and Kinross, and Elgin and Nairn, each have portions in five counties, the Constituency of Elgin and Nairn being distributed among the Counties of Banff, Elgin, Nairn, Inverness, and Ross and Cromarty, and that of Clackmannan and Kinross among the Counties of Clackmannan, Fife, Kinross, Perth, and Stirling.

The populations of the parliamentary constituencies, and the distribution of the county populations in the constituencies, are shewn in Tables XVI. and XVII. of this volume of the Report, and in detail in Table XVI. of the county parts of Volume I.

Ecclesiastical Divisions.

Scotland for ecclesiastical purposes is divided into synods, presbyteries, and parishes, there being 16 synods, 84 presbyteries, and 1,415 parishes, these parishes being either *quoad omnia* or *quoad sacra*. The synods are composed of presbyteries, the number of these in the synods averaging 5·3, and varying from 8 in the Synod of Glasgow and Ayr, and the same number in the Synod of Aberdeen, to 3 each in the Synods of Galloway, Ross, Orkney, Shetland, and Sutherland and Caithness. The presbyteries are composed of groups of parishes, the average number of parishes in the presbyteries being 16·8, and varying from 98 in the Presbytery of Glasgow, 59 in the Presbytery of Edinburgh, and 48 in the Presbytery of Hamilton, to 5 in the Presbytery of Burra-voe, and 6 each in the Presbyteries of Forres, Lewis, Nairn, and Tongue.

Populations of Synods, etc.—The populations of the synods average 297,557, and vary from 2,186,904 in the Synod of Glasgow and Ayr, 715,782 in the Synod of Lothian and Tweeddale, 362,847 in the Synod of Aberdeen, and 316,918 in the Synod of Angus

and Mearns, to 25,897 in the Synod of Orkney, 27,911 in the Synod of Shetland, and 38,327 in the Synod of Ross.

The populations of the presbyteries average 56,677, and vary between 1,066,436 in the Presbytery of Glasgow, 439,415 in the Presbytery of Edinburgh, 375,223 in the Presbytery of Hamilton, 191,201 in the Presbytery of Dundee, and 190,329 in the Presbytery of Aberdeen, to 4,704 in the Presbytery of Burravoe, 5,362 in the Presbytery of Tongue, 7,095 in the Presbytery of North Isles, 7,130 in the Presbytery of Islay and Jura, 7,469 in the Presbytery of Earlston, and 7,611 in the Presbytery of Duns.

The populations of the ecclesiastical parishes average 3,364, and vary between 70,184 in Govan, 53,304 in St Cuthbert's (Edinburgh), 46,133 in Maryhill, 43,975 in South Leith, 37,949 in St Michael's, Edinburgh, and 35,528 in Springburn, to 96 in Cranshaws, 98 in Clova, 109 in Glenprosen, and 111 in Glendevon. In 24 ecclesiastical parishes the population exceeds 20,000, and in 74 it is more than 10,000 though less than 20,000. In 2 parishes the population is less than 100, and in 22 more than 100 though less than 200.

In Tables XIV. and XV. of this volume of the Census Report, the ecclesiastical parishes are tabulated according to presbyteries and synods, in the order in which they are in use for church purposes; while in Table IX. of the county parts of Volume I. of the Report there is shown the distribution of the county populations in the ecclesiastical parishes which are in whole or in part within them.

School Board Districts.

For the administration of the Education Acts the areas adopted were in some cases burghs, and in others ecclesiastical or *quoad sacra* parishes, but partly on account of the many changes of burgh boundaries which have taken place, which changes did not affect the boundaries of the school board districts, and partly on account of changes of boundaries in the school board districts themselves, and in some cases of amalgamations of school board districts, none of which affect burgh or parish boundaries, there are now many differences between the populations of these districts and those of the burghs and parishes bearing the same name.

The school board districts of Scotland number 967, and have an average population of 4,923, but from this average the variation is great. The most populous of these districts are Glasgow, 599,614; Edinburgh, 320,318; Govan, 238,395; Aberdeen, 163,891; Dundee, 162,564; Paisley, 84,455; Leith, 80,488; and Greenock, 70,282; and the least populous are Cranshaws, 125; Lyne, 125; Moonzie, 146; Glendevon, 148; Dumbarton (Landward), 151; and Drumelzier, 164. Of the eight largest school board districts mentioned above, seven are burghal, but it is worthy of note that in only four of them, Edinburgh, Aberdeen, Paisley, and Leith, do the populations agree with those within the boundaries of the burghs for municipal and other purposes; while in three there is disagreement, these three being Glasgow, where only 599,614 out of the total population of 784,496 is within the school board district, and Dundee and Greenock, where 2,440 and 4,858 of the respective populations are not within the burghal school board districts.

Of the 967 school board districts, 52 are burghal and 915 are parish districts. Of the 52 burghal districts, 29 are within burghs which are royal and parliamentary, 5 in burghs which are royal but not parliamentary, 12 in burghs which are parliamentary but not royal, and 6 in burghs which are neither royal nor parliamentary, but are police burghs. In 16 cases the populations of these school board districts differ from those of the burghs of the same name, and in 36 instances they are the same. One burghal school board district, that of Kirkecaldy and Dysart, includes two burghs; all others include single burghs. Burghs in Scotland which are not independent school board districts number 152.

The number of school board districts or of parts of school board districts (there are 14 districts partly in one county and partly in another, and one with parts in each of three counties) in the counties varies from 92 in Aberdeen, 77 in Perth, 68 in Fife, 60 in Forfar, 51 in Ayr, and 50 in Lanark, to 6 each in Bute, Kinross, and Nairn, and 7 in Clackmannan.

Of the school board districts, 161 have populations of less than 500; 236 of more than 500 but less than 1,000; 253 of more than 1,000 but less than 2,000; 170 of more than 2,000 but less than 5,000; 76 of more than 5,000 but less than 10,000; 37 of more than 10,000 but less than 20,000; 23 of more than 20,000 but less than 50,000; and

11 of more than 50,000. Of the eleven school board districts with populations of over 50,000, seven are burghal and four parish, the former being Glasgow, Edinburgh, Aberdeen, Dundee, Paisley, Leith, and Greenock, and the latter, Bothwell, Govan, Maryhill, and Old Monkland. (*Tables XIII. and A22.*)

Registration Districts.

Scotland is divided into districts for the purposes of the registration of births, deaths, and marriages. When national registration was instituted by the Act of 1854, 17 & 18 Vict. c. 80, these districts closely agreed with the civil parishes and burghs; but since then, for various reasons, the boundaries of a large number of the districts have been altered, and though many of them are still conterminous with the parishes of the same name, this is frequently not so, and hence the necessity for the separate tabulation of registration districts in the Census Report.

The total number of registration districts is 1,084, the average population being 4,392. The most populous are Paisley, 91,038; St Machar, 90,129; Partick, 66,849; Morningside, 66,124; Govan, 63,228; St Andrew, Dundee, 61,638; St George, Edinburgh, 53,165; and the Glasgow Registration Districts of Calton, Gorbals, Camlachie, Anderston, and Bridgeton, which contain populations varying from 52,062 to 60,372. The least populous registration districts are Megget, 74; St Kilda, 80; Cranshaws, 125; Lyne, 125; Fair Isle, 139; Whalsay Skerries, 144; Dalavich, 144; Moonzie, 146; and Glendevon, 148.

Of the 1,084 registration districts, 1,073 are situated entirely within their respective counties, but 11 are partly in one county and partly in another. These eleven are Croy and Dalcross, Kilmallie, Enzie, Aharacle, Cathcart, Eastwood, Kirkliston, Caddonfoot, Melrose, Holywood, and Bargrennan.

Of the registration districts, 38 are entirely burghal, and 212 partly burghal and partly landward, while 834 do not contain any burghal population. There are only six instances in which the boundaries of burghs and of registration districts are conterminous, these being Anstruther-Easter, Ayr, Cullen, Queensferry, Rothesay, and Stranraer.

The number of registration districts, or parts of registration districts, in the respective counties varies from 97 in Aberdeen, 81 in Perth, and 75 in Lanark, to 5 in Kinross, Clackmannan, and Nairn, and 9 in Bute and Selkirk. (*Tables XII. and A23.*)

Military Divisions.

For military purposes Scotland is divided into two districts, the First or Highland District, and the Second or Lowland District. These districts are further divided into Regimental Districts, there being six of these in the Highland District and six in the Lowland.

The total population embraced in the Highland District amounts to 2,154,537, and in the Lowland District to 2,606,367.

The populations included in the Regimental Districts of the Highland District are:—Dundee City, 165,004; 42nd District, which embraces the Counties of Fife, Perth, and Forfar (exclusive of Dundee), 508,494; 72nd District, which embraces the Counties of Orkney, Shetland, Caithness, Sutherland, Ross and Cromarty, Nairn and Elgin, 236,107; the 75th District, which embraces the Counties of Aberdeen, Banff, and Kincardine, 414,587; the 79th District, which is limited to the County of Inverness, 87,272; and the 91st District, which embraces the Counties of Stirling, Clackmannan, Kinross, Dumbarton, Renfrew (exclusive of the small portion of the Parish of Paisley within the City of Glasgow), Argyll and Bute, 743,073.

The populations included in the Regimental Districts of the Lowland District are:—Edinburgh District, which embraces the City of Edinburgh and the Burgh of Leith, 400,806; Glasgow District, which embraces the City of Glasgow and the Burghs of Govan and Partick, 940,950; 1st District, which embraces the Counties of Edinburgh (exclusive of the City of Edinburgh and the Burgh of Leith), Linlithgow, Haddington, and Peebles, 245,527; 21st District, which embraces the Counties of Ayr and Wigtown, 300,335; 25th District, which embraces the Counties of Berwick, Roxburgh, Selkirk, Dumfries, and Kirkeudbright, 212,628; and the 26th and 71st District, which is conterminous with the County of Lanark (exclusive of the City of Glasgow and the Burghs of Govan and Partick), 506,121. (*Table A24.*)

Circuits and Sheriffdoms.

For judicial purposes Scotland is divided into four circuits and fifteen sheriffdoms. The Western Circuit is the most populous. It includes the Sheriffdoms of Lanark; Renfrew and Bute; Argyll; Stirling, Dumbarton, and Clackmannan; and the Kinross portion of the Sheriffdom of Fife and Kinross; and embraces a population of 2,190,144, or 46·0 per cent. of the total of Scotland. The Northern Circuit is the second most populous. It includes the Sheriffdoms of Aberdeen, Kincardine and Banff; Caithness, Orkney and Shetland; Forfar; Inverness, Elgin and Nairn; Perth; Ross and Cromarty, and Sutherland; and the Fife portion of the Sheriffdom of Fife and Kinross; and embraces a population of 1,411,464, or 29·6 per cent. of that of Scotland. The Southern Circuit includes the Sheriffdoms of Ayr; Berwick, Roxburgh and Selkirk; and Dumfries and Galloway (Dumfries, Kirkcudbright, and Wigtown); and embraces a population of 512,963, or 10·8 per cent. of the total of Scotland. The Home Circuit includes one Sheriffdom only, that of the Lothians and Peebles (Edinburgh, Linlithgow, Haddington, and Peebles); and embraces a population of 646,333, or 13·6 per cent. of the total.

Of the fifteen Sheriffdoms the most populous are Lanark, 1,447,034; the Lothians and Peebles, 646,333; Aberdeen, Kincardine, and Banff, 414,587; Renfrew and Bute, 332,738; and Stirling, Dumbarton, and Clackmannan, 331,943. The least populous are Argyll, 70,902; Caithness, Orkney and Shetland, 85,818; and Ross and Cromarty, and Sutherland, 97,543. The population of the Sheriffdom of Forfar is 281,417; of Fife and Kinross, 275,266; of Ayr, 268,337; of Dumfries and Galloway, 143,190; of Inverness, Elgin, and Nairn, 140,018; of Perth, 124,342; and of Berwick, Roxburgh, and Selkirk, 101,436.

Police Districts.

There are 65 independent police forces in Scotland, 32 maintained by burghs, and 33 by counties. Of the total population 2,432,475, or 51·1 per cent., are policed by county constabulary, and 2,328,429, or 48·9 per cent., by burghal constabulary.

The populations in the 33 county police districts average 73,711, and vary from 399,803 in Lanark, 200,623 in Ayr, 200,035 in Fife, 159,714 in Aberdeen, 139,791 in Stirling, 130,310 in Renfrew, 117,842 in Dumbarton, and 106,860 in Edinburgh, to 7,527 in Kinross, 8,887 in Bute, 9,319 in Nairn, and 10,070 in Selkirk.

The populations in the 32 burghal police districts average 72,763, and vary from 784,496 in Glasgow, 320,318 in Edinburgh, 165,004 in Dundee, 163,891 in Aberdeen, 89,605 in Govan, and 84,455 in Paisley, to 8,439 in Brechin, 9,299 in Rothesay, 10,849 in Forfar, 10,974 in Montrose, 11,058 in Broughty Ferry, and 11,893 in Alloa.

In the following 16 counties there are no burghs having separate constabularies—the whole population being policed by the county constabulary—Argyll, Banff, Berwick, Caithness, Elgin, Haddington, Kinross, Kirkcudbright, Linlithgow, Nairn, Orkney, Peebles, Ross and Cromarty, Shetland, Sutherland, and Wigtown. On the other hand, 17 counties are policed partly by county and partly by burghal constabulary. In the County of Lanark there are six burghal police forces, and a similar number is found in Forfar. There are four in Renfrew, two each in Ayr, Edinburgh, and Fife, and one each in Aberdeen (part only), Bute, Clackmannan, Dumbarton, Dumfries, Kincardine (part only), Inverness, Perth, Roxburgh, Selkirk, and Stirling.

Lunacy Districts.

With a view to the provision of asylums for the reception and care of pauper lunatics, Scotland, in terms of the Lunacy Act of 1857 (20 & 21 Vict. c. 71), was divided into Districts or Divisions according to a scheme set forth and described in Schedule H annexed to the said Act. But the General Board of Lunacy, upon application being made, are empowered to alter or vary the districts, and these areas now differ materially from those described in the Schedule. A complete list of the districts into which Scotland is at present divided for lunacy purposes, with their populations and figures showing intercensal changes, is contained in Table XX.

The lunacy districts now number 28, 7 of them being parish districts and 21 county districts, the former consisting of single and entire parishes, and the latter of counties, or

groups of counties, less any parish lunacy districts which may be situated within them. The boundaries of these county lunacy districts are not all the same as the boundaries of counties for other purposes, for parishes which are partly within one county and partly within another are for lunacy purposes regarded as entirely within a single county, and the county boundaries and populations are for this purpose altered accordingly.

The county lunacy districts contain 2,982,626, or 62·6 per cent., and the parish lunacy districts 1,778,278, or 37·4 per cent., of the total population of Scotland. The populations of the county districts average 142,030, and range from 468,411 in Lanark, 412,929 in Stirling, 275,266 in Fife and Kinross, and 268,337 in Ayr, to 18,186 in Bute, 25,897 in Orkney, 27,911 in Shetland, 29,580 in Kincardine, and 32,010 in Caithness. The populations of the parish districts average 254,040, and range from 577,559 in Glasgow and 363,571 in Govan, to 80,488 in Leith and 109,782 in Paisley. In Edinburgh Parish Lunacy District the population is 320,318; in Aberdeen Parish District, 163,891; and in Dundee Parish District, 162,669.

National Insurance Areas.

In terms of the National Insurance Act, 1911, national insurance areas were created. These are of two kinds, county and burghal, the latter consisting of all burghs with populations of over 20,000 taken separately, and of the burghs of Dumfries and Maxwelltown taken jointly. The former consists of counties, exclusive of these burghs, each taken separately, with the exception of the counties of Clackmannan and Kinross, and of Elgin and Nairn, which in both cases are taken jointly. The county insurance areas number 31, and vary in amount of population from Lanark, 309,841; Ayr, 200,623; Fife, 200,035; Aberdeen, 159,714; Renfrew, 154,920; Edinburgh, 106,860; and Stirling, 106,217; to Bute, 18,186; Sutherland, 20,179; Selkirk, 24,601; Orkney, 25,897; and Shetland, 27,911. The burghal insurance areas number 27, and vary in amount of population from Glasgow, 784,496; Edinburgh, 320,318; Dundee, 165,004; and Aberdeen, 163,891; to Arbroath, 20,647; Stirling, 21,200; Dumbarton, 21,989; and Dumfries and Maxwelltown, 22,211. The total population in the county insurance areas is 2,383,721, and in the burghal insurance areas, 2,377,183. The average population of the county areas is 76,894, and of the burghal areas, 88,044.

Licensing Districts.

In terms of the Licensing (Scotland) Act, 1903, districts which are entitled to have separate courts for the granting of licenses for the sale of intoxicating liquors are royal or parliamentary burghs with populations of 4,000 and over, all burghs with populations of 7,000 and over, and counties, or districts of counties, exclusive of these burghs.

At the date of the census there were, for licensing purposes, 26 burghs with populations of 20,000 and over, 36 with populations of more than 7,000 but less than 20,000, and there were 13 royal or parliamentary burghs with populations between 4,000 and 7,000. There were thus in all 75 burghs entitled to have licensing courts, and 26 of them, having populations of 20,000 and over, to have separate licensing appeal courts.

For licensing purposes, and regarding each of the Lower, Middle, and Upper Wards of Lanarkshire as one county in terms of the Licensing Act, 23 counties are not divided into county districts, 3 are divided into two districts, 1 into three districts, 3 into four districts, 2 into five districts, 2, Argyll and Inverness, into six districts, and 1, Aberdeen, into eight districts. At census date there were in Lanark 16 districts (including burghal and county districts) entitled to have separate licensing courts, 14 in Fife, 11 in Aberdeen, 10 in Renfrew, and 8 each in Argyll and Ayr, and smaller numbers in the remaining counties. In the counties of Berwick, Kincardine (Aberdeen City portion excepted), Kinross, Kirkcubright, Orkney, Shetland, and Sutherland, there are single licensing authorities, as these counties are not divided into county licensing districts, and do not contain burghs of the size necessary for the institution of burghal licensing courts. The total number of county licensing districts in Scotland at the date of the census was 74, 23 consisting of entire counties, exclusive of burghs with separate licensing courts, and 51 consisting of districts of counties, exclusive of burghs similarly situated.

Galston	5,296	Eyemouth	2,453	Lochgilphead	921
Denny and Dunipace	5,164	Cockenzie and Port Seton	2,400	Doune	893
Kilwinning	4,945	Turriff	2,346	Lasswade	880
Maybole	4,889	Auchterarder	2,294	East Linton	877
Prestwick	4,879	Melrose	2,166	Cove and Kilcreggan	861
Newmilns & Greenholm	4,806	Leslie	2,142	Elie, Liberty, and Williamsburgh	692
Armadale	4,739	Coupar-Angus	2,095	Abernethy	593
Lerwick	4,664	Moffat	2,079		
Milngavie	4,530	Duns	2,069		
Keith	4,499	Newton-Stewart	2,063		

Note.—Royal Burghs are such as were originally erected by grant of Charter from the Crown. Parliamentary Burghs, other than those which are also Royal Burghs, were created by the Reform Acts, 1832 and 1868. The Parliamentary Burgh of Portobello, being part of the Royal Burgh of Edinburgh, is not included in this Table. Police Burghs are those incorporated under General, or local, Police Acts, and include certain prior existing burghs of regality or barony which were constituted Police Burghs under the provisions of these Acts.

B.—DENSITY OF POPULATION.

The density of population in Scotland, and in the counties, burghs, and parishes, is given in Tables V., VII., and X.—the density in the case of Scotland and that of the counties being expressed as persons per square mile, and number of acres to each person, in the case of the burghs as persons per acre, and in the case of the parishes as persons to each hundred acres.

Scotland.—The area of Scotland comprises 19,070,466 acres, and as the total population amounts to 4,760,904, the average number of persons to each hundred acres is 25. The area included in the burghs amounts to 154,338 acres, and as the burghal population is 3,140,419, the density in the burghs taken collectively is 2,035 persons per 100 acres, or approximately 20 persons per acre. The total acreage in the extraburghal portions of Scotland is 18,916,128, and as the extraburghal population is 1,620,485, the density in these portions of the country is 86 per 1,000 acres, or approximately 9 per 100 acres.

Density may also be expressed conversely as the number of acres to each person; and that of Scotland is found to be 4 acres to each person, of the burghs one-twentieth of an acre to each person, and of the extraburghal portions of Scotland, $11\frac{1}{2}$ acres to each person.

Counties.—In the counties—including the burghs situated within them—the density of population varies from 257 persons to the 100 acres in Lanark, 217 in Midlothian, 205 in Renfrew, 104 in Linlithgow, 89 in Clackmannan, and 89 in Dumbarton, to 2 persons to the 100 acres in Sutherland, 3 in Inverness, 4 in Ross and Cromarty, 4 in Argyll, 7 in Peebles, and 7 in Kirkcudbright. In 10 counties this proportion is less than 10 to 100 acres; in 11 counties, more than 10 but less than 20; in 2, more than 20 but less than 30; in 1, more than 30 but less than 40; in 2, more than 50 but less than 60; in 3, more than 80 but less than 90; and in 4, more than 100. (*Table A5.*)

Extraburghal Districts.—In the extraburghal portions of the counties, this ratio varies from 63 in Linlithgow, 56 in Lanark, 56 in Renfrew, 36 in Dumbarton, and 34 in Edinburgh and Fife, to 1·5 in Sutherland, 2·3 in Inverness, 2·4 in Argyll, 2·5 in Selkirk, 3·2 in Peebles, and 3·3 in Ross and Cromarty. In 10 counties this figure is less than 5; in 14, more than 5 but less than 10; in 1, more than 10 but less than 15; in 1, more than 15 but less than 20; in 1, more than 25 but less than 30; in 3, more than 30 but less than 35; in 1, more than 35 but less than 40; and in 3, more than 40.

Parishes.—The density of population in the parishes varies from 5,417 persons to 100 acres in Govan; 5,306 in Leith, 4,731 in Stranraer, 3,876 in Glasgow, 3,539 in Anstruther-Easter, and 3,066 in Dundee, to 0·5 in Laggan, Lochlee, and Kintail, and 0·6 in Contin, Glenshiel, Tweedsmuir, Ardgour, and Jura. In 112 parishes there are less than 3 persons to 100 acres; in 89, more than 3 but less than 5; in 203, more than 5 but less than 10; in 191, more than 10 but less than 20; in 135, more than 20 but less than 50; in 57, more than 50 but less than 100; in 54, more than 100 but less than 300; in 15, more than 300 but less than 500; in 3, more than 500 but less than 1,000; and in 15, more than 1,000. Of the parishes in which there are less than 3 persons to 100 acres, 22 are in Argyll, 16 in Inverness, 11 in Sutherland, and 10 in Ross and Cromarty, while there are no such parishes in Bute, Edinburgh, Fife, Haddington, Linlithgow, Orkney, Renfrew, and Shetland. Of the parishes with more than 1,000 persons to 100 acres, 4 are in Lanark, 2 in Edinburgh, and 2 in Renfrew. (*Tables B1 and B2.*)

Burghs.—The average density of population in all burghs is found to be 20 persons to the acre. The maximum density is found in Pollokshaws, 77·9; Partick, 69·9; Govan, 68·8; Glasgow, 61·9; Leith, 53·1; and Prestonpans, 46·9; and the minimum density in Culross, 0·3; Dornoch, 0·6; Wigtown, 0·6; Gatehouse, 1·0; Cove and Kilcreggan, 1·9; and Fortrose, 1·9. In 5 burghs there are more than 50 persons to the acre; in 1, more than 45 but less than 50; in 1, more than 40 but less than 45; in 3, more than 35 but less than 40; in 6, more than 30 but less than 35; in 11, more than 25 but less than 30; in 19, more than 20 but less than 25; in 18, more than 15 but less than 20; in 37, more than 10 but less than 15; in 70, more than 5 but less than 10; and in 34, less than 5. Of the 34 burghs in which there are less than 5 persons to the acre, 27 are small and have populations of less than 2,000, while 7 have populations of more than this amount. These seven, and the number of persons to the acre in them,

are—Prestwick, 4·7; Melrose, 4·4; Kelso, 4·1; Bridge of Allan, 4·0; Auchterarder, 3·9; Rothesay, 3·8; and Castle Douglas, 3·2.

The eighteen most populous of the burghs, those with populations of 30,000 and over, arranged in order of density of population are—Partick, 69·9; Govan, 68·8; Glasgow, 61·9; Leith, 53·1; Dundee, 34·2; Motherwell, 30·5; Edinburgh, 29·4; Hamilton, 29·0; Clydebank, 28·2; Greenock, 27·3; Kilmarnock, 27·2; Aberdeen, 25·9; Paisley, 24·2; Coatbridge, 23·5; Kirkcaldy, 22·7; Falkirk, 20·1; Ayr, 16·5; and Perth, 11·6.

C.—AGE DISTRIBUTION AND CONJUGAL CONDITION OF THE POPULATION.

Age Distribution.

THE age distribution of the population has been fully and elaborately tabulated. In the county and city parts of the first volume there are given the distributions by single years of age, of the populations of the counties and cities and of all burghs with populations exceeding 20,000; and by quinquennial age groups, of the populations of all burghs and parishes. The distribution of young persons less than twenty years of age is also given in that volume by single ages for all school board districts. The tabulations given in the present volume consist of a single ages distribution of the entire population of Scotland, and of quinquennial age group distributions of the populations of the counties and of the county public health districts. The ages of the population are also tabulated in conjunction with their occupations and birthplaces. (*Tables XXIII., XXIV., and XXV.*)

A comparison between the age distribution of the population of this census and that of the population of 1901 brings out the fact that, although there has been an increase in the total population, a proportionate increase is not found in all age groups. Taking the figures relative to the two sexes together, it is found that large intercensal increases are found in some age periods, small increases in others, and decreases in a few. The largest of these increases are in age groups over 35 but under 40, 46,733, or 16·8 per cent.; over 30 but under 35, 40,329, or 12·8 per cent.; over 45 but under 50, 32,198, or 15·4 per cent.; and over 40 but under 45, 30,348, or 12·4 per cent. Decreases are found in age group over 20 but under 25, 13,807, or 3·2 per cent.; and in age group under 5, 288, or 0·1 per cent. Very similar changes are found in the figures of the sexes taken separately. (*Table C1.*)

In the male population, the largest intercensal quinquennial age group increases are found in age groups between 30 and 55, the maximum being in age group over 35 but under 40, and amounting to 24,944, or 18·8 per cent.; while decreases are found in age group under 5, and in age group over 20 but under 25, the former being small, amounting to only 104, but the latter being comparatively large, 8,621, or 4·1 per cent. Small decreases are also found in age groups of over 95. (*Table C2.*)

In the female population, the ascertained intercensal changes are very similar, for here also the largest increases are found in age groups between 30 and 55, and decreases are found in age group under 5, and in age group over 20 but under 25. The maximum increases are found in age group over 35 but under 40, 21,789, or 15·6 per cent., and in age group over 30 but under 35, 21,056, or 12·8 per cent. The decrease in age group under 5 is small, being only 84, but that in age group over 20 but under 25 is relatively large, being 5,186, or 2·3 per cent. In the female population, small decreases are also found in age group over 60 but under 65, amounting to 372, or 0·5 per cent., and in age group over 100, amounting to 15, or 44·1 per cent. (*Table C2.*)

That there should be a decrease in the female age group over 60 but under 65, without there being a similar decrease in the corresponding male age group, might at first sight suggest that the age distribution of the two sexes had at this period been modified in different manners, but a closer scrutiny shows that this is not the case, for in the male age group over 60 but under 65 the recorded increase is small compared with those of the immediately younger and older age groups. This suggests that, whatever may be the reason for the apparent decrease in the corresponding female age group, the same factor has been at work in the male population. In male age group over 55 but under 60 there is an observed increase of 20·6 per cent., and in age group over 65 but under 70, one of 24·7 per cent., while that in age group over 60 but under 65 is only 7·9 per cent. The relatively small increase in the male sex in age group over 60 but under 65, and the decrease in the corresponding female age group, both being followed by relatively large

increases in age groups over 65 but under 70, and over 70 but under 75, suggest that the returned ages of these periods require explanation, or at least that there has been some influence tending either to correct mis-statement in the returns of 1901 or to introduce it in the returns of this census. It may be that the passing of the Old Age Pensions Act, which took place between the two censuses, is not unconnected with it.

The unequal distribution into age groups of the intercensal increase is better demonstrated by figures showing the relative numbers per million of the population in the age groups of this census compared with those of the previous census. This comparison is made in Table C5, and on the figures there given Charts 1 and 2 are constructed. In the male sex the ratios per million of the total population are found to be less now than ten years ago in all age groups of under 30, by quantities varying between 9·9 per cent. in age group over 20 but under 25, and 6·1 per cent. in age group under 5, to 2·7 per cent. in age group over 10 but under 15, and 2·8 per cent. in age group over 5 but under 10. On the other hand, the numbers in all male age groups of over 30 but under 80 are found to have increased, the maximum increases being in age groups over 65 but under 70, 17·2 per cent., and in age group over 70 but under 75, 14·9 per cent. Each million of the total population is found now to contain 16,145 fewer males under 30, but 15,033 more males over 30, than was the case in 1901. (*Table C5.*)

The results are similar with the numbers per million of the total population found in the female age groups. In all the female age groups of under 30 decreases are found, and in all age groups of over 30, those over 60 but under 65, and over 80 but under 85 excepted, increases are found. The largest relative decreases under 30 are found in age group over 20 but under 25, 8·2 per cent., and age group under 5, 6·1 per cent. The largest increases over 30 are found in age group over 70 but under 75, 19·2 per cent., and in age group over 65 but under 70, 10·2 per cent. The decrease of females in age group over 60 but under 65 amounts to 1,028 per million of the total population, and, as already hinted, is probably not very reliable, because it is apparently compensated by the relatively large increases in the next two older age groups. Taken collectively, female age groups of under 30 are found to have 12,638 fewer per million of the general population than was the case in 1901, while those of over 30 have 13,750 more. (*Table C5.*)

A discussion of the significance of these figures is, perhaps, out of place in a census report, but they seem to claim special attention from those who may care to use the figures for economic or scientific purposes, as the changed age distribution of the population must necessarily have an important bearing on the question of the demographic rates for which these figures furnish the basis. The shortage of people of both sexes of ages between 20 and 30 may be expected to reduce the marriage rate; and a reduced marriage rate, more especially when combined, as it is, with an advancing average age at marriage, will tend to reduce the birth-rate. Again, the reduced number of children in the population will tend to lessen the death-rate, children of tender years being subject to a death-rate of more than average amount.

The following are a few remarks on some specially selected age groups of the population, these age groups being selected on account of their administrative importance or of some other special interest attached to them:—

(1) Children of compulsory school age—over 5 but under 14—number 908,681, and constitute 19·1 per cent. of the total population; and are 41,773, or 4·8 per cent., more than in 1901, when they constituted 19·4 per cent. of the total. Thus, although children of these ages have increased in number in the intercensal period, their ratio to the total population is less in 1911 than in 1901.

(2) Of the total population, 2,087,272, or 43·8 per cent., are under 21 years of age, and 2,673,632, or 56·2 per cent., over that age. Of the male population, 1,049,737, and of the female, 1,037,535, are under 21 years of age, while 1,259,102 of the male and 1,414,530 of the female are over that age. In the male population, persons under 21 constitute 45·5 per cent., and persons over 21, 54·5 per cent., of the total; in the female population, persons under 21 constitute 42·3 per cent., and persons over 21, 57·7 per cent., of the total. Males of less than 21 years of age exceed in number females of under 21 by 12,202, or 1·2 per cent., but females of over 21 exceed in number males of over 21 by 155,428, or 12·3 per cent.

(3) Persons of 70 years of age and upwards number 152,898, of whom 59,044 are male and 93,854 female. Persons of these ages constitute 3·2 per cent. of the total population, the percentage in the male sex being 2·6 and in the female 3·8. Females of 70 years and over outnumber males of these ages by 34,810, or 59·0 per cent. In 1901, persons of 70 years of age and upwards numbered 129,674, males numbering 51,133 and females 78,541; compared with these figures, males of these ages are now 7,911, or 15·5 per cent., more, females 15,313, or 19·5 per cent., more, and the two sexes together, 23,224, or 17·9 per cent., more.

(4) In all quinquennial age groups of under 20 the males exceed in number the females, but in all quinquennial age groups of over 20 the females exceed the males. This is perhaps best shown by considering the sex ratios of the age groups. In those under 20 this ratio varies between 98·2 females to each 100 males, to 99·5 to 100; but in those over 20 the ratio is found generally to increase as the age increases, though subject to some fluctuations. In age group over 20 but under 25 the ratio is 107·9 to 100, and in age group over 25 but under 30 it is 111·9 to 100; in age group over 30 but under 35 it falls to 108·9, and in age group over 35 but under 40 to 106·0. After age 40 the ratio increases steadily, rising to 109·1 to 100 in age group over 45 but under 50; to 110·2 in age group over 55 but under 60; exceeding 120 to 100 in age group over 65 but under 70; exceeding 150 to 100 in age group over 70 but under 75; exceeding 200 to 100 in age group over 85 but under 90; and exceeding 300 to 100 in age group over 95 but under 100.

(5) The total number of reputed centenarians returned is 24, of whom 5 were males and 19 females; in 1901 they numbered 41, of whom 7 were males and 34 females. These figures, however, are not very reliable, for experience shows that a considerable proportion of old people, probably from ignorance of the facts, overstate their ages.

Distribution by Single Ages.—The tabulation of the ages of the population in this census differs from those of the more recent censuses of Scotland in that it has been done by single ages in addition to quinquennial age periods. In the census report of 1871 a similar tabulation by single ages was given, but this was not repeated in the censuses of 1881, 1891, and 1901. Although a tabulation by single ages must of necessity carry a very considerable amount of error, it is not without interest and value, the latter more especially by providing statisticians, and others interested, with the crude material, and thus supplying them with data for any further research or deductions—scientific or other—that may appeal to them. (*Table XXIII.*)

The single age tabulation provides a means of examining and testing the reliability of the statements of age, and of allocating errors of statement. This is done by comparing a graduated or smoothed table of ages with the crude or ungraduated one. Thanks are due to Mr R. M. Hunter, Secretary to the Faculty of Actuaries in Scotland, who very kindly consented to graduate the crude figures for the purposes of this report, and has supplied the figures appearing in Tables C8 and C9 on pp. lx. and lxi. Tracings showing the recorded ages of the population, male and female, and comparing them with Mr Hunter's graduated figures, are to be seen in Charts 3 and 4, which follow page liv.

A general scrutiny of these figures and charts shows that in ages under 30 the crude returns do not differ widely from the graduated returns, but that after this age the differences become greater. Under 30, the errors in statement of age—the differences between the crude and the graduated numbers at each age—range, among males, between an excess in the crude figures at age 18 amounting to 1,821, or 4·0 per cent., and a deficit at age 1 amounting to 2,015, or 3·7 per cent. After age 30, the errors become greater, and range between an excess of 4,852, or 16·6 per cent., at age 40, and a deficit of 4,621, or 16·4 per cent., at age 41. Large errors of excess in the male population are also found at age 30, 3,975, or 11·3 per cent.; at age 38, 2,292, or 7·5 per cent.; at age 45, 2,240, or 9·4 per cent.; at age 48, 1,591, or 7·1 per cent.; at age 50, 4,386, or 20·6 per cent.; at age 56, 1,505, or 9·2 per cent.; and at age 60, 2,713, or 20·0 per cent. Relatively to the number enumerated, the error at age 50 is the greatest, amounting to 20·6 per cent., while the next greatest is at age 60, amounting to 20·0 per cent. Over and above the large error of deficit found at age 41, large deficits are also found among the males at age 31, 2,835, or 8·2 per cent.; at age 33, 1,972, or 5·9 per cent.; at age 37, 2,127, or 6·8 per cent.; at age 43, 2,103, or 8·1 per cent.; at age 51, 3,214, or 15·6 per cent.; and at age 61, 1,983, or 15·5 per cent. Relatively to the number enumerated, the deficits are highest at ages 41 and 51, at which they are 16·4 and 15·6 per cent. respectively.

The figures relative to the female population show very similar results, for the errors in ages under 30 are comparatively small, while those at older ages are in some cases of very considerable amount. Under 30, these errors vary between an excess of 1,858, or 3.5 per cent., at age 2, and a deficit of 1,624 at age 27. At ages 30 and over the errors vary between an excess of 4,423, or 14.4 per cent., at age 40, and a deficit of 5,073, or 17.0 per cent., at age 41. Other large errors of excess are found at age 30, 3,925, or 10.1 per cent.; age 38, 2,142, or 6.6 per cent.; age 48, 1,872, or 7.7 per cent.; age 50, 4,262, or 18.3 per cent.; and age 60, 3,261, or 21.2 per cent.: while large errors of deficit are found at age 31, 3,491, or 9.2 per cent.; at age 37, 2,051, or 6.2 per cent.; at age 51, 4,279, or 19.0 per cent.; at age 61, 2,710, or 18.4 per cent.; and at age 71, 1,676, or 16.4 per cent. Relatively to the numbers enumerated, the largest female error of excess is at age 60, which is 21.2 per cent., and the largest error of deficit is at age 51, which amounts to 19.0 per cent.

A scrutiny of Charts 3 and 4 shows that the errors in statement of age have in general a similar and systematic incidence in the two sexes, for in both the largest errors of excess are found in the ages that have a cipher for the unit's digit, and smaller though considerable errors in excess are found in the ages that have an 8, a 2, or a 6 as the unit's digit, while the principal errors in deficit are found in ages with 1 as the unit's digit, and smaller though very constant errors in those with 7 or 9 as that digit. The curves also suggest that the most frequent misstatement of age is a deduction of one year when the true age is 31, 41, 51, or 61. A further examination of these charts, and of the corresponding figures, gives support to the established statistical method of grouping ages in decennial periods of over and under ages with 5 as the unit's digit, in preference to periods of over and under ages with 0 as the unit's digit, as the greater errors of misstatement occur in the middle of the former periods, but are gathered round the points where the latter periods meet.

A scrutiny of the single ages tabulation of 1871 shows a close agreement between the errors it carried and those found in the census of 1911, but with this difference, that the errors in the figures of 1871 were relatively much greater. The figures then published show the same large errors in excess at ages with a cipher as the unit's digit, and the same smaller errors in excess at ages with 8, 2, or 6 as the unit's digit, while large errors in deficit are in the same way found at ages with 1, and considerable errors in deficit at ages with 7 or 9 as the unit's digit. Thus, whatever may be the causes which now lead to misstatement of age, it is reasonable to assume that the same causes were largely effective forty years ago.

Conjugal Conditions.

The condition as to marriage of the population has been tabulated in conjunction with their ages, and the results may be seen in Tables XXIII. and XXIV.

Of the male population of fifteen years of age and upwards, 708,533, or 46.1 per cent., are bachelors, 743,747, or 48.4 per cent., husbands, and 82,612, or 5.4 per cent., widowers, while the conjugal condition of 1,126, or 0.1 per cent., was not stated. Of the female population of these ages, 742,955, or 44.0 per cent., are spinsters, 762,835, or 45.2 per cent., wives, and 181,497, or 10.7 per cent., widows; while the conjugal condition of 962, or 0.1 per cent., was not stated. Compared with the corresponding figures of 1901, bachelors are 40,859, or 6.1 per cent., more; husbands, 66,369, or 9.8 per cent., more; widowers, 9,871, or 13.6 per cent., more; spinsters, 49,531, or 7.1 per cent., more; wives, 72,456, or 10.5 per cent., more; and widows, 6,092, or 3.5 per cent., more. (*Tables C10 and C11.*)

Spinsters of fifteen years of age and upwards exceed bachelors in number by 34,422, or 4.9 per cent.; wives exceed husbands by 19,088, or 2.6 per cent.; and widows exceed widowers by 98,885, or 119.7 per cent. In 1901, spinsters exceeded bachelors by 25,750, wives exceeded husbands by 13,001, and widows exceeded widowers by 102,664. Thus, during the intercensal period, the excess of spinsters over bachelors and of wives over husbands has increased, while the excess of widows over widowers has decreased.

Bachelors of 30 years of age and upwards number 191,513, and spinsters of these ages, 244,640, the latter being 53,127, or 27.7 per cent., more than the former. At

age 45 and over, the excess of spinsters over bachelors amounts to 44,139, or 69·3 per cent., and at age 60 and over to 23,596, or 122·8 per cent.

In quinquennial age groups, the highest proportion of married men is found in age group over 45 but under 50, where it amounts to 77·1 per cent. of the total, the bachelors constituting 16·9 per cent., and the widowers 5·9 per cent., of the total. In younger age groups, bachelors, and in older age groups, widowers, are relatively more numerous. In age group over 20 but under 25, husbands constitute 11·4 per cent. of the total; in age group over 25 but under 30, they exceed 40 per cent. of the total; and in age groups between 35 and 65, they exceed 70 per cent.; but after 65 this proportion is a declining one, falling below 60 per cent. in age group 70 to 74, below 50 per cent. in age group over 75 but under 80, below 30 per cent. in age group over 85 but under 90. In age groups of over 70 more than 30 per cent., and in age groups of over 80 more than 50 per cent., of the males are widowers.

The highest percentage of married women is found in age group over 40 but under 45, where they number 100,814 and constitute 70·7 per cent. of the total women of that age. In age group over 20 but under 25 this percentage is 21·6, in age group over 25 but under 30 it rises to 49·0, and in age group over 30 but under 35 to 64·7. In age group over 35 but under 40 this percentage is little short of the maximum, being 70·1, but subsequent to age 45 it is a declining quantity, falling below 60 in age group over 55 but under 60, below 40 in age group over 65 but under 70, and below 20 in age group over 75 but under 80. In age group of over 70 more than 60 per cent., and in age group of over 80 more than 70 per cent., of the women are widows.

A comparison between the proportions in the age groups married at this census with the corresponding figures of 1901, shows these proportions to be reduced in all male age groups under 90, and in all female age groups under 35, but somewhat increased in female age groups from age 35 onwards. The more marked reductions in the male age groups are found in age group over 25 but under 30, where the percentage has fallen from 44·3 to 41·2, and in age group over 30 but under 35, where it has fallen from 64·9 to 62·5. In the female age groups, the largest reductions are found in age group over 20 but under 25, where the reduction is from 23·4 to 21·6, and in age group over 25 but under 30, where it is from 51·5 to 49·0.

Husbands in Scotland constitute 48·4 per cent. of the total males of 15 years of age and upwards, and wives 45·2 per cent. of the total females of these ages, but these proportions vary in the different counties and burghs.

In the counties the highest proportions of males over 15 who are husbands are 51·9 per cent. in Forfar, 51·5 per cent. in Fife, 51·5 per cent. in Shetland, 50·2 per cent. in Aberdeen, and 50·0 per cent. in Clackmannan, and the lowest in Argyll, 38·9 per cent., in Inverness, 39·6 per cent., in Ross and Cromarty, 40·8 per cent., and in Sutherland, 40·9 per cent. The percentage of the total females of these ages who are wives is found to vary from 57·2 in Linlithgow, 51·1 in Stirling, 50·0 in Fife, 48·9 in Lanark, and 48·0 in Kincardine, to 35·3 in Bute, 36·4 in Shetland, 36·7 in Nairn, 36·9 in Inverness, 37·4 in Sutherland, and 37·5 in Argyll. (*Tables C12 and C13.*)

In the burghs of 20,000 population and upwards the percentage of husbands among males of 15 years of age and upwards varies from 55·1 in Arbroath, 55·0 in Kirkcaldy, 52·7 in Aberdeen, 52·7 in Rutherglen, and 52·6 in Dundee, to 44·4 in Inverness, 44·8 in Coatbridge, 46·4 in Dunfermline, 47·0 in Greenock, and 47·5 in Hamilton. The corresponding percentages in the female population of these burghs vary from 61·0 in Motherwell, 59·2 in Clydebank, 57·2 in Hamilton, and 56·8 in Coatbridge and Wishaw, to 37·2 in Inverness, 38·4 in Edinburgh, 39·9 in Perth, and 40·7 in Arbroath. (*Tables C14 and C15.*)

Figures relative to the percentages of bachelors, widowers, spinsters, and widows in the population of 15 years of age and upwards, will be found in Tables C10 to C15, at the end of this section of the report.

The first part of the paper is devoted to a general
 discussion of the problem. It is shown that the
 problem is equivalent to a problem in the theory of
 differential equations. The second part of the paper
 is devoted to a detailed study of the problem in the
 case of a certain class of functions. It is shown that
 the problem is solvable in this case. The third part
 of the paper is devoted to a study of the problem in
 the case of a certain class of functions. It is shown
 that the problem is solvable in this case.

D.—OCCUPATIONS.

THE occupations of the population of Scotland ten years of age and upwards have been very fully tabulated. This has been done in the first volume, by sex and by age groups, for the populations of the counties, of the cities, and of all burghs in which the population exceeds 20,000. The present volume gives in addition a tabulation of the occupations of the entire population of Scotland, and also shows how the numbers returned under each occupation are distributed according to the county of enumeration. Tables showing the occupations of married and of widowed women in combination with their ages, and the distribution of the occupations of married women in counties, and in burghs having populations of more than 20,000, are also given in this volume. Occupations have been further tabulated in relation to the industries to which the workers are attached, and will again be referred to in Section E of this Report which deals with the latter subject.

Of the male population of Scotland aged ten years and upwards, 1,473,757, or 82·7 per cent., are returned as having some remunerative occupation, while of the female population of these ages 593,210, or 30·7 per cent., are so returned. In 1901, occupied males of these ages numbered 1,391,188 and constituted 84·0 per cent. of the male population over 10 years of age, while occupied females numbered 591,624, and constituted 33·0 per cent. of the female population of that age. A comparison between these figures shows that the occupied males of the country are now 82,569, or 5·9 per cent., more than in 1901, and the occupied females, 1,586, or 0·3 per cent., more than in that year, while, as has been shown, the percentage per population is less.

Of the occupied males, 26,335, or 1·8 per cent., are more than 10 but less than 15 years of age—1,016, or 0·1 per cent., being less than 14 years; 213,575, or 14·5 per cent., are more than 15 but less than 20 years of age—38,395 of them being 15, 43,178 being 16, 43,867 being 17, and 88,135 being 18 or 19 years of age. Occupied males more than 20 but less than 25 years of age number 196,022, and constitute 13·3 per cent. of the total; more than 25 but less than 45, 633,628, and constitute 43·0 per cent. of the total; more than 45 but less than 65, 337,911, and constitute 22·9 per cent. of the total; more than 65 but less than 70, 37,114, and constitute 2·5 per cent. of the total; and more than 70, 29,117, and constitute 2·0 per cent. of the total. The ages of 55 of the occupied males were not stated in the householders' schedules. Compared with the corresponding figures of 1901, occupied males of less than 15 are 17,047, or 39·3 per cent., fewer, those of less than 14 being 9,961 fewer, and of 14 years of age, 7,086 fewer. Occupied males more than 15 but less than 20 are 2,589, or 1·2 per cent., fewer, and more than 20 but less than 25, 9,747, or 4·7 per cent., fewer; but those more than 25 but less than 45 are 57,983, or 10·1 per cent., more; over 45 but under 65, 46,871, or 16·1 per cent., more; and over 65, 7,043, or 11·9 per cent., more. Thus the increase in the number of occupied males is found to be restricted to age groups of 25 and over, while in younger age groups decreases are found.

Of the occupied females, 17,080, or 2·9 per cent., are under 15 years of age, 590 of them being under 14; 158,594, or 26·7 per cent., are over 15 but under 20, 27,356 being aged 15, 31,428 aged 16, 33,432 aged 17, and 66,378 aged 18 or 19. Those over 20 but under 25 number 133,913, and constitute 22·6 per cent. of the total occupied; over 25 but under 45, 192,848, and constitute 32·5 per cent. of the total occupied; over 45 but under 65, 73,293, and constitute 12·4 per cent. of the total occupied; over 65 but under 70, 9,203, and constitute 1·6 per cent. of the total occupied; and over 70, 8,256, and constitute 1·4 per cent. of the total occupied. A comparison with the corresponding figures of 1901 shows diminished numbers of occupied females in age groups of under 20, and of over 65, and increased numbers in age groups between 20 and 65. (*Table XXVI.*)

Occupations of Males.

The occupations to which the largest numbers of males are returned, arranged in the order of magnitude of the numbers returned, include Miners, Agricultural Labourers, Farmers and Crofters, Carters, Commercial Clerks, General Labourers, Carpenters and

Joiners, Iron Founders, Furnacemen, Grocers, Fishermen, Engineers, and Blacksmiths. (*Tables XXVI., XXVII., and D1.*)

Miners working below ground, hewers and others included, number 129,876, and constitute 8·8 per cent. of the total occupied males; they are 29,900, or 29·9 per cent., more than in 1901, and form by far the largest group in Scotland. But large as this number is, it does not include all those with mining occupations, for, in addition, there are 11,225 returned as working above ground, and 4,770 returned as having other mining occupations. Of these 129,876 miners working below ground, the largest numbers were enumerated in Lanark, 54,390; Fife, 24,340; Ayr, 13,202; Stirling, 10,345; Edinburgh, 10,260; and Linlithgow, 9,768.

Male agricultural labourers number 71,541, and constitute 4·9 per cent. of the total occupied males. They are 2,253, or 3·1 per cent., fewer than in 1901. Of these, 13,806 were returned as in charge of cattle, and 35,475 as in charge of horses, while the special duty of 22,260 was not specified. It is in the last of these three groups that the deficit is found, agricultural labourers in charge of cattle now numbering 2,189 more than in 1901, and those in charge of horses, 1,123 more. The counties in which the largest numbers of agricultural labourers were enumerated are Aberdeen, 10,458; Forfar, 4,987; Perth, 4,853; Fife, 3,869; Ayr, 3,629; Lanark, 3,509; and Dumfries, 3,061; and the counties in which the smallest numbers were enumerated are Shetland, 151; Clackmannan, 224; and Selkirk, 310.

Farmers and crofters collectively number 43,966, of whom 29,939 were returned as farmers, and 14,027 as crofters. Together they constitute 3·0 per cent. of the total occupied males. In 1901, male farmers and crofters numbered 45,573, and, compared with this figure, the number at this census is 1,607, or 3·5 per cent., less. In 1901, crofters were classified separately from farmers only in the limited number of counties to which the Crofters Acts applied, and consequently the figures of the present census of these occupations taken separately are not comparable with those of the 1901 census. Further, the figure given above, viz., 43,966, does not include all the crofters enumerated at this census, 3,879 being returned as fishermen-crofters; and if these are included, the total of this class of occupation is brought up to 47,845, a number which is 650 more than the corresponding figure of 1901. This last comparison, being the most comprehensive, is almost certainly the fairest, and it seems to indicate that the number holding land for agricultural purposes in larger or smaller quantity is now no less than it was ten years ago. In the counties the number of farmers and crofters enumerated, including those described as graziers and as fishermen-crofters, varies from 7,094 in Aberdeen, 5,202 in Ross and Cromarty, 4,610 in Inverness, 2,527 in Orkney, 2,239 in Perth, 2,100 in Ayr, 2,090 in Shetland, and 1,979 in Lanark, to 86 in Clackmannan, 127 in Selkirk, 187 in Peebles, and 188 in Kinross. Crofters were returned in greatest numbers in Ross and Cromarty, 2,991; Inverness, 2,957; Aberdeen, 1,747; Shetland, 1,255; and Sutherland, 1,096. Fishermen-crofters were returned in greatest numbers in Ross and Cromarty, 1,489; Inverness, 857; Shetland, 720; Orkney, 252; Sutherland, 242; and Caithness, 189.

The number of occupied males returned as carters, including those returned as vanmen, lorrymen, and carriers, but excluding those returned as carters on farms, was 40,391, and these constitute 2·7 per cent. of the total occupied. Compared with the corresponding figure of 1901, that of this census is 1,184, or 3·0 per cent., more. Of the 40,391 carters, 17,700, or 43·8 per cent., were enumerated within the four cities, 11,017 being in Glasgow, 3,033 in Edinburgh, 1,922 in Aberdeen, and 1,728 in Dundee. Less than 100 were enumerated in each of the following counties, namely, Kinross, Nairn, Orkney, and Shetland.

Male commercial clerks number 40,337, constitute 2·7 per cent. of the total occupied males, and are 1,826, or 4·7 per cent., more than in 1901. That figure does not include all clerks enumerated, large numbers being tabulated as civil servants, law clerks, banking and insurance officials and clerks, and railway clerks; and if these are included, it is found that the aggregate number of male clerks in the country amounts to about 72,000, the precise figure not being determinable because officials, who may or may not be clerks, are included in the number returned under the respective headings. Of the 40,337 commercial clerks, 12,684 were enumerated in Glasgow, 3,839 in Edinburgh, 1,709 in Dundee, and 1,361 in Aberdeen. Very small numbers of commercial clerks were returned in the counties of Nairn, 11; Kinross, 14; Sutherland, 16; Berwick, 30; Orkney, 35; and Shetland, 45.

The number of occupied males classed as general labourers is 34,213. These constitute 2·3 per cent. of the total occupied, and are 20,811, or 37·8 per cent., fewer than in 1901. This comparison, however, is not a fair one, for in this census, information

regarding the "industry" to which persons were attached was asked for in the householders' schedules, and the information so obtained enabled large numbers described as "labourers" to be more accurately classified than was the case in 1901, when no question as to industry was included in the schedule. There can be no doubt that a large section of the apparent decrease in the number of general labourers is due to this cause, and consequently no reliance can be placed on the comparison as an indication of any real change in their number. If the number of labourers attached to the various occupations be collected from the figures given in Table XXVI., it is found that nearly 150,000, or fully 10 per cent., of the occupied males are labourers of one kind or another. As above noted, general labourers number 34,213, and agricultural labourers, 71,541; but in addition to these there are 13,147 dock labourers, 7,833 railway labourers, 7,131 road labourers, 5,328 masons' labourers, 3,104 coal labourers, 2,348 navvies, 1,674 bricklayers' labourers, and others.

Carpenters and joiners, including a small class, numbering 322, who described themselves as carpenters' or joiners' labourers, amount in all to 29,752, constitute 2·0 per cent. of the total occupied, and are 11,603, or 28·1 per cent., fewer than in 1901. The conditions referred to in the preceding paragraph, that made a comparison between the figures of this census and the last impracticable, are not present in this case, and the statistics under the present head give a clear indication of a great reduction in the number of the workmen here dealt with. The largest numbers of carpenters and joiners were enumerated in Lanark, 8,131; Edinburgh, 3,378; Renfrew, 1,931; Ayr, 1,876; Fife, 1,857; Aberdeen, 1,772; and Forfar, 1,548.

Ironfounders number 29,188, constitute 2·0 per cent. of the total occupied, and are 5,126, or 21·3 per cent., more than in 1901. This comparison, however, is probably affected by the inclusion of more labourers in the tabulation of this census than in that of 1901. Of the 29,188 ironfounders, 12,578 were enumerated in the County of Lanark, 6,420 in Stirling, 2,935 in Renfrew, 1,506 in Forfar, 1,377 in Ayr, 1,319 in Dumbaron, and 1,035 in Edinburgh.

Furnacemen, including those occupied at blast furnaces, puddling furnaces, rolling mills, in tube manufacture, and in the manufacture, smelting, and founding of steel, number 28,142, constitute 1·9 per cent. of the total occupied, and are 4,879, or 21·0 per cent., more than in 1901. This comparison, however, like that of ironfounders, is almost certainly affected by the alteration in the householder's schedule, with the consequent classification under their proper heading of large numbers formerly tabulated as labourers. The great majority of these furnacemen—25,414—were enumerated in the County of Lanark, Ayr being the only other county in which 1,000 or more were enumerated, and Stirling and Linlithgow the only other counties in which their number exceeded 200.

Grocers, including provision dealers and cheesemongers, number 26,421, constitute 1·7 per cent. of the total occupied, and are 68 fewer than in 1901. Of these, 7,416 were enumerated in the County of Lanark, 3,195 in Edinburgh, 1,691 in Forfar, 1,501 in Aberdeen, 1,413 in Renfrew, 1,378 in Fife, and 1,287 in Ayr.

Fishermen number 24,163, and constitute 1·6 per cent. of the total occupied. The corresponding figure for 1901 is not available, for the figure given in the report on that census includes a number of men returned as fishermen-crofters. There were 3,879 fishermen-crofters enumerated at this census, and if this number is added to the number returned as fishermen a total of 28,042 is obtained, which is 591, or 2·2 per cent., more than in 1901. Of the fishermen, 3,874 were enumerated in Banff, 3,557 in Aberdeen, 3,162 in Ross and Cromarty, 1,655 in Fife, 1,506 in Shetland, 1,342 in Argyll, 1,257 in Elgin, 1,195 in Inverness, and 1,159 in Kincardine. Of the fishermen-crofters, 1,489 were enumerated in Ross and Cromarty, 857 in Inverness, 720 in Shetland, 252 in Orkney, and 242 in Sutherland.

Engineers returned as erectors, fitters, and turners, number 23,264, and constitute 1·6 per cent. of the total occupied. They are 3,303, or 12·4 per cent., fewer than in 1901. Of these, 11,633 were enumerated in Lanark, 3,682 in Renfrew, 1,661 in Forfar, 1,357 in Edinburgh, and 1,322 in Ayr. In addition to these 23,264 males returned as erectors, fitters, or turners, there were 26,223 returned as having ill-defined occupations in engine and machine making.

Blacksmiths, including their strikers, number 22,388, constitute 1·5 per cent. of the total occupied, and are 2,533, or 10·2 per cent., fewer than in 1901. Of these, 7,972 were enumerated in Lanark, 1,874 in Renfrew, 1,753 in Edinburgh, 1,481 in Ayr, 1,351 in Aberdeen, 1,100 in Forfar, and 1,061 in Fife.

Other occupations to which large numbers of occupied males were returned include commercial travellers, 11,710; dock labourers, 13,147; ship-platers and riveters, 16,977;

masons, including architectural and monumental masons and carvers, 13,954; plumbers, 11,543; painters, including glaziers, 16,332; printers and lithographers, 12,904; workers in hemp, jute, and cocoa-fibre manufacture, 12,766; drapers, 11,566; tailors, 18,567; bootmakers, 13,356; butchers, 13,198; and bakers, 16,508. Compared with the corresponding figure of 1901, the number of commercial travellers is 2,284, or 24·2 per cent., more, and of dock labourers, 3,546, or 36·9 per cent., more, the latter apparent difference, however, being no doubt largely due to the change of method explained above in the paragraph referring to general labourers. The number of ship-platers and ship-riveters is 6,142, or 56·7 per cent., more, a difference also probably due more to change of enumeration methods than to any real increase; of masons, 10,432, or 42·8 per cent., fewer; of plumbers, 143, or 1·2 per cent., fewer; of painters, 490, or 3·1 per cent., more; of printers and lithographers, 1,075, or 10·7 per cent., more; of drapers, 429, or 3·6 per cent., fewer; of tailors, 2,097, or 10·1 per cent., fewer; of bootmakers, 2,848, or 17·6 per cent., fewer; of butchers, 1,631, or 14·1 per cent., more; of bakers, 902, or 5·2 per cent., fewer; and of workers in hemp, jute and cocoa-fibre manufacture, 2,173, or 20·5 per cent., more.

One striking result found from a comparison between the figures of this census and those of the census of 1901 is the marked decrease in the number of males returned as having occupations connected with the building trades. In 1901, these numbered 123,941, and they now number 96,087, the decrease of 27,854, or 22·5 per cent. In the various parts of the first volume of this Report, which dealt with the census returns of the cities and of the counties separately, many comparisons similar to this were referred to, and in each instance a decrease was recorded.

Ministers, clergymen, and priests number 5,105, and are 228 fewer than in 1901. Of these, 1,765 are returned as ministers of the Church of Scotland, 1,838 as ministers of the United Free Church, 321 as clergymen of the Episcopalian Church, 474 as priests of the Roman Catholic Church, and 707 as belonging to other denominations. Compared with the corresponding figures of 1901, ministers of the Church of Scotland are 63 fewer, of the United Free Church, 145 fewer, and clergymen of the Episcopalian Church are 59 fewer, but priests of the Roman Catholic Church are 18 more, and clergy of other denominations 21 more.

Persons in the legal profession, advocates and solicitors, number 4,218, and their clerks, 5,423, the former being 248 more, and the latter 205 fewer, than in 1901.

Medical practitioners, including those described as physicians and surgeons, number 3,094, and are 189 more than in 1901. Dentists and their assistants number 1,323, and are 497 more than in 1901. Veterinary surgeons number 279, and are 83 fewer than in that year.

Males returned as teachers, including those described as schoolmasters, professors, and lecturers, or as having other occupations connected with education, number 9,077, and are 1,037 more than in 1901. Of the four professions just referred to, the church, law, medicine, and teaching, the medical and teaching professions show considerable increases, the legal profession a small increase, and the clerical profession a small decrease.

Male indoor domestic servants, including those in hotels, lodging-houses, and eating-houses, number 3,721, and are 632 more than in 1901; while male outdoor domestic servants, including coachmen, motor car drivers, gardeners, gamekeepers, etc., number 23,973, and are 5,085 more than in 1901. Of the male domestic servants, 10,615 were returned as gardeners, 5,908 as gamekeepers, 4,886 as coachmen or grooms, 2,564 as motor car drivers or attendants, 2,527 as indoor servants not in hotels, etc., and 1,194 as indoor servants in hotels, lodging-houses, and eating-houses.

Horsekeepers, stablemen, grooms, and coachmen, other than domestic, number 6,437, and are 2,920 fewer than in 1901; but a considerable portion of this decrease is compensated by the fact that there are now 1,283 motor car drivers or attendants (not domestic)—a class which hardly existed in 1901. In that year the total number returned as motor car drivers, domestic and other, was 80, and by this census the number of both is 3,847.

Railway officials and servants number 49,456 and are 6,641, or 15·5 per cent., more than in 1901. These include 9,765 officials and clerks, 6,455 ticket collectors and porters, 9,290 engine drivers and stokers, 3,054 guards, 3,816 signalmen, 927 pointsmen, 8,316 platelayers, gangers, and packers, and 7,833 labourers. Each of these classes shows an increase, with the exception of guards and pointsmen, who are respectively 8 and 200 fewer than in 1901.

Seamen in the merchant service, all grades, and including pilots, number 20,114,

which is 1,025 more than in 1901. These include 8,712 in the navigating department, 7,813 in the engineering department, 3,096 cooks, stewards, and others in subsidiary services, and 493 pilots and boatmen.

Males with occupations connected with stone and slate quarries number 10,220, and are 3,642, or 26·3 per cent., fewer than in 1901. They include 168 owners and managers, 6,451 miners and quarriers, and 3,601 cutters and dressers. Of these workers in quarries, 2,850 were enumerated in the County of Aberdeen, 1,164 in Lanark, 921 in Fife, 760 in Edinburgh, 658 in Argyll, 571 in Ayr, and 516 in Dumfries.

Among males with occupations connected with the manufacture of vehicles, there are 2,809 railway coach and wagon makers, 947 cycle makers, 2,708 motor car makers, 2,783 coach and carriage makers, 185 wheelwrights, and 1,031 others. The total in this class shows an intercensal increase of 3,247, or 45·0 per cent., and, as might be expected, the largest part of the increase is in the number described as makers of cycles and motor cars; in 1901 these jointly numbered 1,114, and the intercensal increase amounts to 2,541, or 228·1 per cent.

To the group of occupations connected with the manufacture of wooden furniture, fittings, and decorations, 13,925 males were returned, a number which is 1,131 less than the corresponding figure of 1901. These include 6,467 cabinet makers, 1,167 french polishers, 2,508 upholsterers, 1,062 wood-carvers and gilders, and others. The numbers of cabinet makers, upholsterers, and wood-carvers and gilders all show intercensal decreases, that of the first being the largest and amounting to 1,100, or 14·5 per cent. Upholsterers are 145, or 5·5 per cent., fewer than in 1901, and wood-carvers and gilders are 601, or 36·1 per cent., fewer than in that year.

Males with occupations connected with the manufacture of cotton, wool, and worsted, and linen, hemp, and jute all show intercensal increases. Workers in occupations connected with cotton manufacture number 2,986, being 510 more than in 1901; in wool and worsted manufacture, 10,138, being 877 more than in 1901; and in linen, hemp, and jute manufacture, 21,347, being 2,770 more than in that year.

Male workers with occupations connected with shipbuilding, exclusive of platers and riveters, number 33,879, and are 10,187, or 43·0 per cent., more than in 1901. Of these, 4,989 are described as workers in iron, 8,248 as shipwrights, 1,953 as other workers in wood, and 18,689 as painters, shipyard labourers, or as having other or ill-defined occupations in shipbuilding yards.

Maltsters number 940, and are 385, or 29·1 per cent., fewer than in 1901; brewers number 2,252, and are 252 more than in 1901; and distillers number 1,952, and are 25 more than in that year. These three occupations combined show an aggregate decrease of 108. Inn and hotel keepers, publicans and beer sellers, and wine and spirit merchants and agents, jointly number 7,433, and are 365, or 5·2 per cent., more than in 1901.

Table D1 is drawn up to show comparisons between the 1901 and 1911 numbers in the various occupations, and explanatory notes are inserted in the Table where the numbers are not strictly comparable.

Occupations of Females.

The occupations, or groups of occupations—for in many instances combination for purposes of comparison and description is found to be desirable—to which the largest numbers of occupied females are returned, include domestic indoor servants, dressmakers and tailors, commercial clerks, workers in hemp, jute, and cocoa-fibre manufacture, teachers, workers in linen manufacture, workers in wool and worsted manufacture, farm servants, laundry workers, workers in cotton manufacture, daughters and other relatives of farmers and crofters assisting on farms and crofts, sick nurses and midwives, charwomen, and drapers, these being the only occupations to which 10,000 or more are returned. (*Tables XXVI., XXVIII., and D1.*)

Female domestic indoor servants, including those in hotels, lodging- and eating-houses, number 135,052, constitute 22·8 per cent. of the total occupied women, and are 9,040, or 6·0 per cent., fewer than in 1901. Of these, 3,968 were returned as in hotel, lodging-house, and eating-house service, and 131,084 as in other domestic service. The largest numbers were enumerated in the following counties, namely, Lanark, 26,978; Edinburgh, 21,808; Aberdeen, 12,020; Ayr, 7,589; Renfrew, 6,485; Forfar, 6,265; and

Fife, 5,781. In the City of Edinburgh, female domestic servants number 17,035; in the City of Glasgow, 16,219; in the City of Aberdeen, 4,272; and in the City of Dundee, 2,229. In Edinburgh, female domestic servants constitute 5·3 per cent. of the entire population; in Aberdeen, 2·6 per cent.; in Glasgow, 2·1 per cent.; and in Dundee, 1·4 per cent.

Dressmakers and female tailors number 48,215, constitute 8·1 per cent. of the total occupied females, and are 7,466, or 13·4 per cent., fewer than in 1901. Of the total, 11,290 were enumerated in Glasgow, 5,337 in Edinburgh, 2,029 in Aberdeen, and 1,229 in Dundee.

Female commercial clerks, including typists, number 29,067, constitute 4·9 per cent. of the total occupied females, and are 13,668, or 88·8 per cent., more than in 1901, when the corresponding figure was 15,399. Of these, the majority, 15,428, were enumerated in the four cities; and approximately three-fourths were enumerated in four counties, Lanark, Edinburgh, Renfrew, and Aberdeen. In Lanark, 11,820, or 40·7 per cent., were enumerated; in Edinburgh, 5,765, or 19·8 per cent.; in Renfrew, 2,170, or 7·5 per cent.; and in Aberdeen, 1,915, or 6·6 per cent. In the four cities the number enumerated ranged from 8,364 in Glasgow, to 984 in Dundee. In Edinburgh this number is 4,467, and in Aberdeen, 1,613.

Workers in hemp, jute, and cocoa-fibre manufacture number 27,125, constitute 4·6 per cent. of the total occupied females, and are 1,537, or 5·4 per cent., fewer than in 1901. The great majority of these workers—25,310, or 93·3 per cent.—were enumerated in the County of Forfar, 23,369 being enumerated within the City of Dundee. Other counties in which considerable, though smaller, numbers were enumerated are Fife, 557; Perth, 482; and Aberdeen, 419.

Female teachers, including those described as professors and lecturers, number 18,778, constitute 3·2 per cent. of the total occupied females, and are 1,544, or 9·0 per cent., more than in 1901. In addition, 466 women were returned as having other occupations connected with education.

Female workers in flax and linen manufacture number 16,360, constitute 2·8 per cent. of the total occupied females, and are 1,708, or 9·5 per cent., fewer than in 1901. Of these, 8,112, or 49·6 per cent., were enumerated in Fife, 4,643, or 28·4 per cent., in Forfar, and 1,237, or 7·6 per cent., in Aberdeen, 85·6 per cent. being enumerated in these three counties.

Workers in wool and worsted manufacture number 15,148, constitute 2·6 per cent. of the total occupied females, and are 497, or 3·2 per cent., fewer than in 1901. Of these, 191 were described as sorters, 197 as carders or combers, 3,929 as spinners, and 7,531 as weavers, while 3,300 were described as attached to other or undefined processes. Workers in this manufacture are found to be more widely distributed than those in the manufacture of linen or hemp and jute, for the largest number found in any one county—enumerated in Selkirk—amounts to only 2,574, or 17·0 per cent., of the total. In Clackmannan, 2,344 were enumerated; in Ayr, 1,499; in Inverness, 1,354; in Peebles, 1,223; and in Roxburgh, 1,155. In no other county do these workers exceed 1,000.

Female farm servants number 14,997, constitute 2·5 per cent. of the total occupied women, and are 4,799, or 24·2 per cent., fewer than in 1901. Of the principal female occupations—those to which the largest numbers are returned—there is only one, laundry workers, in which a larger relative decrease is found, the decrease in that occupation amounting to 26·7 per cent. Of the female farm servants, 6,127 were described as in charge of cattle, 85 as in charge of horses, and 8,785 as agricultural labourers without being otherwise distinguished.

Female laundry workers number 12,928, constitute 2·2 per cent. of the total occupied women, and are 4,702, or 26·7 per cent., fewer than in 1901. Of these, 1,707 were enumerated in the City of Edinburgh, 1,680 in the City of Glasgow, 490 in the City of Aberdeen, and 369 in the City of Dundee.

Workers in cotton manufacture number 11,909, constitute 2·0 per cent. of the total occupied females, and are 453, or 3·7 per cent., fewer than in 1901. Of these, 177 were described as attached to card- and blowing-room processes; 2,372 to spinning processes; 1,661 to winding and warping processes; 6,269 to weaving processes; and 1,430 to other or undefined processes. The largest numbers were enumerated in Lanark, 7,960, or 66·8 per cent.; and in Renfrew, 1,948, or 16·4 per cent. In Perth 604 were enumerated; in Ayr, 577; in Dumbarton, 243; and 577 in the remaining 28 counties.

Daughters and other female relatives of farmers and crofters assisting on farms and crofts number 10,674, constitute 1·8 per cent. of the total occupied women, and are

1,728, or 13·9 per cent., fewer than in 1901. Of these, 5,557 were described as farmers' relatives, and 5,117 as crofters' relatives. The largest numbers were enumerated in Shetland, 1,613; Ross and Cromarty, 1,211; Orkney, 1,041; Inverness, 946; and Aberdeen, 914.

Sick nurses and midwives number 10,629, constitute 1·8 per cent. of the total occupied females, and are 2,432, or 29·7 per cent., more than in 1901. The number of females adopting nursing as an occupation has very greatly increased during recent years. In 1881, nurses and midwives jointly numbered 2,689; in 1891, 3,772; in 1901, 8,197; and now 10,629. They are now nearly four times as numerous as in 1881, and nearly three times as numerous as in 1891. Of these, 10,316 are returned as sick nurses, and 313 as midwives. It is in the number of the former that the great increase has occurred, for in 1881 sick nurses numbered 2,179 and midwives 510, and a comparison shows that while nurses are approximately five times as numerous now as then, midwives are little more than half as numerous now as then. This change in the relative numbers in the two occupations may, however, be partly accounted for by midwives describing themselves as nurses.

Charwomen number 10,472, constitute 1·8 per cent. of the total occupied women, and are 2,437, or 30·3 per cent., more than in 1901. Charwomen enumerated in the City of Glasgow number 3,542; in the City of Edinburgh, 1,814; in the City of Aberdeen, 587; and in the City of Dundee, 381. In Edinburgh they are in the ratio of 5·7 to each thousand of the population; in Glasgow, 4·5; in Aberdeen, 3·6; and in Dundee, 2·3.

Occupied females returned as drapers number 10,055, are 2,241, or 28·7 per cent., more than in 1901, and constitute 1·7 per cent. of the total occupied females.

Other occupations to which large numbers of females are returned include workers in hosiery manufacture, workers in thread and smallware manufacture, seamstresses and shirtmakers, bakers and confectioners, farmers and crofters, milliners, grocers, general shopkeepers, fishcurers, and messengers.

Workers in hosiery manufacture number 9,960, and are 966, or 8·8 per cent., fewer than in 1901. Workers in thread and smallware manufacture number 9,181, and are 100, or 1·1 per cent., more than in 1901. Seamstresses and shirtmakers number 8,806, and are 2,124, or 19·4 per cent., fewer than in 1901. Bakers and confectioners number 7,467, and are 485, or 6·9 per cent., more than in 1901. Female grocers and provision dealers number 7,141, and are 946, or 11·7 per cent., fewer than in 1901. Female farmers and crofters number 6,712, and are 1,110, or 14·2 per cent., fewer than in 1901; of this number, 2,666 were described as farmers or graziers, and 4,046 as crofters; 963 were enumerated in Inverness, 840 in Ross and Cromarty, 812 in Aberdeen, 501 in Shetland, and smaller numbers in other counties. Milliners number 6,680, and are 744, or 12·5 per cent., more than in 1901. Female general shopkeepers number 6,037, and are 194, or 3·3 per cent., more than in 1901. Fishcurers number 5,751, and are 2,409, or 72·1 per cent., more than in 1901; of these, 1,622 were enumerated in the County of Aberdeen, 1,850 in Ross and Cromarty, and 534 in Banff. Female messengers number 5,204, and are 459, or 9·7 per cent., more than in 1901; and the large majority of them, 4,943, are less than 18 years of age.

Females with occupations in the Civil Service number 4,192—3,941 being in the service of the Post Office as clerks, telegraphists, messengers, etc., and 251 being in the service of other departments. Owing to differences of classification, comparison between these figures and those of 1901 cannot fairly be made. In 1901, Post Office telegraphists were not tabulated as in the Civil Service.

Occupied females described as weavers and workers in sundry or undefined fabrics, or as factory hands, number 3,593, which is 6,151 fewer than in 1901; this difference, however, may be attributed to the fuller information obtained in the householder's schedule of this census, enabling the occupations to be more accurately classified, and cannot be taken as having much significance.

The number of female lodging- and boarding-house keepers shows a marked diminution; in 1901 it was 4,806, and is now 2,458, the decrease amounting to 2,348, or 48·9 per cent.

Women keeping, or working in, general or unclassified shops or stores number 6,037; in 1901 they numbered 5,843, and the increase in their number is small, amounting to only 194.

Occupations of Married Women and of Widows.

Of the 593,210 women and girls with remunerative occupations, 31,465, or 5·3 per cent., are married, and 44,063, or 7·4 per cent., widowed. Occupied married women constitute 4·12 per cent. of all married women, and occupied widows 24·28 per cent. of all widows. This is the first report on a Scottish census in which the numbers of married and widowed among the occupied women have been separately tabulated, and there are consequently no previous figures with which to compare these.

Of the married occupied females, 2 are 15 years of age, 1 is 16, 15 are 17, 227 are 18 or 19, 2,530 are over 20 but under 25, 17,773 are over 25 but under 45, 9,979 are over 45 but under 65, 620 are over 65 but under 70, and 315 are over 70, while the ages of 3 were unstated. Of married women over 18 but less than 20 years of age, 7·48 per cent. are returned as having remunerative occupations; those over 20 but less than 25 amount to 5·38 per cent. of the total married women of these ages; those over 25 but under 45 to 4·06 per cent.; those over 45 but under 65 to 4·25 per cent.; those over 65 but under 70 to 2·88 per cent.; and those over 70 to 1·71 per cent. (*Table XXIX.*)

Of the occupied married women 7,047, or 22·40 per cent., were enumerated in the City of Glasgow; 6,444, or 20·48 per cent., in the City of Dundee; 2,623, or 8·34 per cent., in the City of Edinburgh; and 815, or 2·59 per cent., in the City of Aberdeen. In all, 53·8 per cent. were enumerated in these four cities. In the counties exclusive of these cities, considerable numbers were enumerated in Renfrew, 1,857, or 5·9 per cent.; in Lanark, 1,764, or 5·6 per cent.; in Fife, 1,218, or 3·9 per cent.; in Forfar, 1,070, or 3·4 per cent.; and in Ayr, 1,015, or 3·2 per cent.

In the counties, the proportion of the total married women constituted by those occupied, varies from 16·18 per cent. in Forfar, 11·70 in Shetland, 7·33 in Inverness, 4·45 in Peebles, and 4·13 in Edinburgh, to 1·28 in Linlithgow, 1·55 in Banff, and 1·61 in Stirling. In the burghs of 20,000 population and over, this rate varies from 23·43 in Dundee, 9·02 in Arbroath, 5·50 in Glasgow, and 5·32 in Paisley, to 0·67 in Motherwell, 1·37 in Clydebank, 1·48 in Hamilton, 1·60 in Airdrie, and 1·65 in Wishaw.

The occupations to which the largest numbers of married women are returned include workers in hemp and jute manufacture, 5,938; domestic indoor servants, 2,609; charwomen, 2,133; workers in wool and worsted manufacture, 1,233; laundry workers, 1,138; hawkers, 1,058; workers in flax and linen manufacture, 983; dressmakers, 980; and farm servants, 930. Hemp and jute workers constitute 18·9 per cent. of the total married women with remunerative occupation; domestic indoor servants, 7·7 per cent.; charwomen, 6·8 per cent.; workers in wool and worsted manufacture, 3·9 per cent.; laundry workers, 3·6 per cent.; hawkers, 3·4 per cent.; workers in flax and linen manufacture, 3·1 per cent.; dressmakers, 3·1 per cent.; and farm servants, 3·0 per cent.

Of the 5,938 married women with occupations in the manufacture of hemp and jute, 5,532 were enumerated in Dundee, 224 elsewhere in the County of Forfar, and 182 elsewhere in Scotland. In Dundee, hemp and jute workers constitute 85·8 per cent. of the total occupied married women, and 20·1 per cent. of the total married women there enumerated. (*Tables XXX. and XXXI.*)

Widows returned as having some remunerative occupation number 44,063, and constitute 24·3 per cent. of all widows. This proportion is found to be much higher in the younger age groups than in the older. In age group over 20 but under 25 it is 58·0 per cent.; over 25 but under 45, 50·7 per cent.; over 45 but under 65, 29·9 per cent.; over 65 but under 70, 18·9 per cent.; and over 70, 8·7 per cent.

Of the occupied widows, 5,689, or 12·9 per cent., are charwomen; 5,416, or 12·3 per cent., indoor domestic servants; 2,391, or 5·4 per cent., crofters; 2,350, or 5·3 per cent., workers in hemp and jute manufacture; 1,807, or 4·1 per cent., laundry workers; 1,571, or 3·6 per cent., sick nurses or midwives; 1,166, or 2·6 per cent., grocers; and 1,097, or 2·5 per cent., lodging-house keepers. (*Table XXXII.*)

24. Decrease partly due to better classification in 1911, from additional information in Census Schedule regarding Industry with which persons were connected.

25. The Old Age Pensions Act was not in force in 1901.

E.—INDUSTRIES.

FOR the purposes of the census the industries of the population are fairly clearly, though incompletely, defined as being the occupations of the employers. The incompleteness of the definition is specially apparent in the case of three classes of the occupied, viz. : (1) those with professional occupations and many different employers ; (2) those in domestic employment, who have no connection with the occupations of their employers ; and (3) those engaged in the service of some public body, such as civil servants, and persons in the employment of local authorities. To overcome this difficulty, professions, and Civil and Local Government services, are treated as separate industries. Domestic service is also treated as a separate industry, those with occupations in it being allocated thereto, irrespective of the occupations of their employers.

A full tabulation of the industries of the population, giving the number of persons employed in the various occupations falling under each head, and the numbers enumerated in the respective counties and cities, may be seen in Tables XXXVI. and XXXVII. These two tables are summarised in Tables XXXIV., XXXV., and E1.

The total number of occupied persons enumerated in Scotland is 2,066,967, occupied males numbering 1,473,757, and occupied females, 593,210. The industries in which the largest numbers of these occupied are engaged, and the numbers in them, are agriculture, 199,888 ; domestic and institution service, 192,896 ; iron manufacture, 170,683 ; coal industry (mining included), 157,237 ; preparation and sale of food, 143,581 ; and house building and decorating, 89,543. The industries which contain the greatest numbers of occupied males are agriculture, 166,770 ; iron manufacture, 164,198 ; coal industry, 154,301 ; preparation and sale of food, 101,444 ; house building and decorating, 88,213 ; and shipbuilding, 62,471. The industries in which the greatest number of occupied females are engaged are domestic and institution service, 160,082 ; tailoring and dressmaking, 49,563 ; preparation and sale of food, 42,137 ; agriculture, 33,118 ; and hemp, jute, rope and mat industry, 32,878.

Those occupied in the industry of agriculture number 199,888, and constitute 9·67 of the total occupied persons enumerated. Males in this industry constitute 11·32 per cent. of the total occupied males, and females, 5·58 per cent. of the total occupied females. The counties in which the largest numbers of males in the industry of agriculture were enumerated are Aberdeen, 22,774 ; Perth, 10,692 ; Inverness, 9,465 ; Forfar, 9,064 ; Ayr, 8,478 ; and Ross and Cromarty, 8,437. The counties with the largest numbers of females in the industry of agriculture are Lanark, 2,396 ; Ayr, 2,364 ; Ross and Cromarty, 2,301 ; Inverness, 2,187 ; Shetland, 2,145 ; and Aberdeen, 2,006. Of the males in this industry, the largest numbers are labourers in charge of horses, 35,396 ; labourers in charge of cattle, 13,771 ; other, or unspecified, agricultural labourers, 22,213 ; farmers and graziers, 29,932 ; crofters, 14,019 ; and farmers' and crofters' sons or other relatives assisting on farms or crofts, 16,621. Of the females, the largest numbers are agricultural labourers, 14,954—6,101 being described as in charge of cattle, and 80 as in charge of horses ; daughters and other relatives assisting on farms and crofts, 10,520 ; crofters, 4,189 ; and farmers and graziers, 2,665.

Occupied persons in domestic and institution service number 192,896, and constitute 9·33 per cent. of the total occupied. Males in this service are comparatively few, numbering 32,814, and constituting 2·23 per cent. of all occupied males. Occupied females in this industry are numerous, amounting to 160,082, and constituting 26·99 per cent. of all occupied females. Of the males in this service, the largest numbers are gardeners, 10,433 ; gamekeepers, 5,810 ; coachmen and grooms, 4,811 ; motor car drivers and attendants, 2,525 ; and indoor domestic servants, 2,497. Of the females, by far the largest number are indoor domestic servants, the number being 131,036. Female laundry workers number 12,456, and charwomen, 9,082.

In the industry of iron manufacture, occupied males number 164,198, and occupied females, 6,485. The former amount to 11·14 per cent. of all occupied males. The numbers occupied in this industry constitute 8·26 per cent. of the total occupied of both sexes. Of the males in this industry, 92,744 were enumerated in the County of Lanark,

49,541 of them being enumerated within the City of Glasgow; 14,299 were enumerated in Renfrew, 11,200 in Stirling, 8,842 in Ayr, 8,135 in Dumbarton, 7,140 in Edinburgh, and 6,295 in Forfar. Of the males occupied in this industry, 19,061 were returned as erectors, fitters, or turners, 16,097 as blacksmiths or strikers, 15,821 as moulders or core makers, 14,819 as workers in puddling furnaces, rolling mills, or tube manufacture, 9,872 as workers in steel manufacture, 8,271 as foundry labourers, 7,086 as boiler makers, and 5,795 as commercial or business clerks. The occupations of 21,153 workers in this industry were not so clearly defined as to permit of their being included in any of the specified occupations used in the tabulation. Females in this industry are few compared with males, numbering only 6,485, of whom 1,605 are returned as clerks, 1,296 as ironmongers, and 1,582 as "other and undefined workers in engine and machine making."

The total number of persons occupied in the coal industry, which includes both the mining of coal and its distribution, is 157,237, and amounts to 7·61 per cent. of the total occupied. Males in this industry number 154,301, and constitute 10·47 per cent. of the total occupied males, while females number only 2,936. Of the males, the largest numbers are returned in the counties of Lanark, 64,961; Fife, 28,577; Ayr, 15,491; Edinburgh, 12,567; Stirling, 12,493; Linlithgow, 7,260; and Haddington, 3,218. The largest numbers of these are returned as hewers, 86,824; "other workers below ground," 37,637; and workers above ground, 10,798. Coal and coke merchants and dealers number 3,946; clerks, 1,825; carters, 2,450; and coal heavers, 2,616. Of the 2,936 occupied females in the industry, 2,368 are returned as workers above ground at coal mines, and 402 as clerks.

Occupied persons allocated to the industry of the preparation and sale of food number 143,581, and amount to 6·95 per cent. of the total. Males in this industry number 101,444, and amount to 6·88 per cent. of the total occupied males; and females number 42,137, and amount to 7·10 per cent. of the total occupied females. Of the males, large numbers are returned as grocers, 24,329; bread, biscuit, and cake makers, 16,359; butchers, 13,092; vanmen and carters, 7,771; messengers, 6,593; and millers, 2,924. Among those males with occupations connected with shopkeeping and pertaining to this industry, 3,104 are returned as fishmongers or poulterers; 2,970 as milksellers; 4,079 as bakers or confectioners; and 2,705 as greengrocers. Among the females in this industry, 7,444 are returned as bakers or confectioners (dealers); 6,436 as grocers; 4,276 as clerks; 3,900 as bread and biscuit makers; 3,952 as jam, preserve and sweet makers; and 3,366 as greengrocers.

The number of persons occupied in the industry of house building and decorating is 89,543, amounting to 4·33 per cent. of the total occupied. Of these, 88,213 are males, and 1,330 females. The males in this industry amount to 5·99 per cent. of the total occupied males. Of the 1,330 occupied females in this industry, 1,059 are returned as clerks. Of the occupied males large numbers are returned as joiners or carpenters, 24,339; masons, 12,292; painters or paperhangers, 14,760; plumbers or gasfitters, 9,450; slaters or tilers, 5,218; and masons' labourers, 5,139. The decreasing number of males in the various occupations connected with this industry has been commented on in Section D of this report, which deals with the occupations of the population.

Males in Naval and Military service number 16,149, of whom 8,498 are officers and men of the Navy and Marines, and 6,840 officers and men of the Army. Males in this service not directly serving in either of these forces number 811. Females returned as in this service number 12; their occupations are varied, six being returned as nurses, and one or more under each of the headings teacher, clerk, and chemist.

To the Civil Service 17,950 males and 4,288 females are allocated. Of the former, 3,825 are post office officers or clerks, or telegraphists, or telephone operators; 8,524 are postmen or post office messengers; 3,121 are other Civil Service officers or clerks; 771 are other Civil Service messengers; and 1,709 are in various other occupations. Of the females in this service, 3,915 are in various positions in the post office.

The total number of persons returned as in Local Government service is 71,421, and amounts to 3·46 per cent. of the total occupied. Males in this service number 50,756, and amount to 3·44 per cent. of the total occupied males, and females number 20,665, and amount to 3·48 per cent. of the total occupied females. Among the males in Local Government service there are 5,732 police, 6,091 schoolmasters, 6,182 road labourers, 5,471 workers in gas works, 4,983 workers in tramway service, and 1,846 scavengers and others connected with the disposal of refuse. Among the females in this service the large majority are schoolmistresses, who number 15,025, out of a total of 20,665. The only other group of female workers in Local Government service which numbers more than 1,000 is that of sick nurses, these numbering 1,606.

To the clerical profession with its subordinate services 7,853 persons are allocated—6,794 being males and 1,059 females. Of the males, 1,741 are ministers of the Established Church of Scotland, 1,828 are ministers of the United Free Church, 314 are clergymen of the Episcopalian Church, 473 are priests of the Roman Catholic Church, and 696 are ministers or clergymen of other religious denominations. The majority of females in this service are either missionaries, or scripture readers, or nuns, or sisters of charity, these collectively numbering 895.

The total number in the legal profession with its subordinate services is 12,011—males numbering 9,976, and females 2,035. Of the males, 4,099 are classed as advocates or solicitors, and 5,326 as law clerks. Of the females, the great majority, 1,973, are clerks.

The total number in the medical profession with its subordinate services is 14,239—males numbering 5,303, and females 8,936. Among the males there are 2,892 physicians and surgeons, 1,284 dentists, 257 veterinary surgeons, and 155 sick nurses. Among the females there are 120 physicians and surgeons, 65 dentists, 301 midwives, and 7,938 sick nurses. The last figure is far short of the total number of sick nurses enumerated, for many of them fall to be included in Local Government service, and in domestic and institution service.

To the teaching profession and service, other than the large section of it which falls to be classed under Local Government service, 6,421 persons are allocated, males numbering 2,321, and females 4,100. Of the males, 1,840 are professors, lecturers, or schoolmasters, and of the females, 3,597 are so described.

The total number of persons included in the textile industries is collectively 164,531; 17,480 being in cotton industry, 27,888 in wool industry, 1,275 in silk industry, 23,572 in linen industry, 51,483 in hemp, jute, rope, and mat industry, and 42,833 in thread, hosiery, and other textile industries. Of the workers in these industries, 55,384, or approximately one-third, are male, and 109,147, or approximately two-thirds, are female.

Of the occupied persons in the cotton industry, 4,890 are males, and 12,590 females. Of these, the largest numbers were enumerated in the Counties of Lanark, 11,011, and Renfrew, 3,569.

Of the persons in the wool industry, 12,278 are males, and 15,610 are females. They were enumerated in largest numbers in Selkirk, 5,736; Clackmannan, 3,930; Roxburgh, 2,642; and Peebles, 2,544.

Of those in the silk industry, 455 are males, and 820 females. Of these, 1,033 were enumerated in Lanark, and 394 in Renfrew.

Of those occupied in the linen industry, 7,029 are males, and 16,543 are females. Of these, 11,087 were enumerated in Fife, 7,348 in Forfar, 1,591 in Aberdeen, and 1,203 in Renfrew.

Of the persons occupied in the hemp, jute, rope, and mat industry, 18,605 are males, and 32,878 females. Of these, the great majority, 42,292, were enumerated in the County of Forfar, 37,937 of them being enumerated in the City of Dundee. Considerable numbers were also enumerated in Renfrew, 2,197; Fife, 1,449; Lanark, 1,393; and Edinburgh, 1,188.

Of those occupied in thread, hosiery, and other textile industries, 12,127 are males, and 30,706 are females. They were enumerated in largest numbers in Renfrew, 13,460; Lanark, 9,757; Ayr, 7,327; and Roxburgh, 2,608.

Occupied persons connected with the industry of shipbuilding number 63,089, 62,471 being males, and 618 females. Of the males in this industry, 24,286 were enumerated in Lanark, 18,206 in Renfrew, and 11,703 in Dumbarton; 16,843 are returned as platers and riveters, 11,057 as shipyard labourers, 8,163 as shipwrights, 2,489 as blacksmiths and strikers, 2,078 as boilermakers, and considerable numbers in many other classes of occupations.

In the industry of paper and stationery manufacture, 24,176 persons are included, 11,645 being males, and 12,531 females. The largest numbers were enumerated in the Counties of Lanark, 7,953; Edinburgh, 6,194; Aberdeen, 3,477; and Fife, 1,846.

Persons in printing, publishing, and allied industries number 31,791, of whom 19,508 are males, and 12,283 are females. Of these, 11,908 were enumerated in Lanark, 11,181 in Edinburgh, 1,876 in Aberdeen, and 1,646 in Forfar. Of the persons in these industries in the County of Edinburgh, 9,946 were enumerated in the City of Edinburgh, and of those in the County of Lanark, 10,274 were enumerated in the City of Glasgow.

Occupied persons in railway service number 60,100; in the fishing industry, 40,952, of whom 8,236 were enumerated in the County of Aberdeen; in the quarrying industry, 12,830; in the shale industry, 9,081, of whom 6,051 were enumerated in

Linlithgow, and 2,346 in Edinburgh; in the chemical and rubber industry, 26,501; in the bleaching and dyeing and allied industries, 20,865, of whom 4,673 were enumerated in Renfrew, 4,575 in Dumbarton, and 3,846 in Perth; and in the tailoring and dress-making industry, 70,604. Details of the distribution of these industries, and of the classes of occupied persons included in them, need not be elaborated here, but may be seen in the tables already quoted, those numbered XXXIV. to XXXVII.

TABLE E1.—SCOTLAND—SUMMARY OF INDUSTRIES.

INDUSTRIES.	MALES.	FEMALES.	BOTH SEXES.
1. Civil Service	17,950	4,288	22,238
2. Local Government Service	50,756	20,665	71,421
3. Naval and Military Services	16,149	12	16,161
4. Clerical Profession and Service	6,794	1,059	7,853
5. Legal Profession and Service	9,976	2,035	12,011
6. Medical Profession and Service	5,303	8,936	14,239
7. Teaching Profession and Service (not under Local Authority)	2,321	4,100	6,421
8. Other Professions and their Services	13,192	4,394	17,586
9. Domestic and Institution Service	32,814	160,082	192,896
10. Hotel, Eating-house Service	17,921	14,548	32,469
11. Commerce	18,589	8,801	27,390
12. Banking and Insurance	15,034	696	15,730
13. Railway Service	59,436	664	60,100
14. Road Transport Service	28,244	370	28,614
15. Railway, Road, Canal, Harbour Construction	4,343	15	4,358
16. Coach, Motor Cycle Building	11,360	430	11,790
17. Shipping and Docks	38,841	479	39,320
18. Shipbuilding	62,471	618	63,089
19. Agriculture	166,770	33,118	199,888
20. Fishing	34,390	6,562	40,952
21. Coal Industry	154,301	2,936	157,237
22. Shale Industry	9,071	10	9,081
23. Other Mining Industries	2,340	4	2,344
24. Quarrying	12,717	113	12,830
25. Iron Manufacture	164,198	6,485	170,683
26. Metal Manufacture other than Iron	16,927	1,302	18,229
27. Precious Metals, Jewels, Musical and Scientific Instruments —Manufacture and Sale	8,694	1,704	10,398
28. House, &c., Building and Decorating	88,213	1,330	89,543
29. Wood and Furniture Industries	31,520	5,074	36,594
30. Brick, Cement, Pottery, Glass—Industries	11,427	3,440	14,867
31. Chemical and Rubber Industries	20,052	6,449	26,501
32. Leather and Leather Goods Manufacture	6,081	943	7,024
33. Paper and Stationery Manufacture	11,645	12,531	24,176
34. Printing, Publishing, and Allied Industries	19,508	12,283	31,791
35. Cotton Industry	4,890	12,590	17,480
36. Wool Industry	12,278	15,610	27,888
37. Silk Industry	455	820	1,275
38. Linen Industry	7,029	16,543	23,572
39. Hemp, Jute, Rope, Mat Industries	18,605	32,878	51,483
40. Thread, Hosiery, and other Textile Industries	12,127	30,706	42,833
41. Bleaching, Dyeing, and Allied Industries	12,145	8,720	20,865
42. Dealing in Drapery and Textiles	16,725	13,230	29,955
43. Hat Making and Selling	934	7,836	8,770
44. Tailoring; Dressmaking	21,041	49,563	70,604
45. Bootmaking	15,679	5,103	20,782
46. Other Dress Industries	6,387	11,016	17,403
47. Preparation and Sale of Provisions	101,444	42,137	143,581
48. Tobacco Manufacture and Sale	1,547	2,811	4,358
49. Brewing; Distilling	11,739	1,280	13,019
50. Gas, Water, Electricity Supply (not under Local Authority)	1,597	24	1,621
51. Drainage and Sanitary Service (not under Local Authority)	1,480	69	1,549
52. General Shopkeeping and Dealing	7,092	6,274	13,366
53. Other and Undefined Industries	51,215	9,524	60,739
TOTAL	1,473,757	593,210	2,066,967

F.—BIRTHPLACES.

THE birthplaces of the populations of the counties and cities, and of those burghs in which the population numbers more than 20,000, are tabulated in Tables XXV. (a) and XXV. (b) of Volume I., and the collected figures relating to the whole of Scotland are tabulated in this volume, and may be seen in Table XXXVIII. The arrangement of Tables XXV. (a and b) in Volume I. differs from that of Table XXXVIII. in this volume, in that in the former the population is distributed according to place of birth, while in the latter those of one birthplace are distributed according to place of enumeration. In both tables the populations are further distributed into sexes, and into over and under twenty years of age.

Of the total population of Scotland, 4,365,855, or 91·70 per cent., are returned as having been born in Scotland; 161,650, or 3·40 per cent., in England; 3,452, or 0·07 per cent., in Wales; 174,715, or 3·67 per cent., in Ireland; and 55,232, or 1·16 per cent., in countries other than Scotland, England, Wales, and Ireland. In 3,382 cases, or 0·07 per cent. of the total, the birthplace was not stated, but it was assumed that the persons were born in Scotland, and the above figure, 4,365,855, is inclusive of this 3,382. Those having birthplaces outwith Scotland, England, Wales, and Ireland, include 1,105, or 0·02 per cent., born in the Isle of Man or in the Channel Islands; 17,890, or 0·38 per cent., born in British Colonies or Dependencies; 9,072, or 0·19 per cent., British subjects born in foreign countries; 1,798, or 0·04 per cent., foreigners subsequently naturalised; 24,739, or 0·52 per cent., foreigners not naturalised; and 628, or 0·01 per cent., born at sea. (*Table XXXVIII.*)

If these figures be compared with those of the Census of 1901, the most striking facts are marked increases in the numbers of English-born* persons and of foreigners, and marked decreases in the numbers of Irish-born persons and of British subjects born abroad. Those of English* birth number 31,079, or 23·2 per cent., more than in 1901, and those of foreign birth, other than British subjects born abroad, 7,596, or 40·1 per cent., more; while those of Irish birth number 30,349, or 14·8 per cent., less, and British subjects born abroad, 1,845, or 16·9 per cent., less. Of the persons of foreign birth, the increase in the number of those subsequently naturalised amounts to 511, or 39·7 per cent., and of those not naturalised to 7,085, or 40·1 per cent. The increase among those of English* birth is partly accounted for by the fact that certain ships of His Majesty's Navy were in Scottish waters on Census day, their crews being largely composed of Englishmen.* But this does not wholly explain the increase, or even the greater part of it, for the crews amounted to 7,828, and deducting that number from the total increase of English-born* there is still a remainder amounting to 23,251, and this number is equivalent to an increase of 17·3 per cent. on the number of English* enumerated in 1901. (*Table F2.*)

English.—Of the persons of English* birth enumerated in Scotland, the largest numbers are found in the following counties:—Lanark, 51,148, or 31·0 per cent.; Edinburgh, 26,493, or 16·0 per cent.; Renfrew, 12,621, or 7·6 per cent.; Fife, 8,598, or 5·2 per cent.; and Aberdeen, 7,171, or 4·3 per cent. In Glasgow those of English* birth number 29,724, and constitute 3·79 per cent. of the population; in Edinburgh they number 19,333, and constitute 6·04 per cent. of the population; in Dundee they number 4,693, and constitute 2·84 per cent. of the population; and in Aberdeen they number 6,303, and constitute 3·85 per cent. of the population. In the counties, the largest intercensal increases in those of English* birth are found in Renfrew, 5,722; in Lanark, 4,398; in Ross and Cromarty, 3,555; in Fife, 3,598; in Edinburgh, 2,495; in Argyll, 1,914; and in Dumbarton, 1,776. The increases in Ross and Cromarty and in Argyll are attributable to the enumeration of Naval shipping in these counties.

Irish.—Of the persons of Irish birth enumerated in Scotland, the largest numbers are found in Lanark, 100,294; Renfrew, 21,571; Dumbarton, 10,115; Edinburgh, 9,235;

* These references to persons of English birth are to be understood as comprising persons born in Wales as well as those born in England.

and Ayr, 8,390. The percentage which those of Irish birth form of the total is highest in Dumbarton, 7·23; Lanark, 6·93; Renfrew, 6·86; Linlithgow, 4·89; and Ayr, 3·13; and is lowest in Sutherland, 0·13; Orkney, 0·15; and Banff, 0·19. The only county in which there has been a marked increase among those of Irish birth is Fife, where in 1901 they numbered 2,062, and now number 4,264. The largest decreases are found in the Counties of Lanark, 20,891, or 17·2 per cent.; Renfrew, 3,778, or 14·9 per cent.; Edinburgh, 2,750, or 22·9 per cent.; and Ayr, 2,242, or 21·1 per cent. In the City of Glasgow persons of Irish birth number 52,828, constitute 6·7 per cent. of the population, and are 14,784, or 21·9 per cent., fewer than in 1901. In the City of Edinburgh they number 5,360, constitute 1·7 per cent. of the population, and are 1,663, or 23·7 per cent., less than in 1901. In the City of Aberdeen they number 527, constitute 0·3 per cent. of the population, and are 61, or 10·4 per cent., less than in 1901. In the City of Dundee they number 3,398, constitute 2·1 per cent. of the population, and are 1,935, or 36·3 per cent., less than in 1901.

Foreigners.—Of persons of foreign birth, including those who are naturalised British subjects, the largest numbers are found in the Counties of Lanark, 14,258; Edinburgh, 4,030; Ayr, 1,368; and Fife, 1,184; and the largest percentages which those of foreign birth constitute of the total populations are, in Shetland, 1·03; Lanark, 0·99; Edinburgh, 0·79; Linlithgow, 0·55; and Ayr, 0·51. Of the foreigners enumerated in the County of Edinburgh, 2,720, or 67·5 per cent., were in the City of Edinburgh, and of those enumerated in the County of Lanark, 8,888, or 62·3 per cent., were in the City of Glasgow. The only counties in which there are intercensal decreases in the numbers of foreigners, are Berwick, Dumbarton, and Peebles, increases being found in all others. The largest increases are found in Lanark, 3,563; Edinburgh, 744; Fife, 521; and Ayr, 459. In Glasgow the increase amounts to 1,546, and in Edinburgh to 422.

A further tabulation of censal facts concerning those of foreign birth will be given in the third volume of this report, where their nationalities, ages, and occupations will be considered.

Internal Migration.—The tabulation of the birthplaces of the population gives an indication of the nature and amount of internal migration in Scotland—*i.e.*, movement of population from one county to another. For this branch of the subject Tables F3 and F4 have been constructed. These tables deal exclusively with persons of twenty years of age and over, as those of a younger age are affected only in a minor degree by these migrations.

In Scotland, the total number of males of twenty years of age and upwards, and of Scottish birth, is 1,125,239, and the corresponding number of females is 1,313,421. Of the males, 730,219 were enumerated within the counties of their births, and were presumably residing there, and of the females, the corresponding number is 852,449. Accordingly, 64·89 per cent. of this male population, and 64·90 per cent. of this female population, are residing in the counties of their births, while 35·11 per cent. of this male population, and 35·10 per cent. of this female population, have migrated into other counties. The almost absolute equality of the male and the female rates is a striking feature.

The amount of migration, as thus tested, varies widely in the counties. Taking the figures relating to males, it is found that the percentage remaining in their own counties ranges from 79·4 in Lanark, 79·1 in Shetland, 73·0 in Orkney, 71·9 in Aberdeen, 70·7 in Edinburgh, and 68·7 in Forfar, to 25·3 in Kinross, 33·8 in Peebles, 37·3 in Kincardine, 40·7 in Nairn, 42·8 in Haddington, and 44·9 in Clackmannan. Taking the figures relating to females, it is found that this percentage ranges from 80·9 in Shetland, 77·2 in Lanark, 75·8 in Forfar, 74·1 in Aberdeen, 71·9 in Edinburgh, and 70·1 in Orkney, to 27·1 in Kinross, 36·3 in Peebles, 36·8 in Kincardine, 40·2 in Linlithgow, 40·7 in Haddington, and 41·2 in Nairn.

The six counties in which the rates of migration are lowest, or, conversely, those in which the proportion remaining in the home county is highest, include the four counties containing the four large cities, Glasgow, Edinburgh, Dundee, and Aberdeen, and the two northern insular counties, Orkney and Shetland. The counties of Kinross, Peebles, Kincardine, Nairn, and Haddington are among the six from which the largest proportion of both sexes migrate, and in which the smallest number remain, the sixth in which these conditions occur among males being Clackmannan, and among females, Linlithgow. These seven counties include the four counties of least size, Clackmannan, Kinross, Linlithgow, and Nairn; the three counties of least population, Kinross, Nairn, and

Peebles; and the counties of Kincardine and Haddington, both of which are in the proximity of a large city.

These Tables—F3 and F4—not only show the amount of migration which has taken place from the counties, but also indicate the localities within Scotland to which the largest numbers move. For instance, they show that of the males born in Ayrshire and continuing in Scotland, 59·9 per cent. remain in the county of their birth, while 40·1 per cent. migrate to other counties, and that of those who thus migrate the largest numbers (17,211 or 22·3 per cent. of the total) are found in Lanarkshire, while considerable numbers are found in Dumbarton (1·7 per cent.), Edinburgh (1·7 per cent.), Fife (1·4 per cent.), Renfrew (6·1 per cent.), and Stirling (1·5 per cent.), but only very small numbers, less than 0·1 per cent., in such counties as Banff, Caithness, Elgin, and Kincardine. Taking, as another instance, the females of the County of Orkney, the tables show that of those born there, 70·1 per cent. remain in their own county, while 29·9 per cent. migrate to other counties, and that of those migrating the largest numbers are found in Edinburgh (14·8 per cent.), while Lanark and Aberdeen are the only other counties in which more than 1·0 per cent. are found.

Lanarkshire, including Glasgow, is the county to which the largest numbers of both sexes migrate from the following fifteen counties:—Aberdeen, Argyll, Ayr, Bute, Clackmannan, Dumbarton, Dumfries, Edinburgh, Elgin, Forfar, Inverness, Renfrew, Ross and Cromarty, Stirling, and Wigtown. In the case of three counties, Linlithgow, Perth, and Sutherland, the largest numbers of the migrated males are found in Lanark, but the largest numbers of the females in other counties, those of Linlithgow and Sutherland in Edinburgh, and those of Perth in Forfar. In the case of nine counties the migrated of both sexes are found in largest numbers in Edinburgh, the counties in question being Berwick, Caithness, Fife, Haddington, Orkney, Peebles, Roxburgh, Selkirk, and Shetland. The largest numbers of the migrated of both sexes of Kincardine are found in Forfar, of Kinross in Fife, of Lanark in Renfrew, of Kirkcudbright in Dumfries, and of Nairn in Inverness. The largest number of the migrated males of Banff is found in Aberdeen, and of the females in Lanark.

From the Highland counties, with large insular populations, the migration is found to be principally to the County of Lanark. Of the males born in Argyll, 53·3 per cent. remain in the county of their birth, while 46·7 per cent. migrate to other counties, the largest proportion of the latter, 22·4 per cent., being found in Lanark. Of the males born in Inverness, 58·3 per cent. are found in the county of their birth, and 41·7 per cent. in other counties, 14·5 per cent. being found in Lanark. Of the males born in Ross and Cromarty, 64·9 per cent. are found in the county of their birth, 35·1 per cent. in other Scottish counties, including 9·4 per cent. in Lanark. Of the females born in Argyll, 47·6 per cent. are found in the county of their birth, 25·2 per cent. in Lanark, and 27·2 per cent. in other Scottish counties. Of those born in Inverness, 57·1 per cent. are found in their own county, 13·3 per cent. in Lanark, and 29·6 per cent. in other Scottish counties. Of those born in Ross and Cromarty, 65·2 per cent. are found in their own county, 9·3 per cent. in Lanark, and 25·5 per cent. in other Scottish counties.

The counties which send the largest proportions of their male populations to the City of Glasgow are Argyll, Bute, and Dumbarton, over 14·0 per cent. of each being found there, and those sending the largest proportion to the City of Edinburgh are Haddington, Peebles, and Selkirk, more than 11·0 per cent. of each being found there. Of females born in Argyll, 17·0 per cent. are found in Glasgow, and of those born in Bute and Dumbarton, 16·5 per cent. and 15·9 per cent., respectively, are found there. Of females born in Haddington, 20·4 per cent. are found in the City of Edinburgh, as are 16·4 per cent. of those born in Peebles, and 13·1 per cent. of those born in Berwick.

The censal figures give no indication of the amount of emigration from the counties to places outwith Scotland, and the above deductions and conclusions apply exclusively to the portion of the population born in Scotland that remains in the country. In reading the foregoing paragraphs, and in scrutinising the figures in Tables F3 and F4, it is essential to bear in mind that they refer exclusively to persons who, on Census day, were twenty years of age or more, and attention is again directed to this limitation.

inclusive of those for the Cities.

G.—HOUSING CONDITIONS.

FOR the purposes of the Scottish census a house is defined as a "dwelling (1) with a distinct outside entrance from a street, court, lane, road, etc.; or (2) with a door opening directly into a common stair or passage; but if any such dwelling is subdivided and occupied by different families, it must be reckoned as only one house." Thus defined, the total number of houses enumerated in Scotland is 1,107,147, of which 1,013,369, or 91·5 per cent., are inhabited; 89,060, or 8·1 per cent., uninhabited; and 4,718, or 0·4 per cent., in course of erection. Compared with the corresponding figures of 1901, inhabited houses are 86,455, or 9·3 per cent., more; and uninhabited houses are 29,640, or 49·9 per cent., more; but houses in course of erection are 4,344, or 47·9 per cent., fewer. (*Table VI.*)

Comparison can also be made between these figures and those of the censuses of 1881 and 1891, but not with those of earlier censuses, because in the censuses prior to that of 1881 houses were counted on a different basis and not according to the definition of a house now in use. Inhabited houses are 195,801, or 23·9 per cent., more than in 1891, and 274,364, or 37·1 per cent., more than in 1881. Uninhabited houses are now 37,346, or 72·2 per cent., more than in 1891, and 29,363, or 49·2 per cent., more than in 1881. Houses in course of erection are now 660, or 12·3 per cent., fewer than in 1891, and 272, or 5·5 per cent., fewer than in 1881.

Inhabited Houses.—The 1,013,369 inhabited houses are found to have 3,306,625 windowed rooms, exclusive of rooms used solely as sculleries or pantries or bathrooms or the like, a number which is 284,027, or 9·4 per cent., more than in 1901; 657,439, or 24·8 per cent., more than in 1891; 963,476, or 41·1 per cent., more than in 1881; 1,314,426, or 66·0 per cent., more than in 1871; and 1,598,220, or 93·6 per cent., more than in 1861. In 1881 the average number of rooms per inhabited house was 3·17; in 1891 it was found to have risen to 3·24, and in 1901 to 3·26; but by this census no further rise has been found, the figure remaining at 3·26.

The average number of persons to each inhabited house in 1881, the earliest census at which a comparable figure is available, was 5·05, and since then the figure has been found to be steadily decreasing; in 1891 it was 4·92; in 1901, 4·82; and is now 4·70.

The average number of persons per windowed room in Scotland in 1861 was 1·79, and since then has steadily decreased; in 1871 it was 1·69; in 1881, 1·59; in 1891, 1·52; in 1901, 1·48; and is now found to be 1·44.

Of the inhabited houses in Scotland, 6 are windowless; 129,731, or 12·8 per cent., are one-roomed; 409,355, or 40·4 per cent., two-roomed; 205,319, or 20·3 per cent., three-roomed; 94,862, or 9·3 per cent., four-roomed; 54,626, or 5·4 per cent., five-roomed; 36,406, or 3·6 per cent., six-roomed; and 83,064, or 8·2 per cent., of more than six rooms. Compared with the figures of 1901, houses without windowed rooms are 35 fewer; and one-roomed houses are 40,067, or 23·6 per cent., fewer; but houses of two rooms are 24,409, or 6·3 per cent., more; of three rooms, 37,190, or 15·3 per cent., more; of four rooms, 13,288, or 16·3 per cent., more; of five rooms, 10,966, or 25·1 per cent., more; of six rooms, 6,263, or 20·8 per cent., more; and of more than six rooms, 6,415, or 8·4 per cent., more. These comparisons are not, however, strictly accurate, for in the tabulation of the results of the census of 1901, as also of earlier censuses, the figures used were not the numbers of rooms in the houses themselves, but the numbers of rooms occupied by separate families, while at this census the number of rooms in the house as defined above was the basis of tabulation. The change of procedure, though no doubt inconvenient in respect that it prevents accurate comparison, has been considered necessary to obviate the anomalous treatment of lodgers and boarders by the older method, whereby a lodger was dealt with as a separate "family," while a boarder was not, and lodgers' holdings were counted as separate houses, while those of boarders were not, a difference of treatment between the two classes which was maintained on the slender distinction that one, the lodger, takes his meals in his own room, while the other, the boarder, takes his along with the rest of the household. This change no doubt largely accounts for the observed differences—many rooms which by

the older procedure would have been reckoned as separate houses, or, rather, separate family holdings, being now included with those of entire houses; and one undoubted result is a return of fewer one-roomed houses, and of an increased number of houses of more than one room. (*Tables XXXIX. and XLVI.*)

Distribution of Population according to Size of House.—Of the population of Scotland, 12 persons live in houses without windowed rooms; 399,876, or 8·4 per cent., in one-roomed houses; 1,881,529, or 39·5 per cent., in two-roomed houses; 1,006,135, or 21·1 per cent., in three-roomed houses; 456,207, or 9·6 per cent., in four-roomed houses; 257,650, or 5·4 per cent., in five-roomed houses; and 175,343, or 3·7 per cent., in six-roomed houses; while the remaining 584,152, or 12·3 per cent., live in houses of more than six rooms, in institutions, on board ship, or are houseless. Accurate comparison between these figures and those of the earlier censuses is not possible owing to the change, already referred to, in the definition of a “house”; but, even allowing for this source of error, observed changes are so great as to be indicative of a genuine improvement in the housing conditions of the people. The figures of the censuses of 1861 onwards are collected in Table XLVII., and it may there be seen that the numbers of persons living in houses without windowed rooms and in houses of one room have markedly and steadily decreased, while those living in houses of two rooms and more have markedly and steadily increased. In the report on the census of 1861, persons enumerated in houses without windowed rooms numbered 25,959, and they now number only 12. In that report, 802,968 persons were stated to be living in one-roomed houses, and these now number 403,092, or 50·2 per cent., less. Persons enumerated in two- and three-roomed houses now outnumber those enumerated in 1861 by 726,974, or 63·0 per cent., and 617,945, or 159·2 per cent., respectively; and those living in four- and five-roomed houses now outnumber those enumerated in 1861 by 258,955, or 131·3 per cent., and 145,451, or 129·6 per cent., respectively. In 1861, the percentage of the total population enumerated in one-roomed houses was 26·2, a rate that each succeeding census has shown to be diminishing; in 1871, it fell to 23·7; in 1881, to 18·0; in 1891, to 14·3; in 1901, to 11·0; and by this census to 8·7. In 1861, the percentage of the population living in houses of two rooms or less was 64·8; in 1871, it was 62·2; in 1881, 57·5; in 1891, 53·7; in 1901, 50·5; and it is now found to be 47·9. The percentage enumerated in houses of three rooms or more has risen from 35·2 in 1861, to 52·1 at the present time; in 1871 the percentage was 37·8; in 1881, 42·5; in 1891, 46·3; and in 1901, 49·5. It is impossible to estimate how far these changes are attributable to the alterations in the methods of counting houses, but it is probably safe to assume that the differences are so marked as to be indicative of a real change in the housing conditions, and not to be entirely due to altered methods of enumeration. (*Tables XL. and XLVII.*)

Distribution of Population according to Number of Persons per Room.—Of the population of Scotland, 2,683,627, or 56·4 per cent., are found to be living not more than two in a room; 3,754,913, or 78·8 per cent., not more than three in a room; and 4,363,642, or 91·7 per cent., not more than four in a room; but 2,077,277, or 43·6 per cent., are living more than two in a room; 1,005,991, or 21·2 per cent., more than three in a room; and 397,262, or 8·3 per cent., more than four in a room. Comparison with the figures of the earlier censuses shows that the proportion of the population living in the less crowded conditions has increased, and the proportion of those living in the more crowded conditions has decreased. Thus the percentage living not more than two in a room has increased from 43·4 in 1861 to 49·2 in 1881, to 54·3 in 1901, and now to 56·4; the percentage living not more than three in a room has increased from 66·2 in 1861 to 72·3 in 1881, to 77·1 in 1901, and now to 78·8; and the percentage living not more than four in a room has increased from 81·3 in 1861 to 86·8 in 1881, to 90·4 in 1901, and now to 91·7. The percentage of the population of Scotland living more than two in a room in 1861 was 56·6; in 1881 the rate fell to 50·8, in 1901 to 45·7, and is now 43·6. In 1861, the percentage living more than three in a room was 33·8, in 1881 it was 27·7, in 1901 it was 22·9, and is now 21·2. In 1861, the percentage living more than four in a room was 18·7; in 1881, 13·2; in 1901, 9·6; and is now 8·3. (*Table XLVIII.*)

Housing Conditions in the Counties and in Burghs with over 2,000 Population.—In Tables XLIII., XLIV., and XLV. there are given analyses of the principal facts regarding the housing of the population of Scotland in the counties, and in burghs with populations of 2,000 and over. These tables are drawn up on the same lines as those included in a Parliamentary Return (Cd 4,016) on the Housing Conditions

of the Population of Scotland, which was published in 1908, and which dealt with the principal housing facts ascertained by the census of 1901. The present tables differ, however, from those in that Return, in that they are based on the number of rooms and persons enumerated in each "house" as defined for census purposes, while the tables dealing with the 1901 figures were based on the number of rooms occupied by separate "families," and on the number of persons in these "families." The tables of 1911 differ further from those in the 1908 Return in that, for present purposes, houseless persons, shipping population, and persons living in institutions, in houses of more than 24 rooms, or in households of more than 19 persons, are excluded, the object being to confine the study to the section of the population living under the more ordinary housing conditions. These changes no doubt detract from the value of the comparison between the tables, but to what extent it is difficult to estimate.

Table XLIII. deals with the distribution of the houses by size, Table XLIV. with the distribution of the population by the size of house occupied, and Table XLV. with the distribution of the population according as they are found to be living in more or less crowded conditions. Each of these tables gives figures relative to Scotland as a whole, to the counties, to the burghs that have populations of 2,000 or more, and to the remaining portions of the counties—*i.e.*, to counties less any burghs within them of the population mentioned.

Of the houses of Scotland, 53·2 per cent. contain two rooms or less, and 46·8 per cent., more than two rooms. In the burghs with populations exceeding 2,000, houses of two rooms or less constitute 56·8 per cent. of the total, and those with more than two rooms, 43·2 per cent. In the remainder of Scotland, houses of two rooms or less constitute 46·7 per cent., and those of more than two rooms, 53·3 per cent. Thus smaller houses are relatively more numerous, and larger houses relatively less numerous, in burghs with populations of over 2,000, than in the remainder of the country.

In the burghs of more than 2,000 population, one-roomed houses vary in number from 33·2 per cent. in Kilsyth, 31·7 per cent. in Armadale, 28·5 per cent. in Wishaw, 28·2 per cent. in Lerwick, 28·2 per cent. in Galston, 27·3 per cent. in Coatbridge, 24·9 per cent. in Airdrie, 24·6 per cent. in Hamilton, and 24·1 per cent. in Johnstone, to 0·9 per cent. in Duns, 1·2 per cent. in Newport, 2·3 per cent. in Largs, 2·3 per cent. in Kirkwall, 2·4 per cent. in Carnoustie, 2·6 per cent. in Bridge of Allan, 2·6 per cent. in Turriff, and 2·8 per cent. in Lossiemouth. In these burghs, two-roomed houses vary in number from 65·2 per cent. in Lochgelly, 60·2 per cent. in Clydebank, 59·4 per cent. in Govan, 58·3 per cent. in Renfrew, 58·0 per cent. in Cowdenbeath, 56·1 per cent. in Kilrenny, and 55·3 per cent. in Port-Glasgow, to 10·2 per cent. in Newport, 10·6 per cent. in Castle-Douglas, 15·1 per cent. in Carnoustie, 15·6 per cent. in Dingwall, and 15·7 per cent. in Turriff. Houses of more than two rooms vary in number from 88·6 per cent. in Newport, 86·3 per cent. in Castle-Douglas, 82·7 per cent. in Duns, 82·5 per cent. in Carnoustie, and 81·7 per cent. in Turriff and Kirkwall, to 16·7 per cent. in Armadale, 20·9 per cent. in Clydebank, 21·3 per cent. in Coatbridge, 22·1 per cent. in Wishaw, 22·8 per cent. in Kilsyth, 23·3 per cent. in Lochgelly, and 24·3 per cent. in Govan. (*Table XLIII.*)

Of the population of Scotland, 49·6 per cent. were enumerated in houses of two rooms or less, while 50·4 per cent. were enumerated in houses of more than two rooms. In the burghs with populations of 2,000 and over, the proportion enumerated in houses of not more than two rooms was 52·9 per cent., and in houses of more than two rooms, 47·1 per cent. In the remainder of Scotland these percentages are found to be 43·6 and 56·4 respectively. Thus the proportion of the population in these burghs living in the smaller houses is higher, and that living in the larger houses, lower, than in the remainder of the country.

In these burghs, the percentage of persons living in one-roomed houses varies from 27·1 in Armadale, 26·5 in Kilsyth, 23·0 in Wishaw, 22·4 in Coatbridge, 19·6 in Galston, 19·3 in Airdrie, and 18·7 in Hamilton, to 0·3 in Duns, 0·7 in Newport, 1·0 in Bridge of Allan, 1·1 in Kirkwall, and 1·3 in Turriff and in Carnoustie. The percentage living in two-roomed houses varies from 67·2 in Lochgelly, 62·3 in Clydebank, 61·7 in Govan, 60·0 in Renfrew, 59·1 in Cowdenbeath, 56·9 in Port-Glasgow, 55·7 in Armadale, and 55·5 in Barrhead, to 8·1 in Newport, 8·2 in Castle-Douglas, 11·6 in Kirkwall and Carnoustie, 11·7 in Turriff, and 12·5 in Duns. The percentage of the population of these burghs living in houses of more than two rooms varies from 91·2 in Newport, 90·1 in Castle-

Douglas, 87·3 in Kirkwall, 87·2 in Duns, 87·1 in Carnoustie, and 87·0 in Turriff, to 17·2 in Armadale, 23·5 in Coatbridge, 23·9 in Wishaw, 24·9 in Clydebank, 25·5 in Kilsyth and in Lochgelly, 27·3 in Govan, and 29·0 in Galston and in Barrhead. (*Table XLIV.*)

Of the population of Scotland, 54·9 per cent. are found to be living not more than two in a room; 78·1 per cent., not more than three in a room; and 91·4 per cent., not more than four in a room. In the burghs of 2,000 population and over, taken collectively, these percentages are found to be 52·4, 77·3, and 91·4, while in the remainder of Scotland they are 59·3, 79·7, and 91·3. On the other hand, 45·1 per cent. of the population of Scotland are found to be living more than two in a room, 21·9 per cent. more than three in a room, and 8·6 per cent. more than four in a room. In these burghs, the percentages are found to be 47·6, 22·7, and 8·6, while in the remainder of Scotland they are 40·7, 20·3, and 8·7 respectively. Thus, should living more than two per room be taken as a standard of crowding, a larger proportion of the burghal population is found to be living in crowded conditions than of the population of the remainder of Scotland, and the same result is found if living more than three in a room be taken as a standard; but if the standard be taken at living more than four per room, no significant difference is found between the proportion within and without these burghs, the one percentage being 8·6 and the other 8·7.

In these burghs, the highest percentages living more than two per room are found in Armadale, 77·5; Kilsyth, 71·6; Coatbridge, 71·2; Wishaw, 70·1; Clydebank, 69·0; Motherwell, 68·1; Lochgelly, 67·9; Cowdenbeath, 67·6; and Port-Glasgow, 66·7; and the lowest percentages in Newport, 6·7; Moffat, 11·5; Castle-Douglas, 12·5; North Berwick, 14·0; Cupar, 14·0; and Turriff, 14·4. The highest percentages living more than three per room are found in Armadale, 52·7; Kilsyth, 47·8; Wishaw, 45·1; Coatbridge, 45·0; Hamilton, 40·3; Motherwell, 40·3; Airdrie, 40·1; and Barrhead, 39·9; and the lowest in Castle-Douglas, 1·8; Newport, 1·9; Carnoustie, 2·9; Moffat, 3·1; Turriff, 3·3; and Cupar, 3·9. The highest percentages found to be living more than four per room are in Armadale, 34·8; Kilsyth, 28·2; Wishaw, 24·2; Coatbridge, 23·7; Airdrie, 20·2; Hamilton, 19·7; Motherwell, 19·2; Barrhead, 17·8; and Galston, 16·9; and the lowest in Huntly, 0·1; Newport, 0·3; Keith, 0·3; Cupar, 0·3; Castle-Douglas, 0·3; Carnoustie, 0·4; and North Berwick, 0·5.

Burghs with populations of 2,000 and over number 144, and in 107 of them fully 25 per cent. of the population live more than two in a room, and in 36 of them fully 25 per cent. live more than three in a room; but in two only, Armadale and Kilsyth, do more than 25 per cent. live more than four in a room. (*Table XLV.*)

H.—GAELIC SPEAKERS.

THE enumeration of Gaelic-speaking persons in Scotland was first instituted in the census of 1881. They were then found to number 231,594, and to amount to 6·2 per cent. of the total population of the country. In 1891 an apparent increase in this number was found, amounting to 22,821, the number in that year being 254,415; but whether this increase was genuine and founded on fact, or was due merely to a better understanding of the question as put on the householder's schedule, must remain a matter of speculation. In 1901 the number was found to have fallen to 230,806, and at the present census to 202,398. In 1891 Gaelic speakers amounted to 6·3 per cent. of the population, in 1901 to 5·2 per cent., and now amount to 4·3 per cent.; but these rates give an exaggerated impression of the decline in the number of Gaelic speakers, for the proportions are, of course, calculated on an increased population at each decennium. These rates show a drop of approximately one-sixth between 1891 and 1901, and a similar drop between 1901 and 1911, but the actual number of Gaelic speakers at the close of each decennium shows the decline to be 9·3 and 12·3 per cent., or one-eleventh and one-eighth, respectively.

In the tabulation of the censuses of 1891 and 1901, and of the present census, Gaelic speakers have been separated into those able to speak Gaelic in addition to English, and those able to speak Gaelic only. In 1891, speakers of both Gaelic and English numbered 210,677, and constituted 82·8 per cent. of all the Gaelic speakers; and those unable to speak English numbered 43,738, and constituted 17·2 per cent. of the total. In 1901, speakers of Gaelic and English numbered 202,700, and of Gaelic only, 28,106, the former being 7,977, or 3·8 per cent., fewer, and the latter 15,632, or 35·7 per cent., fewer than in 1891. By this census speakers of Gaelic and English are found to number 183,998, and to be 18,702, or 9·2 per cent., fewer than in 1901, and 26,679, or 12·7 per cent., fewer than in 1891; and speakers of Gaelic only are found to number 18,400, and to be 9,706, or 34·5 per cent., fewer than in 1901, and 25,338, or 57·9 per cent., fewer than in 1891. Thus, though the decreases in the number of those speaking Gaelic and English and of those speaking Gaelic only, have been approximately of the same amount, the rate of decrease in the former is little more than one-fifth of the rate of decrease in the latter. Speakers of Gaelic and English now constitute 3·9 per cent. of the total population of Scotland. In 1901 they constituted 4·6 per cent., and in 1891, 5·2 per cent. Speakers of Gaelic only now constitute 0·4 per cent. of the total population; in 1901 they constituted 0·6 per cent., and in 1891, 1·1 per cent. (*Table H1.*)

In Tables XLIX., L., and LI. the numbers of Gaelic speakers enumerated at this census are shown (1) by the county of enumeration; (2) by the county, or country, of birth; (3) by sex; and (4) by age—over and under 20 only. Table XLIX. deals with all Gaelic speakers, L. with speakers of Gaelic and English, and LI. with speakers of Gaelic only.

Of the 202,398 Gaelic speakers, 96,861 are male, and 105,537 are female. Of these, 44,641 are of less than 20 years of age, and 157,757 of 20 years of age and over. The number of Gaelic-speaking males of under 20 years of age is 851 in excess of that of females of those ages, but the number of Gaelic-speaking females of 20 and over is 9,527 in excess of the corresponding number of males. The ratio of male to female Gaelic speakers of under 20 is 104·0 to 100, and of female to male Gaelic speakers of over 20, 112·8 to 100; and the difference between these ratios is so large as to be suggestive of an abnormal loss of Gaelic-speaking males by death or emigration at or over the age of 20. But a comparison of the ratios between males and females of Scottish birth in the entire population of Scotland, and of over and under the age of 20, with the ratios given above, shows that the relatively greater loss among Gaelic-speaking males than among Gaelic-speaking females is not only no larger than that found among all persons of Scottish birth, but is in fact less. In the entire population the ratio of males of Scottish birth of under 20 to females of Scottish birth of those ages is 104·0 to 100, while that of females of Scottish birth of over 20 to males of Scottish birth of over that age is 115·7 to 100.

Of the 202,398 Gaelic speakers enumerated in Scotland, 48,780, or 24·10 per cent.,

were enumerated in Inverness; 46,926, or 23·18 per cent., in Ross and Cromarty; 31,695, or 15·66 per cent., in Argyll; 24,947, or 12·33 per cent., in Lanark; 9,038, or 4·46 per cent., in Perth; 5,587, or 2·76 per cent., in Renfrew; 4,989, or 2·46 per cent., in Edinburgh; and smaller numbers in the remaining counties, the smallest numbers being 43 in Kinross, 45 in Shetland, 70 in Selkirk, and 76 in Orkney.

The proportion of the population of the counties able to speak Gaelic is found to average 4·25 per cent., and to vary from 60·66 per cent. in Ross and Cromarty, 58·67 per cent. in Sutherland, 55·89 per cent. in Inverness, 44·70 per cent. in Argyll, 11·44 per cent. in Bute, 9·97 per cent. in Nairn, and 7·27 per cent. in Perth, to less than 0·3 per cent. in Kincardine, Orkney, Selkirk, Shetland, and Wigtown. In Lanark this percentage is 1·72, and in Edinburgh, 0·98.

Speakers of Gaelic unable to speak English were enumerated in fourteen counties, the great majority of them—98·55 per cent.—being in three counties. In Ross and Cromarty they numbered 9,110, and constituted 49·51 per cent. of the total; in Inverness, 7,670, or 41·68 per cent.; in Argyll, 1,355, or 7·36 per cent.; and in Sutherland, 188, or 1·02 per cent. In Perth 41 speakers of Gaelic only were enumerated; in Lanark, 20; in Renfrew, 6; in Caithness, 3; in Bute, 2; and in Dumbarton, Edinburgh, Elgin, Fife, and Haddington, 1 each. By a scrutiny, it was ascertained that the majority of speakers of Gaelic but not English, in counties other than Argyll, Caithness, Inverness, Perth, Ross and Cromarty, and Sutherland, were elderly widows.

Of the 202,398 Gaelic speakers, 58,469, or 28·89 per cent., were born in Inverness; 55,173, or 27·26 per cent., in Ross and Cromarty; 41,525, or 20·52 per cent., in Argyll; 13,994, or 6·91 per cent., in Sutherland; 9,223, or 4·56 per cent., in Perth; 7,118, or 3·52 per cent., in Lanark; and smaller numbers in the remaining counties, the smallest being 12 in Kinross, 13 in Selkirk, 25 in Kirkcudbright, 26 in Berwick, 36 in Shetland, and 40 in Wigtown.

The proportion of Gaelic speakers born in the different counties averages 4·51 per cent., and varies from 64·55 in Ross and Cromarty, 59·76 in Inverness, 59·61 in Sutherland, 50·74 in Argyll, 12·24 in Bute, 6·88 in Perth, 5·69 in Nairn, and 1·79 in Elgin, to less than 0·1 in Berwick, Fife, Kirkcudbright, Peebles, and Selkirk.

Of the Gaelic speakers of Scotland, 4,358, or 2·15 per cent., were reported to be of Irish birth, and presumably were speakers of Irish, not Scottish, Gaelic. These amount to 0·25 per cent. of all persons of Irish birth enumerated in Scotland. (*Table H2*).

A comparison of the number of Gaelic speakers enumerated in the counties with the number born in them, affords an indication of the amount of migration among the Gaelic-speaking community. Thus the number of Gaelic speakers born in Argyll exceeds the number enumerated there by 9,830, and this number amounting to 23·67 per cent. of the Gaelic speakers born in the county, indicates a migration of that amount from Argyll to other parts of Scotland. The migration of Gaelic speakers from the County of Inverness amounts to 9,689, or 16·57 per cent., from Ross and Cromarty to 8,247, or 14·95 per cent., from Sutherland to 2,155, or 15·40 per cent., from Perth to 185, or 2·01 per cent., and from Caithness to 154, or 8·37 per cent. The counties in which the number of Gaelic speakers enumerated exceeds most largely the number born therein, and therefore the counties to which this migration mostly tends, and the amounts of the excess, are, Lanark, 17,829; Edinburgh, 4,021; Renfrew, 3,871; Dumbarton, 2,598; Stirling, 1,304; and Fife, 1,179. Some of these latter figures may contain, and almost certainly do contain, numbers of Irish, and consequently it is not safe to assume that they are entirely composed of migrants from Highland counties.

If the above comparisons are restricted to the figures applicable to persons of over 20 years of age, instead of extending to the figures applicable to those of all ages, the resulting rates of loss by the Highland counties are apparently higher. Taking the figures of the male sex of 20 years of age and over, it is found that the loss by migration into other Scottish counties amounts in Argyll to 26·81 per cent., in Inverness to 21·47 per cent., in Ross and Cromarty to 20·19 per cent., and in Sutherland to 17·97 per cent.; and that the corresponding figures relative to females are in Argyll 32·30 per cent., in Inverness 23·82 per cent., in Ross and Cromarty 19·70 per cent., and in Sutherland 20·57 per cent.

The migration of these Gaelic-speaking persons in Scotland may be generally described as being of a nature similar to the results shown by a study of the birthplaces of the population of Scotland, and indicated by the figures given in *Table F3* and *F4*, on pages *xvi*. to *xcix*.

Special statistical studies based on the figures dealing with the speakers of Gaelic in

the insular parishes of the counties of Argyll, Inverness, and Ross and Cromarty, were included in Parts 6, 20, and 31 of Volume I. of the Report, being the Parts dealing specifically with the census of these counties, and the figures there stated are summarised in Tables H3 and H4 appended to this section of the Report. These parishes were selected for this purpose as they form the majority of all parishes in Scotland in which the Gaelic language is extensively and habitually used.

Gaelic speakers in these parishes number 66,081, and constitute 89·0 per cent. of their aggregate population. Of these, 15,746, or 23·8 per cent., speak Gaelic only, and 50,335, or 76·2 per cent., speak both Gaelic and English; the former constitute 21·2 per cent., and the latter 67·8 per cent., of the aggregate population. In 1881 the Gaelic speakers in these parishes constituted 92·3 per cent. of the aggregate population; in 1891 this rate was 91·3, and in 1901, 89·3. A comparison of the percentages of the population able to speak Gaelic but not English in these parishes shows a much heavier fall; in 1891 these persons constituted 4·16 per cent. of the total population; in 1901, 3·03; and now constitute only 2·25. The fall in this rate in twenty years amounts to 1·91, or 45·9 per cent. Thus, while there is good evidence that the proportion of the population without a knowledge of English is greatly reduced, there is no evidence of a similar reduction in the proportion having a knowledge of Gaelic; in other words, the evidence points to the change consisting in a knowledge of English being added to, rather than substituted for, a knowledge of Gaelic.

An examination of the age distribution of those able to speak Gaelic but unable to speak English shows that the reduction in their total number has taken place more in later school, younger working, and middle age periods, rather than in early life or in older age. In 1891 the number of Gaelic-speaking children of three and four years of age unable to speak English constituted 72·6 per cent. of the population of those ages, and this rate is now found to be practically unchanged, being 72·7. The rate in age period 5 to 9 has fallen since 1891 from 49·1 per cent. to 36·6 per cent.; in age group 10 to 14, from 23·9 per cent. to 6·0 per cent.; in age group 15 to 19, from 25·6 per cent. to 2·9 per cent.; in age group 20 to 24, from 29·3 per cent. to 3·3 per cent.; in age group 25 to 29, from 33·6 per cent. to 4·0 per cent.; and in age group 30 to 34, from 36·4 per cent. to 7·8 per cent. But in the higher age groups the change is not so great; in age group 35 to 39 the fall is from 36·2 per cent. to 11·6 per cent.; in age group 40 to 44, from 43·7 per cent. to 18·9 per cent.; in age group 45 to 49, from 45·1 per cent. to 23·7 per cent.; in age group 50 to 54, from 52·3 per cent. to 29·2 per cent.; in age group 55 to 59, from 51·6 per cent. to 29·9 per cent.; in age group 60 to 64, from 61·2 per cent. to 36·5 per cent.; in age group 65 to 69, from 60·9 per cent. to 42·7 per cent.; in age group 70 to 74, from 59·2 per cent. to 47·6 per cent.; in age group 75 to 79, from 64·5 per cent. to 53·3 per cent.; and in age group 80 and over, from 70·5 per cent. to 59·6 per cent. Thus, among the population of age group 15 to 19, the proportion of Gaelic speakers unable to speak English has, during twenty years, been reduced by 88·7 per cent., and in age group 20 to 24 by the same amount, but in age group 3 to 4 it has not been reduced, while in age groups of over 70 the reduction amounts to less than 20 per cent. The fact that in these parishes the proportion of children of under school age able to speak Gaelic but unable to speak English remains as high as it was in 1901, is indicative that the use of Gaelic in the homes is as prevalent now as it was then, and consequently indicates that there is little likelihood of Gaelic becoming a dead language for many years to come. (*Tables H3 and H4*).

TABLE H1.—NUMBER AND PERCENTAGE OF GAELIC SPEAKERS
IN SCOTLAND AT EACH CENSUS, 1881-1911.

CENSUS.	Total Population.	Speakers of Gaelic.	Speakers of Gaelic and English.	Speakers of Gaelic but not English.	Percentage of Total Population.		
					Speaking Gaelic.	Speaking Gaelic and English.	Speaking Gaelic but not English.
1881	3,735,573	231,594	—	—	6·2	—	—
1891	4,025,647	254,415	210,677	43,738	6·3	5·2	1·1
1901	4,472,103	230,806	202,700	28,106	5·2	4·6	0·6

CENSUS (GREAT BRITAIN) ACT, 1910.

(10 Edw. 7 & Geo. 5, Ch. xxvii.)

CHAPTER 27.

An Act for taking the Census for Great Britain in the year nineteen hundred and eleven. A.D. 1910.
[3rd August, 1910.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. A census for Great Britain shall be taken in the year nineteen hundred and eleven, and the census day shall be Sunday the second day of April in that year. Census to be taken in 1911.

2.—(1) The Local Government Board shall superintend the taking of the census. Central authority for and expenses of census.
(2) The Registrar-General shall, subject to the approval of the Board, prepare and issue such forms and instructions as he deems necessary for the taking of the census.
(3) The expenses incurred, with the approval of the Treasury, for the purposes of the census, shall be paid out of money provided by Parliament.

3.—(1) For the purposes of the census every registration sub-district shall be divided into enumeration districts, and an enumerator shall be appointed for each enumeration district. Enumeration districts and enumerators.

(2) Overseers and assistant overseers of the poor, relieving officers for poor law unions, and collectors of the poor rate shall, if so required by the Local Government Board, act as and be enumerators for the purposes of this Act.

4.—(1) Schedules shall be prepared by or under the direction of the Local Government Board for the purpose of being filled up by or on behalf of the several occupiers of dwelling-houses, with the following particulars, and no others, namely, Preparation and filling up of schedules.
particulars as to—

(a) the name, sex, age, profession or occupation, condition of marriage, relation to head of family, birthplace, and (in the case of a person born abroad) nationality, of every living person who abode in every house on the night of the census day; and

(b) whether any person who so abode was blind, deaf, dumb, imbecile, or lunatic; and

(c) in the case of any person who so abode being married, the duration of marriage, and the number of children born of the marriage, the number of such children living; and

(d) the number of rooms inhabited; and

(e) in the case of Wales or the county of Monmouth, whether any person who so abode (being of three years of age or upwards) speaks English only or Welsh only, or both English and Welsh.

(2) Every enumerator shall, in the course of the week ending on the Saturday next before the census day, leave at every dwelling-house within his enumeration district one or more of these schedules for the occupier thereof or of any part thereof, and on every such schedule shall be plainly expressed that it is to be filled up by the occupier for whom it is left, and that the enumerator will collect all such schedules within his district on the Monday then next following.

(3) Every occupier for whom any such schedule has been so left shall fill up or cause to be filled up the schedule, to the best of his knowledge and belief, so far as relates to all persons dwelling in the house, tenement, or apartment occupied by him, and shall sign his name thereto, and shall deliver the schedule so filled up and signed to the enumerator when required so to do.

(4) In this section the expression "dwelling-house" shall include every building

A.D. 1910. and tenement of which the whole or any part is used for the purpose of human habitation, and, where a dwelling-house is let or sub-let in different tenements or apartments and occupied distinctly by different persons or families, a separate schedule shall be left with or for and shall be filled up by the occupier of each such distinct tenement or apartment.

(5) For the purposes of this section, a person who is travelling or at work on the night of the census day, and who returns to a house on the morning of the following day, shall be treated as abiding in that house on the night of the census day.

Collection of schedules and returns by enumerators.

5.—(1) Every enumerator shall visit every house in his district, so far as may be possible, on the day next following the census day, and shall collect all schedules so left within his district in the course of the previous week, and shall complete such of the schedules as on delivery thereof appear to him to be defective, and correct such as he finds to be erroneous.

(2) Every enumerator shall also furnish in such forms as may be prescribed particulars concerning the population of houses and other buildings in his district or in any specified portion thereof.

Enumeration in public institutions, etc.

6. The governor, master, chief resident officer, manager, or other person in charge of every prison, workhouse, hospital, lunatic asylum, or public or charitable institution, or other large establishment, which may be determined upon by the Registrar-General, shall be the enumerator of the inmates thereof, and shall conform to such instructions as may be sent to him by the authority of the Local Government Board for obtaining the returns required by this Act, so far as may be practicable, with respect to the inmates.

Returns of persons travelling or on shipboard or not in houses.

7. The Registrar-General shall, subject to the approval of the Local Government Board, obtain returns of the particulars required by this Act with respect to persons who during the night of the census day were travelling or on shipboard, or for any other reason were not abiding on that night in any house of which account is to be taken by the enumerators, and shall include these returns in the reports to be made under this Act.

Reports on returns.

8. The Registrar-General shall, subject to the approval of the Local Government Board, prepare a preliminary report and a detailed report on the census returns, and each such report shall be printed and laid before both Houses of Parliament at as early a date as may be found practicable.

Power to supply further abstracts to local authorities.

9. The Registrar-General may, if and at such time as he thinks fit, at the request and cost of any local authority or any person, cause abstracts to be prepared containing statistical information which can be derived from the census returns but is not supplied by the census report, and which, in his opinion, the authority or person may reasonably require.

Matters to be prescribed by instructions.

10.—(1) Instructions issued under this Act may prescribe, among other things—

(a) the mode in which enumeration districts are to be formed and enumerators appointed; and

(b) the duties of superintendent registrars, registrars, enumerators, and other persons employed under this Act; and

(c) the allowances to be paid to persons employed under this Act; and

(d) the mode in which and the persons by whom the amount of the allowances payable in respect of each registration district is to be certified, and the persons by whom and the mode in which the payments are to be made; and

(e) anything authorised by this Act to be prescribed.

(2) The scale of allowances payable under this Act shall be subject to the approval of the Treasury.

Power to require enumerators to make statutory declarations.

11. Every enumerator shall make a statutory declaration to the effect that the returns furnished by him in pursuance of this Act or the instructions issued thereunder have been truly and faithfully taken, and that to the best of his knowledge they are correct so far as may be known, and such declaration may be made before a superintendent registrar or registrar, who for that purpose shall have power to take such statutory declaration as if he were an officer by law authorised to administer an oath.

12.—(1) If any superintendent registrar, registrar, enumerator, or other person A.D. 1910. employed under this Act, makes wilful default in the performance of any of his duties under this Act, or makes any wilfully false declaration, he shall for each offence be liable on conviction under the Summary Jurisdiction Acts to a fine not exceeding five pounds. Penalties for offences.

(2) If any occupier for whom a schedule is left under this Act—

(a) wilfully refuses, or without lawful excuse neglects, to fill up or cause to be filled up the schedule to the best of his knowledge and belief, or to sign and deliver it as by this Act required; or

(b) wilfully makes, signs, or delivers, or causes to be made, signed, or delivered, any false return of any matter specified in the schedule; or

(c) refuses to answer, or wilfully gives a false answer to, any question necessary for obtaining the information required to be obtained under this Act;

he shall for each offence be liable on conviction under the Summary Jurisdiction Acts to a fine not exceeding five pounds.

(3) If any person employed in taking the census communicates, without lawful authority, any information acquired in the course of his employment, he shall be guilty of a breach of official trust within the meaning of the Official Secrets Act, 1889, and that Act shall apply accordingly. 52 & 53 Vict. c. 52.

13. In the application of this Act to Scotland—

(1) “Secretary for Scotland” shall be substituted for “Local Government Board” and “Board”; Registrar-General for Scotland” for “Registrar-General”; “registration district” for “registration sub-district”; and “poorhouse” for “workhouse.” Application to Scotland.

(2) The schedules under this Act shall include particulars showing whether any person who abode in any house on the night of the census day (being three years of age or upwards) speaks English only or Gaelic only, or both English and Gaelic.

(3) The particulars to be furnished by the enumerators shall show, with respect to each dwelling-house, the number of rooms including a kitchen (if any) as a room, having a window, not being a window with a borrowed light.

(4) Sheriffs, sheriff clerks, chief magistrates, town clerks, inspectors of poor and assistant inspectors of poor, shall perform such duties as may be prescribed, including if so prescribed, such duties as were imposed on them by the Census (Scotland) Act, 1890. 53 & 54 Vict. c. 38.

14.—(1) This Act shall not extend to Ireland.

(2) This Act may be cited as the Census (Great Britain) Act, 1910.

Extent of Act and short title.

INSTRUCTIONS

For filling up the Columns headed "Profession or Occupation."

COLUMN 10.

1. DESCRIPTION OF PERSONAL OCCUPATION—Describe the occupation fully in Column 10. If more than one Occupation is followed state that by which living is mainly earned.

2. DEALERS, SHOPKEEPERS, OR SHOP ASSISTANTS as distinct from MAKERS, PRODUCERS, OR REPAIRERS. All such persons should be so described as to leave no doubt whether they are Dealers or Makers. In many cases "Tailors," "Bootmakers," "Hatters," "Watchmakers," "Goldsmiths," "Silversmiths," "Jewellers," "Chemists," "Bakers," "Seedsmen," "Florists," &c., and their Assistants are not Makers or Producers; in such cases the word "Dealer," "Shopkeeper," or "Shop Assistant" should be added to the occupational name. A person who both makes and deals should be described as "Maker" if chiefly Maker, or "Dealer" if chiefly Dealer.

3. OUT OF WORK.—If out of work or disengaged at the time of the Census, the usual occupation must be stated.

4. THE OCCUPATIONS OF WOMEN engaged in any business or profession, including women regularly engaged in assisting relatives in trade or business, must be fully stated. No entry should be made in the case of wives, daughters, or other female relatives wholly engaged in domestic duties at home.

5. (1) SCHOOL CHILDREN AND YOUNG PERSONS.—For all children and young persons attending school write "School"; or, if receiving regular instruction at home, write "Scholar at home." But—

(a) If attending school or classes half time or part time only, and not engaged in any wage-earning employment, write "School part time."

(b) If also engaged in any employment, state the employment as "School half time, Jute Mill."

(2) STUDENTS.—For persons—

(a) Attending Universities, Colleges, Technical Colleges, Continuation or other such classes, but not otherwise engaged in business or employment of any kind, write "Student." If studying for a specific profession, state the profession, as "Law Student," "Medical Student," "Teacher Student," &c.

(b) Attending Universities, &c., or receiving instruction as above, and at the same time engaged in business or employment of any kind, add the words "Student part time" to the description of the employment, as "Law Apprentice, Student part time," "Marine Engineer, Student part time," "Lithographic Draughtsman, Student part time."

6. RETIRED OR PENSIONED.—If retired or pensioned, state the fact, and add former Occupation, as "Retired Farmer," "Retired Butcher," "Police Pensioner," &c. The present occupation, if any, of pensioners should also be stated in all cases, as "Bank Porter (Army Pensioner)," &c.

7. PRIVATE MEANS.—For persons neither following nor having followed a profession or occupation, but deriving their income from private sources or allowances, write "Private Means."

8. VAGUE OR INDEFINITE TERMS MUST NOT BE USED ALONE, such for example as Apprentice, Assistant, Canvasser, Collector, Contractor, Foreman, Inspector, Labourer, Machinist, Manager, Manufacturer, Mechanic, Millhand, Overlooker, Superintendent (see also paragraphs a to r below). Care should be taken that no occupational name common to different industries is used without a full and distinctive description; an Enameller should be described, e.g., as a "Pottery Enameller," "Cycle Enameller"; a Painter, as a "Painter (Artist)," "Ship Painter," "House Painter," "Coach Painter": a Riveter, as a "Boiler Riveter," "Ship Plate Riveter," "Boot Riveter," &c.

(a) ARMY, NAVY, CIVIL SERVICE, MUNICIPAL SERVICE, &c. State the service and rank or grade.

(b) MINISTER, CLERGYMAN, PRIEST. State whether "Minister (Established Church)," "Minister (United Free Church)," "Minister (Free Church)," "Episcopalian Clergyman," "Roman Catholic Priest," "Wesleyan Methodist Minister," &c. Clergymen who are also Schoolmasters should return themselves as Schoolmasters. Local or occasional preachers should return their ordinary occupations only.

(c) LEGAL PROFESSION. State whether "Advocate," "Writer to the Signet," "Solicitor Supreme Courts," "Law Agent," "Solicitor," "Solicitor's Clerk," "Law Clerk," &c.

(d) AGENT, BROKER, BUYER, MERCHANT, SALESMAN, COMMERCIAL TRAVELLER. State particular kind of business or trade, as "Cycle Agent," "Sugar Broker," "Coal Merchant," "Commercial Traveller, Millinery," &c.

(e) CLERK. State whether "Bank Clerk," "Insurance Clerk," "Law Clerk," "Bookstall Clerk," "Hotel Clerk," "Railway Clerk," "Theatre Clerk," &c.

(f) ENGINEERING AND METAL TRADES. State precise branch of trade and nature of operation, as "Engineer's Pattern Maker," "Ship Plater's Helper," "Iron Worker" is too indefinite; state whether employed at Blast Furnace, Puddling Furnace, Iron Foundry, &c.

(g) ENGINEMAN, ENGINE-DRIVER, STOKER, FIREMAN. State whether "Railway Engine-Stoker," "Traction Engine-Driver," "Stationary Engine-man," "Gas Stoker," "Furnace Stoker, at Potteries," &c.

(h) COTTON, WOOL, LINEN, JUTE, SILK, OR OTHER TEXTILE OPERATIVE, DYER, BLEACHER, &c. State the material and the precise occupation as "Cotton Spinner," "Bobbin Carrier in Cotton Spinning Room," "Flax Hackler," "Wool Sorter," "Jute Carder," "Linen Weaver," &c.

(i) MINER, QUARRYMAN. State kind of mine or quarry, and nature of work, as "Coal Miner, Hewer," "Colliery Horsekeeper (below ground)," "Colliery Lamp Examiner (above ground)," "Colliery Labourer (above ground)," "Lead Miner," "Stone Quarryman," "Slate Quarryman," &c.

(k) (1) FARMER. State whether "Farmer," "Grazier," or "Farm Manager," "Farmers' sons or other relatives assisting in the work of the farm should be returned as "Farmer's Son working on Farm," "Farmer's Brother working on Farm," "Farmer's Daughter—Dairy work," &c.

(2) CROFTER.—If also engaged in fishing, or other occupation, such should be stated as "Crofter, Fisherman," "Crofter, Road Surfacceman," &c. Crofters' sons and daughters and other relatives assisting in the work of croft should be returned as "Crofter's son or daughter, &c., working on croft."

(l) FARM SERVANT. State nature of work, and indicate if mainly in charge of horses, cattle, &c., as "Farm Grieve," "Farm Foreman," "Ploughman," "Hind," "Horseman on Farm," "Carter on Farm," "Cattleman on Farm," "Shepherd," &c. A Labourer on a Farm whose work is of a general character should be returned as "Farm Labourer," not simply as a Labourer.

(m) LABOURER, PORTER, &c. State nature of employment as "Bricklayer's Labourer," "Dock Labourer," "Railway Contractor's Labourer," "Farm Labourer," "General Labourer," "Coal Porter," "Railway Porter," &c. The terms "Labourer," "Porter," should never be used alone.

(n) DOMESTIC SERVICE. State nature of service as "Cook (Domestic)," "Housemaid (Domestic)," "Gardener (Domestic)," "Coachman (Domestic)," "Nursery Governess."

(o) SERVANTS, WAITERS, &c., IN HOTELS, CLUBS, RESTAURANTS, AND BOARDING HOUSES. State nature of employment and service in which engaged, as "Hotel Cook," "Hall Porter at Club," "Hotel Waiter," "Restaurant Waitress."

(p) NURSE. State whether "Hospital Nurse," "Nurse Nurse," "Nurse (Domestic)," "Monthly Nurse," "Sick Nurse," &c.

(q) GARDENER. State whether "Gardener (Domestic)," "Market Gardener," "Jobbing Gardener," "Nurseryman," &c.

(r) COACHMAN, GROOM, MOTOR-CAR DRIVER. State whether employed in Cab, Omnibus, Domestic, or other service, as "Coachman (Domestic)," "Chauffeur (Domestic)," "Motor-Bus Driver," "Tramway Motor-Man."

COLUMN 11.

9. INDUSTRY OR SERVICE WITH WHICH CONNECTED.—The information asked for in this column is required in order to ascertain for each industry or service how many persons are employed therein, or in connection therewith, although following a distinct occupation. Thus, for instance, for breweries it is desired to know how many coopers, blacksmiths, bricklayers, &c., are in the direct employment of breweries, as well as the numbers actually engaged in brewing processes. Further, it is desired to ascertain the number of persons directly employed by central or local government authorities, whether in administration or in undertakings, such as tramways, gas-works, &c. Following are examples of cases in which entries should be made in Column 11 as well as in Column 10.

Column 10. Personal Occupation.	Column 11. (Industry or Service with which worker is connected).	Column 10. Personal Occupation.	Column 11. (Industry or Service with which worker is connected).	Column 10. Personal Occupation.	Column 11. (Industry or Service with which worker is connected).	Column 10. Personal Occupation.	Column 11. (Industry or Service with which worker is connected).
Blacksmith's Striker	Loco. Dept. Rail. Co.	Copper Roller Engraver	Calico Printer.	Housekeeper	Drapery Warehouse.	Railway Engine Driver	Ironworks.
Bricklayer	Blast Furnace.	Cotton Drawing Frame Texter	Net Manufacture. Oilworks.	Iron Founder	General Engineer.	Ship Fitter	Harbour Board.
Cardboard Box Maker	Soap Manufacture.	Electrician	Jute works.	Iron Founder	Stove and Grate Maker.	Solicitor	Insurance Company.

Cooper	Fishearing Yard.	House Painter				Wood Sawyer	Rly. Co.'s Carriage Works.

CENSUS OF SCOTLAND, 1911.

Before filling up the Schedule please read the Instructions given on the other side of the paper, as well as the headings of the Columns, and also refer to the Examples. The entries should be written in Ink.

No. of Schedule

(As entered in "Enumeration Book.")

NAME AND SURNAME.		RELATIONSHIP to Head of Family.		[Last Birthday] and SEX.		GAELIC.		PARTICULARS AS TO MARRIAGE.	
Of every Person, whether Member of Family, Visitor, Boarder, or Servant who		State whether "Head," or "Wife," "Son," "Daughter," or other Relative, "Visitor," "Boarder," or "Servant."		Insert opposite each Name the Ages of Males in Column headed "Ages of Males," and those of Females in Column headed "Ages of Females."		Write "G" opposite the Name of each person, 3 Years of Age and upwards who speaks Gaelic only, and "G and E" opposite the Name of each person who speaks both Gaelic and English.		State for each Married Woman entered on this Schedule the number of:—	
(1) passed the night of Sunday, April 2nd, 1911, in this dwelling, and was alive at midnight, or		Ages of Males.		Ages of Females.		Write "Single," "Married," "Widower," or "Widow," opposite the names of all persons aged 15 years and upwards.		Children born alive to present Marriage. (If no children born alive write "None" in Column 8.)	
(2) arrived in this dwelling on the morning of Monday, April 3rd, not having been enumerated elsewhere. No one else must be included.		2		3		5		7	
Write first the name of the Head of the Family, then the names of his Wife, Children, and other Relatives, as the case may be, followed by those of Visitors, Boarders, and Servants. (See examples on back hereof.)		3		4		6		8	
1		2		3		5		7	
2		3		4		6		8	
3		4		5		7		9	

PROFESSION OR OCCUPATION.		BIRTHPLACE of every person.		NATIONALITY of every person born in a Foreign Country.		INFIRMITY (if any, as under-mentioned).	
Industry or Service with which Worker is connected.		Whether working at Home.		State whether— (1) "British subject by parentage," (2) "Naturalised British subject," Or (3) If of foreign nationality, state whether "French," "German," "Russian," &c.		State if any person included in this Schedule is:— (1) "Totally Deaf" or "Deaf and Dumb," (2) "Totally Blind," (3) "Lunatic," (4) "Imbecile" or "Feeble-minded." (If from infancy, state so.)	
Whether Employer, Worker, or Working on Own Account.		Whether working at Home.		State whether— (1) "British subject by parentage," (2) "Naturalised British subject," Or (3) If of foreign nationality, state whether "French," "German," "Russian," &c.		State if any person included in this Schedule is:— (1) "Totally Deaf" or "Deaf and Dumb," (2) "Totally Blind," (3) "Lunatic," (4) "Imbecile" or "Feeble-minded." (If from infancy, state so.)	
Write opposite the name of each person engaged in any Trade or Industry: (1) "Employer" (that is employing persons other than domestic servants) or (2) "Worker" (that is working for an employer), or (3) "Own Account" (that is neither employing others nor working for a Trade employer).		Write the words "At Home" opposite the name of each person carrying on Trade or Industry at home.		(1) If born in Scotland, write the name of the County, and of the Town or Parish. (2) If born in England or Ireland, write the name of the County. (3) If born in any other part of the British Empire, write the name of the Colony or Dependency. If born in India, write "India" and also the name of the Province or State—adding "European origin," if such. (4) If born in a Foreign Country, write the name of the Country. (5) If born at sea, write "At Sea."		(1) "Totally Deaf" or "Deaf and Dumb," (2) "Totally Blind," (3) "Lunatic," (4) "Imbecile" or "Feeble-minded." (If from infancy, state so.)	
This question should generally be answered by stating the business carried on by the employer. If this is clearly shown in Column 10, the question need not be answered here. No entry needed for Domestic Servants in private employment. If employed by a public body (Government, Municipal, etc.), state what body. (See Instruction 9 and examples on back of Schedule.)		Whether working at Home.		State whether— (1) "British subject by parentage," (2) "Naturalised British subject," Or (3) If of foreign nationality, state whether "French," "German," "Russian," &c.		State if any person included in this Schedule is:— (1) "Totally Deaf" or "Deaf and Dumb," (2) "Totally Blind," (3) "Lunatic," (4) "Imbecile" or "Feeble-minded." (If from infancy, state so.)

CENSUS OF SCOTLAND, 1911.

SCHEDULE.

Prepared pursuant to the Census (Great Britain) Act, 1910.

These particulars to be filled in by the Enumerator.

No. of Registration District _____

No. of Enumeration District _____

No. of Schedule as entered in "Enumeration Book" _____

Name of Head of Family or of Separate Occupier _____

Postal Address _____

Number of Rooms, including Kitchen, with one or more windows occupied by the person or persons entered on this Schedule. _____
(Sculleries, pantries, bath-rooms, &c., not to be counted, nor Rooms used as Office, Shop, or for other business purpose.)

NOTICE.

The Schedule must be filled up, and signed, by the Head of the Family, or, in his absence, by the person in occupation, or in charge, of the dwelling. If unable to write in the particulars himself, he may allow another person to do so in his presence.

If a house or part of a house be let or sub-let to separate families or persons, then each Occupier (Head of Family, or Lodger) must fill up a Schedule applicable to his part of the house. Boarders are not to be considered as separate occupiers.

In the case of Hotels, Boarding Houses, Clubs, and other similar establishments, the Keeper, Manager, or other person in charge must fill up a Schedule with respect to all the inmates.

The Schedule will be called for on Monday, April 3rd, by the appointed Enumerator, and should be ready, with the answers written in the proper columns, early on the morning of that day.

If the answers are incomplete or inaccurate, the Enumerator is empowered to ask any questions necessary to enable him to complete or correct the Schedule.

If any person whose duty it is to give information refuses to do so, or wilfully gives false information as to any of the required particulars, he will be liable on conviction to a fine not exceeding FIVE POUNDS.

If the Head of the Family or other person responsible is unable to deliver the Schedule personally to the Enumerator, he may instruct another person to do so.

The contents of the Schedule will be treated as strictly confidential.

J. PATTEN MACDOUGALL,
Registrar-General.

Approved,

PENTLAND,

H.M. Secretary for Scotland.

Part 6. County of Argyll—

P. 254, line 2. For “Saddell and Skipness” read Southend.

Part 7. County of Ayr—

P. 370. Burgh of Maybole. Ages of Widowed Females. Numbers should be transposed one space to the *right*.

P. 371. Burgh of Prestwick. Ages of Widowed Females:—

	20-	25-	30-	35-	40-	45-	50-	55-	60-	65-	70-	75-	80-	85-	90-
For .	1	11	4	20	19	25	20	41	29	28	39	3	13	—	2
Read .	1	—	4	11	19	20	20	25	29	41	39	28	13	3	2

P. 410, Table XXIVA. Metal Manufacture (other than Iron), for “506” read 566.

Part 8. County of Banff—

P. 442. Ages, Total of County. Person entered as “100+” should be transferred to “Not Stated” column.

P. 443. Parish of Boyndie. Ages of Widowed Males. Numbers should be transposed one space to the *right*.

Parish of Cullen. Ages of Widowed Males. Numbers entered in the columns for ages “40-” to “65-” inclusive, should be transposed two spaces to the *right*.

Part 11. County of Caithness—

- P. 571. Burgh of Thurso. Ages of Widowed Females. Numbers entered in the columns for ages 25 and upwards should be transposed one space to the *right*.

Part 17. County of Fife—

- P. 960. Burgh of Auchtermuchty. Ages of Married Males. Numbers should be transposed one space to the *right*.
- P. 963. Burgh of Leslie. Ages of Widowed Females. Numbers should be transposed two spaces to the *right*.

Part 25. County of Linlithgow—

- P. 1604. Burgh of Borrowstounness. Ages of Widowed Females. Numbers should be transposed one space to the *left*.

Part 27. County of Orkney—

- P. 1686. Burgh of Kirkwall. Ages of Widowed Females. Numbers entered in the columns for ages 25 and upwards should be transposed one space to the *right*.

Part 35. County of Stirling—

- P. 2186. Total of Wood Turners (females), for “—” read 4.
 ,, Timber, etc.—Merchants, Dealers (females), for “—” read 1.
- P. 2213. Table XXIVA. Other Dress Industries, for “64” read 164.

In regard to the above-mentioned corrections in the numbers at various ages, it should be noted that corresponding corrections fall to be made in the sex-totals of the respective burghs and parishes.

TABLE II.—POPULATION OF SCOTLAND AND OF THE CIVIL COUNTIES AT EACH CENSUS SINCE 1801.

NOTE.—The figures in this Table, for the Censuses of 1801-1841, are extracted from a retrospective Table of adjusted returns in respect of those Censuses contained in the Census Report for 1851. The returns for 1841 are inclusive of the Military population, and those for 1851, and subsequent Censuses, of both the Military population and persons enumerated on board Shipping in Scottish waters.

TABLE VI.—POPULATION, &c., OF CIVIL PARISHES IN 1911 AND 1901.

Note.—Where the boundaries of any Parish have been altered since the 1901 Census, the population of the Parish, as given in the Report on that Census, is shewn in the Table, as also, in italics, for purposes of comparison, the 1901 population of the area now included in the Parish. The date of alteration in each case is added in parentheses.

No.	CIVIL PARISHES.	Area in Acres.	1911.						1901.								
			Separate Families.	HOUSES.			POPULATION.			Separate Families.	HOUSES.			POPULATION.

TABLE IX.—POPULATION, &c., OF BURGHS IN 1911 AND 1901.

Note.—Where the boundaries of any Burgh have been altered since the Census of 1901, the population of the Burgh as given in the Report on that Census is shewn, as also, in italics, for purposes of comparison, the 1901 population of the area now included in the Burgh. The date of alteration in each case is added in parentheses.

* A small portion of Perth City, containing no population at Census date, is situated in the Parish of Scone.

TABLE XII.—POPULATION OF REGISTRATION DISTRICTS IN 1911 AND 1901.

NOTE.—Where the boundaries of any Registration District have been altered during the intercensal period, the 1901 Census population of the area now included within the District is shown in the Table in italics, and the date of alteration is inserted in parentheses against the name of the Registration District. The 1901 population of the District previous to alteration will, in each case, be found in the appropriate County Part of Volume I. of the present Census Report.

The omission of a No. in the first column of the Table indicates that there now exists no Registration District under such Official No.

OCCUPATION TABLES.

These Tables—XXVI to XXXII—deal essentially with the aggregate numbers of persons in Scotland with remunerative occupations. Detailed information regarding the Occupied in counties, in cities, and in burghs with populations of over 20,000, is to be found in the various County Parts of the First Volume.

An Index to the occupations, shewing their positions in the Tables, and the principal designations embraced under the various headings, is given in Table XXXIII.

The occupations of the population are further dealt with in Tables XXXVI and XXXVII, in which the Occupied are tabulated according to the Industry to which they are attached.

TABLE XXVI.—SCOTLAND—OCCUPATIONS OF MALES AND FEMALES Aged 10 Years and Upwards, in Eleven Groups of Ages, and by Status.

OCCUPATIONS.	MALES.											Total.					
	AGES OF MALES 10 YEARS AND UPWARDS.																
	Working at Home.	Employers.	Working for Employers.	Working on own account.	Others or no Statement.	10 to 13	14	15	16	17	18 to 19		20 to 24	25 to 44	45 to 64	65 to 69	70 and over.

131. Coal, Coke—Merchants, Dealers	68	11	14	2	1	1	4	1									5
132. Dealers in Stone, Slate, &c.	6		1		1							3	2	15			

TABLE XXVIII.—*continued* (Occupations of Females by Cities and Counties).

OCCUPATIONS.	FEMALES.																	
	TOTAL.	CITIES.				COUNTIES (including Cities).												
		Edinburgh.	Glasgow.	Dun- dee.	Aber- deen.	Aber- deen.	Argyll.	Ayr.	Banff.	Berwick.	Bute.	Catbness.	Clack- mannan.	Dumbar- ton.	Dunfries.	Edin- burgh.	Elgin.	Fife.
X.—METAL, MACHINE, IMPLEMENT, AND CONVEYANCE MANUFACTURE.																		
1. Iron and Steel Manufacture.																		
133. Pig Iron Manufacture (Blast Furnaces)	4																	
134. Puddling Furnaces and Rolling Mills; Tube Manu- facture	35	4																
135. Steel—Manufacture, Smelting, Founding	5	1																
2. Manufacture of Other, Mixed, or Unspecified Metals.																		
136. Lead Manufacture	11	11		2														
137. Manufacture of other or unspecified Metals	19	7													3			
3. Engineering and Machine Making.																		
138. Patternmakers	8	1											3					
139. Millwrights	1	1																
140. Ironfounders	167	16					14						2		3			
141. Brassfounders	29	1											2		5			
142. Blacksmiths, Strikers	31	4	1										3		5			
143. Erectors, Fitters, Turners	5								4	1								
144. Brass Finishers	12														6			
145. Coppersmiths																		
146. Metal Machinists	175	26											102		6			
147. Labourers in Engineering Works	6	5											1					
148. Boiler Makers																		
149. Other or undefined Workers in Engine and Machine Making	1,811	380	19	8			25					4	1,073	2	17		23	
4. Electrical Apparatus.																		
150. Electrical Cable Manufacture	25	24																
151. Electric Lamp Manufacture	2	2																
152. Other Electrical Apparatus Makers; Electric Fitters; Electricians (undefined)	64	23										11	2		22			2

TABLE XXVIII.—*continued* (Occupations of Females by Cities and Counties).

OCCUPATIONS.	FEMALES.																
	TOTAL.	CITIES.				COUNTIES (including Cities).											
	Edinburgh.	Glasgow.	Dumfries.	Aberdeen.	Aberdeen.	Argyll.	Ayr.	Banff.	Berwick.	Bute.	Caithness.	Clackmannan.	Dumbaron.	Dumfries.	Edinburgh.	Elgin.	Fife.
10. Vehicles.																	
182. Railway—Coach, Wagon Makers	3	1	—	—	—	—	1	—	—	—	—	—	—	—	—	—	—
183. Cycle Makers	71	41	2	2	—	—	3	—	—	—	—	—	—	—	—	—	3
184. Motor Car Makers	22	10	1	1	—	—	—	—	—	—	—	—	—	—	—	—	—
185. Coach, Carriage—Makers	11	3	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—
186. Wheelwrights	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—
187. Others in Construction of Vehicles	8	3	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—
11. Dealers in Hardware, Metals, Machines.																	
188. Ironmongers; Hardware—Dealers, Merchants	1,371	608	21	23	23	9	54	3	1	10	2	—	46	4	80	5	42
189. Other Dealers in Metals, Machines, &c.	210	47	10	9	10	1	15	2	—	—	—	2	6	3	20	3	18
XI.—PRECIOUS METALS, JEWELS, WATCHES, INSTRUMENTS AND GAMES.																	
1. Precious Metals and Jewellery.																	
190. Goldsmiths, Silversmiths, Jewellers	234	118	4	11	14	2	8	2	—	—	—	—	8	1	32	2	4
191. Lapidaries and other Workers	12	3	—	—	—	1	3	—	—	—	—	—	1	—	2	—	—
2. Watches and Scientific Instruments.																	
192. Watchmakers, Clockmakers	57	19	2	6	5	1	3	—	2	—	—	—	—	—	4	—	4
193. Scientific Instrument Makers; Opticians; Photographic Apparatus Makers	56	32	—	3	3	—	1	—	—	—	—	—	—	—	9	—	2
194. Weighing and Measuring Apparatus Makers	86	74	5	—	—	—	1	—	—	—	—	—	—	1	77	—	—
195. Surgical and Dental Instrument and Apparatus Makers	53	41	1	—	—	—	—	—	—	—	—	—	—	—	42	—	—
3. Musical Instruments.																	
196. Piano, Organ—Makers	21	11	1	2	2	—	1	—	—	—	—	—	1	—	—	—	—
197. Other Musical Instrument Makers	5	2	—	—	—	—	—	—	—	—	—	—	—	—	2	—	—
4. Tackle for Sports and Games.																	
198. Fishing Tackle, Toy, Game Apparatus—Makers	583	207	—	63	65	—	2	—	—	—	—	—	1	1	145	—	4
5. Dealers.																	
199. Dealers in Precious Metals, Jewellery, and Watches	213	53	2	18	18	5	22	1	1	1	—	—	6	1	28	2	7
200. Dealers in Instruments, Toys, &c.	86	25	3	2	3	1	4	—	—	—	—	—	—	—	17	1	6

166. Anchor, Chain—Manufacture	3	—	—	—	—	1	—	—	—	—	—	—	—	—	—	—
167. Stove, Grate, Range, Fire Iron—Makers	1	—	—	1	—	—	—	—	—	—	—	—	1	—	—	—
168. Wire—Drawers, Makers, Workers, Weavers	8	—	—	6	—	2	—	—	—	1	—	7	—	—	—	—
169. White Metal, Plated—Ware Manufacturers; Pewterers	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
170. Tinplate Goods Makers	19	1	1	13	—	5	—	—	—	—	4	12	3	—	—	—
175. Other Iron Goods Makers; Iron Workers (undefined)	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
176. Other Metal Workers	1	—	—	1	—	—	—	—	—	—	1	—	—	—	—	—
9. Ships and Boats.																
181. Ship Painters; Shipyard Labourers (undefined); others in Ship and Boat Building	8	—	—	5	—	3	—	—	—	—	3	4	—	1	—	—
10. Vehicles.																
182. Railway—Coach, Wagon Makers	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
183. Cycle Makers	8	1	2	6	—	—	—	—	—	—	—	7	—	—	1	—
184. Motor Car Makers	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
185. Coach, Carriage—Makers	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
11. Dealers in Hardware, Metals, Machines.																
188. Ironmongers; Hardware—Dealers, Merchants	86	5	13	16	53	4	—	—	—	—	1	47	37	1	—	—
189. Other Dealers in Metals, Machines, &c.	10	1	2	6	2	—	—	—	—	—	1	5	3	1	—	—
XI.—PRECIOUS METALS, JEWELS, WATCHES, INSTRUMENTS AND GAMES.																
1. Precious Metals and Jewellery.																
190. Goldsmiths, Silversmiths, Jewellers	6	—	2	2	1	1	—	—	—	—	—	2	4	—	—	—
191. Lapidaries and other Workers	1	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—
2. Watches and Scientific Instruments.																
193. Scientific Instrument Makers; Opticians; Photographic Apparatus Makers	3	—	—	3	—	—	—	—	—	—	—	3	—	—	—	—
194. Weighing and Measuring Apparatus Makers	2	1	—	2	—	—	—	—	—	—	1	—	1	—	—	—
195. Surgical and Dental Instrument and Apparatus Makers	1	—	—	1	—	—	—	—	—	—	—	—	1	—	—	—
3. Musical Instruments.																
196. Piano, Organ—Makers	3	1	1	2	—	—	—	—	—	—	1	2	—	—	—	—
4. Tackle for Sports and Games.																
198. Fishing Tackle, Toy, Game, Apparatus—Makers	7	—	—	5	—	2	—	—	—	—	2	4	1	—	—	—
5. Dealers.																
199. Dealers in Precious Metals, Jewellery, and Watches	5	—	—	2	2	1	—	—	—	—	—	3	2	—	—	—
200. Dealers in Instruments, Toys, &c.	2	—	—	—	2	—	—	—	—	—	—	1	1	—	—	—

TABLE XXIX.—*continued.*

	a	b	c	d	e	f	g	h	i	j	k	l	m	n	o	p
XIV.—BRICK, CEMENT, POTTERY, AND GLASS.																
1. Brick, Cement, Pottery, and Glass.																
239. Brick, Plain Tile, Terra Cotta—Makers	46	—	—	43	—	3	—	—	—	—	4	35	6	1	—	—
241. Earthenware, China, Porcelain—Manufacture	124	—	—	115	4	5	—	—	—	5	19	84	16	—	—	—
243. Glass Bottle Manufacture	8	—	—	7	—	1	—	—	—	—	—	6	2	—	—	—
244. Other Workers in Glass Manufacture	4	—	—	4	—	—	—	—	—	—	1	2	1	—	—	—
245. Brick, Cement—Dealers	1	—	—	1	—	—	—	—	—	—	—	—	1	—	—	—
246. Earthenware, China, Glass—Dealers	41	1	3	6	29	3	—	—	—	—	2	22	16	1	—	—
XV.—CHEMICALS, EXPLOSIVES, OIL, SOAP, RESIN, &c.																
1. Colouring Matter.																
247. Dye, Paint, Ink, Blacking—Manufacture	8	—	—	7	—	1	—	—	—	1	—	1	6	—	—	—
2. Explosives and Matches.																
248. Gunpowder, Guncoiton, Explosive Substance—Manufacture	11	—	—	10	—	1	—	1	—	—	—	8	2	—	—	—
249. Cartridge, Fireworks, Explosive Article—Manufacture	1	—	—	1	—	—	—	—	—	—	1	—	—	—	—	—
250. Lucifer Match Manufacture	2	—	—	2	—	—	—	—	—	—	—	2	—	—	—	—
3. Salt, Drugs, and other Chemicals and Compounds.																
252. Manufacturing Chemists	49	—	—	45	—	4	—	—	—	1	6	30	12	—	—	—
253. Alkali Manufacture	3	—	—	2	1	—	—	—	—	—	—	1	2	—	—	—
254. Chemists, Druggists	19	2	1	4	11	3	—	—	—	—	—	9	7	2	1	—
4. Oil, Grease, Soap, Resin, &c.																
255. Mineral Oil Workers	1	—	—	1	—	—	—	—	—	—	—	1	—	—	—	—
256. Other Oil Workers; Oil Cake Makers	5	—	—	4	—	1	—	—	—	—	—	5	—	—	—	—
257. Candle, Grease—Manufacture	5	—	—	3	1	1	—	—	—	—	1	1	3	—	—	—

OCCUPATIONS.	WIDOWS.												
	TOTAL.	Working at Home.	Employers.	Working for Employers.	Working on own account.	Others or no Statement.	18 to 19	20 to 24	25 to 44	45 to 64	65 to 69	70 and over.	Not stated.
X.—METAL, MACHINE, IMPLEMENT, AND CONVEYANCE MANUFACTURE.													
1. Iron and Steel Manufacture.													
133. Pig Iron Manufacture (Blast Furnaces)	1	—	—	1	—	—	—	1	—	—	—	—	—
134. Puddling Furnaces and Rolling Mills; Tube Manufacture	2	—	—	1	1	—	—	2	—	—	—	—	—
135. Steel—Manufacture, Smelting, Founding	1	—	—	—	1	—	—	—	1	—	—	—	—
2. Manufacture of Other, Mixed, or Unspecified Metals.													
136. Lead Manufacture	1	—	—	1	—	—	—	—	1	—	—	—	—
3. Engineering and Machine Making.													
139. Millwrights	1	—	—	1	—	—	—	—	1	—	—	—	—
140. Ironfounders	6	—	—	6	—	—	—	5	—	—	—	1	—
141. Brassfounders	1	—	—	1	—	—	—	—	1	—	—	—	—
142. Blacksmiths, Strikers	21	—	19	1	1	—	—	5	9	2	5	—	—
143. Erectors, Fitters, Turners	1	—	—	1	—	—	—	—	1	—	—	—	—
144. Brass Finishers	1	—	—	1	—	—	—	—	1	—	—	—	—
146. Metal Machinists	7	—	—	5	2	—	2	2	2	1	—	—	—
149. Other or undefined Workers in Engine and Machine Making	32	—	2	23	4	3	1	13	13	4	1	—	—
4. Electrical Apparatus.													
152. Other Electrical Apparatus Makers; Electric Fitters; Electricians (undefined)	3	—	2	—	—	1	—	—	3	—	—	—	—
5. Tools.													
153. Tool Makers	1	—	1	—	—	—	—	—	—	—	1	—	—
154. File Makers	1	—	—	1	—	—	—	1	—	—	—	—	—
155. Saw Makers	1	—	1	—	—	—	—	1	—	—	—	—	—
157. Needle, Pin—Makers	2	—	—	2	—	—	—	—	1	1	—	—	—
6. Types, Blocks, Dies.													
160. Type—Cutters, Founders	6	—	—	5	—	1	—	4	2	—	—	—	—
161. Die, Seal, Coin, Medal—Makers	1	—	—	1	—	—	—	—	1	—	—	—	—

8. Miscellaneous Metal Trades.													
164. Nail Manufacture	3	—	—	3	—	—	—	—	1	2	—	—	—
165. Bolt, Nut, Rivet, Screw, Staple—Makers	11	—	—	11	—	—	—	1	10	—	—	—	—
168. Wire—Drawers, Makers, Workers, Weavers	4	—	—	4	—	—	—	1	1	—	1	—	—
169. White Metal, Plated—Ware Manufacturers; Pewterers	2	—	1	1	—	—	—	—	1	1	—	—	—
170. Timplate Goods Makers	8	—	1	3	—	4	—	—	2	2	1	1	2
171. Copper Workers	1	—	—	1	—	—	—	—	1	—	—	—	—
174. Brass, Bronze—Workers	1	—	—	1	—	—	—	—	1	—	—	—	—
175. Other Iron Goods Makers; Iron Workers (undefined)	5	—	1	3	—	1	—	—	2	2	1	—	—
9. Ships and Boats.													
178. Ship—Other Workers in Iron	3	—	—	2	—	1	—	—	—	2	—	1	—
181. Ship Painters; Shipyard Labourers (undefined); Others in Ship and Boat Building	8	—	—	6	—	2	—	—	1	6	1	—	—
10. Vehicles.													
183. Cycle Makers	4	—	2	1	1	—	—	—	2	1	1	—	—
185. Coach, Carriage—Makers	2	—	1	1	—	—	—	—	—	2	—	—	—
11. Dealers in Hardware, Metals, Machines.													
188. Ironmongers; Hardware—Dealers, Merchants	173	9	31	15	124	3	—	—	52	88	22	11	—
189. Other Dealers in Metals, Machines, &c.	4	—	3	—	1	—	—	—	1	3	—	—	—
XI.—PRECIOUS METALS, JEWELS, WATCHES, INSTRUMENTS, AND GAMES.													
1. Precious Metals and Jewellery.													
190. Goldsmiths, Silversmiths, Jewellers	11	2	8	2	1	—	—	—	4	7	—	—	—
2. Watches and Scientific Instruments.													
192. Watchmakers, Clockmakers	5	—	3	—	2	—	—	—	1	—	1	3	—
193. Scientific Instrument Makers; Opticians; Photographic Apparatus Makers	2	1	1	—	1	—	—	—	—	2	—	—	—
194. Weighing and Measuring Apparatus Makers	2	—	—	2	—	—	—	—	1	1	—	—	—
195. Surgical and Dental Instrument and Apparatus Makers	2	—	—	1	—	—	—	—	—	2	—	—	—
3. Musical Instruments.													
196. Piano, Organ—Makers	3	—	1	1	1	—	—	—	1	2	—	—	—
197. Other Musical Instrument Makers	1	—	1	—	—	—	—	—	—	1	—	—	—
4. Tackle for Sports and Games.													
198. Fishing Tackle Toy, Game Apparatus—Makers	7	2	1	4	—	2	—	—	3	3	—	1	—
